Office: Masonic Building, Germain Street

ST. JOHN, N. B., SATURDAY, APRIL 12.

CIRCULATION, 6,800.

THIS PAPER GOES TO PRESS EVERY FRIDAY AT TWELVE O'CLOCK.

RESTRICTING, SALES OF POISONS.

Among the measures introduced into the legislature is one to restrict the sale of ons. It will pass of course, though not in its original form, which would have unnecessarily interfered with the sale of some of the most common and necessary household remedies, such as paregoric, a preparation of opium, and many other gs which have been and should be sold without restraint.

The idea of the bill is well enough, as showing that the legislators want to do their duty in preventing murder and suicide, but like a good deal of other legislation, of the states have such a law, and while it is found to be a serious annoyance with there is no claim that it has ever prevented suicide or murder. So long as "Rough on tions can be obtained freely, there is use in requiring a physician's prescription for laudanum or chloroform. The person than it needs to be, and it costs the people who wishes to kill another or himself by poison, is pretty sure to find the means to

In the city of New York there is a parvery strict in the observance of it. A tew and a source of needless expense. years ago a doctor in attendance upon a late at night, found himself in required for a most important and was sent in haste to the nearest drug store, but despite his explanations could not of tain the drug without a prescription, which the doctor in his haste had omitted to furnish. The man returned to the house, got the prescription, and returned with the chloroform, but it was too late. His wife was dead. Had he been after arsenie, in the shape of rat poison, the expenditure of fifteen cents or so would have procured it without a prescription. This is how the

However, the law may do no hurt in this province, whether it does any good or not. In case of the intelligent druggists it will be accepted for what it is worth, and while it need not inconvenience them, it may be found useful in doubtful and suspicious

The intelligent druggist generally has an unwritten law of his own in regard to

DIVIDING THE DISTRICT.

The proposition to divide the city of St. The proposition to divide the city of St.

John into new electoral districts for local election purposes, has, it must be confessed, a suspicious flavor. The theory, as advanced by friends of the measure, is that the electoral district as now constituted is large and inconvenient, especially for the candidates who have to endure the trials of a campaign. A county member, for instance, has not only the eastern and western ends to look after. but the city of St. John

The falst number of the University Monthly of the cadenic year will be enlarged to 32 pages. The deditors propose to print portraits of the faculty and good engravings of the old and present college. The distributed with a view of benefiting the match and was fuely executed. At one place Miss Tupper and Mrs. Cecil Marshall, and was fuely executed. At one place Miss Tupper and Mrs. Cecil Marshall, and was fuely executed. At one place Miss Tupper and Mrs. Cecil Marshall, and was fuely executed. At one place Miss Tupper and Mrs. Cecil Marshall has a finely trained good engravings of the old and present college. The diction will be much larger than usual and will be distributed with a view of benefiting the institution. The Easter number of Youth's Companion was something that every boy and girl in the country would enjoy. It is seldom that one finds so much instructive. It is the one high class weekly that, and there too I cannot refrain from speaking of 10; and in the institution. The Sater number of Youth's Companion was something that every boy and girl in the country would enjoy. It is seldom that one finds so much instructive. It is the one high class weekly that, and the country would enjoy. It is seldom that one finds so much instructive. It is the one high class weekly that, and the proposes a law for the analysis of agrimuch less limited in their field of operations, have more than enough to do in looking after their interests from Bugtown to the Ballast wharf, and from the Lancaster line to the Marsh bridge.

There may be something in the contention, but to the unprejudiced mind certain questions naturally arise. The first is, "Who asks for the change?" the second, "Why do they want it?" and the third, "If any change is needed, is the one suggested the most desirable?"

The request does not appear to come from the people of St. John, or from any considerable number of them, at least There has been no agitation on the subject. Nobody appears to have heard anything about it, until it was introduced as a government measure, and if it has "come to fill a long felt want," nobody seems to have known that the want existed. As to why the change is proposed, the only answer can be conjecture, and on the part of the opposition press the word "gerryhas been revived from its recent obscurity to do duty in a protest against the legislation.

The objectionable feature of the matter appears to be that the proposed measure is in the nature of special legislation, and the public are quick to suspect a rat of some

kind-in the meal tub. If there was a redistricting of the province or any other part of it, there would be less ground for n, but that the city and county of St. John should be sinlged out at this ticular time is a circumstance which can hardly fail to lead to a belief that something more than the real good of the people is intended.

The people of the city of St. John have been very well satisfied with things as they are, and any change which give them less members than they now have is not likely to meet with favor. The contention is made that on the basis of population the city has no more than its due now, and that the new scheme practically diminishes its represen-tation, reducing it below the level of the ordinary country constituencies. Its only possible effect will be to lessen the power of the city without giving any advantage to the county, or to anybody save the politi-

If, as is claimed, St. John needs to be divided into three electoral districts, the ordinary non-political mind would suggest a method somewhat different from that proposed. Let the city have its members and the parishes their parishes. Give the city of St. John four, St. John county east one, and St. John county west one, making six in all. This would prevent the mixing up of parish politicians in city affairs, and would be a simple, easily workable division which ought to prove satisfactory to all. a method somewhat different from that proposed. Let the city have its members

But the question after all is, do we need any such special legislation at the present time, and will it be in our interests only or in the interests of those who seem to be at the bottom of the matter?

TOO MUCH MACHINERY

Mr. THYCKKE FOGG has some pertinent reflections this week on the unnecessary it is of little practical use. Most, if not all amount of government inflicted on the people of this province. That a population less than that of Boston should require all people who have legitimate use for poisons, the paraphernalia of a nation seems to him hardly in accordance with the fitness of things. It strikes others the same way. Rats" and other cheap but deadly prepara- There is too much government all over

The house of commons is much bigger of Canada an extravagant amount to have its business done. So it is in the province of New Brunswick, and so in the city of St. John. Numbers do not add strength ticularly stringent law regarding the sale to legislative bodies. In the instances of poisons, and respectable druggists are named they are an element of weakness

But so long as men who ought to be at useful avocations are ambitious to live by want of chloroform when it was urgently their wits in politics, so long will parliaments increase and multiply, under the nediate operation. The woman's husband | pretext that the people are being better represented. It is hard to convince the people that if one province has 100 members and another ten, that the latter is no better off than if it had five to the first

There is too much machinery for the amount of work done, and the people pay too big a price for their whistle.

too personal altogether.

How the Friends of Bright Boys Can get them Instoresced in Business.

PROGRESS is the only maritime paper that has newsboys selling it on their own account outside of St. John. Every week a large number of papers are sent to out of the way places, where there are no regular news stores, to bright, active boys who have from ten to seventy-five customers.

In Moncton, Newcastle and Amherst there are bright lads always waiting for PROGRESS, Saturday, who do not depend entirely on regular customers, but are sure of selling from 50 to 100 papers to anyone and everyone on the street. They make all the way from 50 cents to \$2.00 in a few hours Saturday morning, and benefit themselves and please their friends by their industry. Here is a letter to the publisher of PROGRESS which shows how some boys get a start from kind hearted people, who are to see them get along.

MEDIA SACKVILLE, N. B., March 26, 1800. MR. EDWARD S. CARTER,

Dear Sir: Ever since you started the paper, and as I saw some time ago that you wanted boys to see what could be done here. If you will send his to see what could be done here. If you will send his you can send to me.

The papers were forwarded promptly, and mark what followed! The following postal was received April 3rd:

What is to hinder bright boys in every village in the province from doing the same as young McQueen. He will work up a good sale—sufficiently at any rate to make

soil sale—sufficiently at any rate to make Saturday morning valuable to him, and what is still better learn him habits of business. The conditions are such that he must be prompt, and consequently he will not allow his customers who "haven't the change"—they are to be found everywhere—to "block" him. Everyone must pay up promptly in order that he may meet his payments at the end of each month.

What better way is there to give a bright boy a start and at the same time to increase the circulation of Progress?

Since the above was written another

kind of thing. A party is going to the Lonnaise, asylum to give an entertainment for the inmates, which no doubt will be enjoyable. The Choral club met last Tuesday evening, at Mrs. W. A. Ewing's, Princess street. I give the programme as nearly as I could get it. The first half of the evening, as usual, was devoted to rehearing "Christ and His Soldiers." The club then sang the "Kyrie," from Haydra's first Mass. Mr. Potre sang "Raddier, than a cherry." The Philharmonic club, which was present, played the "Sin-fonia to Jeptha." Mr. White gave a violin solo, the arther and first man of cither. Miss Hea gave the aria, "O' Thou that tellest," from the Messiah, with orchestral accompaniment. Mrs. Ewing and Miss Eastman (of Boston) gave a piano duet, and the evening was concluded with the "Hallelijah Chorus" by the club. Some of the numbers were omitted on account of the absence of several mem. order has been received from C—— as follows:

And here it may not be out of place to spanneds the noble organ in this church. It has two manuels and 22 speaking stops, with one of the finest border pedals the writer has ever heard. It is played by and 22 speaking stops, with one of the finest border pedals the writer has ever heard. It is played by Mr. G. B. Faulconer in a most masterly manner. The duct in the evening anthem was taken by Miss Tupper and Mrs. Cecil Marshall, and was finely executed. At one place Miss Tupper took high A, with fine effect. Mrs. Marshall has a finely trained voice, and uses it well. Of Mr. Sutton's singing little can be said. He is superb.

Next in order comes St. Andrew's Presbyterian: Organ voluntary.

And here too I cannot refrain from speaking of our other fine organ, it has also 22 speaking stops of great variety, and two pedal stops, one open double diapason (metal) and one bourdon. It is shown off to a better advantage than the Episcopal organ, being in the front of the church and taking up the entire chancel, and is said to be one of the handsomest fronts in the Dominion. It is played by Mr. E. R. Stuart, of Maitland, a pupil of Hermann Kotchzmao, which is all the recommendation he needs. The soloists were, Miss Doggett and Mr. Currie. Both are good and did justice to their parts. The organ loft was suitably trimmed with lillies and other plants. As the organist is out of town today I could not hear for certain, but understand the anthem is to be sung on Sunday next again. And here too I cannot refrain from speaking of
