

WEATHER PROBABILITIES.

Maritime—Fresh to strong westerly winds clearing and higher temperature. Toronto, Ont., July 8.—The disturbance which was this morning off the Nova Scotia coast is passing to the southeast of Newfoundland, causing gales and heavy rains in the Maritime Provinces and the Gulf region. Showers and thunderstorms have occurred in the west, while in Ontario the weather has been fine and decidedly warm.

New England Forecast. Washington, D. C., July 8.—Forecast for New England: Generally fair, Friday and Saturday; light to moderate variable winds, mostly west and north-west.

Arrived at Grindstone. The steamship Wragby arrived at Grindstone Island yesterday afternoon to load deals for the west coast of England. She is consigned to J. H. Scammell & Co.

One Drunk Treated in Usual Manner. One lone drunk was before Magistrate Ritchie yesterday and was given the usual reception. He was told to pay \$5.00 or go to jail for two months.

No. 2 Battery, 3rd C.A. The members of No. 2 Battery, 3rd Regt. C.A., will meet at the Drill Shed, West Side, at 7 o'clock on Friday for inspection by Lt.-Col. B. M. Baxter. All members must be present. S. B. Smith, Major.

Will Await Recorder's Return. There is to be no special meeting of the Common Council for the purpose of ratifying the choice of Queen square as the site of the Champlain monument and King square as the site of the Tilley statue, until Recorder Skinner returns to the city.

Improvements at Moosepath. The erection of the eleven additional stalls at Moosepath, made necessary by the expected influx of horses for the July meet is well under way. It is expected that they will be completed by Wednesday. There will be other improvements made at the track, and everything will be done to make the races successful.

Wife Beater Arrested. Ben Fisher, of 134 Erin street, was arrested last evening by Officer Hughes on a warrant for the same old offence, beating his wife.

The Fisher abode appears to have been the scene of many domestic squabbles of late, and once more the family difficulty will be aired in the police court.

Mr. F. C. Durant in Halifax. Mr. Durant, who was in St. John a few days since, looking for a suitable site for a mysterious industry, which some conjecture to be sugar refining, is now in Halifax. Wednesday's Halifax Mail has the following: "Frederick C. Durant, of New York, who is in the city looking about for a suitable site for a great industry, was taken about the city by President Johnson, of the Board of Trade, and Vice-Presidents Paulkner and MacKinlay. This afternoon Dartmouth was visited, when President Creighton, of the Dartmouth Board of Trade, did the honors."

IT WAS ALL DONE IN BARKER HOUSE HALL

In the little hall of the Barker house, Lock Lomond, last evening the faithful of the Opposition party gathered in a little nook to listen to the words of Mr. E. H. McAlpine, K. C., and Mr. A. B. Copp, M. P., of Sackville, who a few short months since was dubbed "the disorganizer," by the morning newspaper now busily engaged in a hopeless attempt to advance the interests of Mr. Copp's party.

Slim Attendance. The room in which the meeting was held was not crowded to suffocation. There was a brave array of followers on the platform to back the two speakers, but the audience was of slim proportions.

Mr. E. H. McAlpine made one of his usual addresses pointing out what a wise and economical administration had been given by the old Government. He also discussed the Highway Act but his effort to show that the partisan Highway Boards of the majority of the provinces were not trying to hinder the operation of the act was not particularly successful.

The "Disorganizer." Mr. Copp, the Disorganizer, spoke along similar lines. He devoted some attention to the school book question but failed to make his audience understand how the Hazon Government had erred in redeeming its pledge to give cheaper school books to the people of the province.

Taking the meeting altogether the lack of enthusiasm was an indication that in Slimonds Mr. Bentley will find the sledding pretty hard on polling day.

REGIMENTAL INSPECTION OF 3RD REGT. C.A.

The regimental inspection of No. 3 Battery, 3rd Regt. C.A., took place at the drill shed last night. Lt.-Col. J. B. M. Baxter was the inspecting officer. The North End Battery acquitted itself well.

No. 2 Inspected Tonight. This evening Col. Baxter will inspect No. 2 Battery at its battery headquarters, Fort Dufferin. The inspection of No. 1 Battery was held on Wednesday evening at the drill shed.

General Inspection. The 3rd Artillery as a regiment will be inspected by Major General Drury on Friday, July 16. The inspection will take place on the Barrack Square. There will be a full attendance of all members of the regiment.

Mr. F. Jones, of Bear River, is at the Dufferin.

EIGHT LEFT TO ATTEND Y.M.C.A. INSTITUTE

Last night a party of eight left on the midnight train over the I. R. C. for Woodburn, N. S., to attend the Y. M. C. A. Institute which will be held at Big Cove, Sutherland's River, N. S., July 9 to 16. Secretary A. W. Robb of the local Y. M. C. A. was in charge of the party which consisted of J. G. McKinnon, James A. Green, Ronald Machum, A. Claire Gilmour, Lawrence Dow, W. Grant Smith and Ralph Ogilvie.

Purpose of Institute. The institute is for the older boys and the workers of the Y. M. C. A. Its purpose is to train for better service in boys' work. Those at Big Cove will live in tents while the institute is in progress. A complete programme for each day has been arranged and the time will be fully occupied. Mr. A. W. Robb, of St. John will deliver an address tomorrow morning on Physical work; Objectives, Organization, Methods, etc. Mr. Robb, after spending a week at Big Cove will go on to Halifax where he will spend another week before returning to St. John.

TO ESTABLISH A MINISTERS' RELIEF FUND

Resolutions were passed establishing a committee to institute and establish a fund to be known as the ministers' relief fund, for aged and disabled ministers. It was also resolved that the executive of the alliance, in union with Mr. Joseph Bullock and Mr. J. F. Bullock, be a committee to complete the improvements already begun on the camp grounds, and to have erected a new hotel this season.

Thanks to Mr. Bullock. After the passing of these resolutions a hearty vote of thanks was tendered to Mr. J. F. Bullock, for the interest he had taken in the work of beautifying the camp grounds. A vote of thanks was also tendered to Mr. and Mrs. Joseph Bullock for their substantial gift of \$1,000 to the Home Mission fund. It was resolved that the following be continued on license for another year: Messrs F. Blaiscell, B. A., Ira Dewitt Loat, F. P. Wright, Leonard Sabean, Handley Mullin and William Howe. A resolution was also passed, favoring of the granting of license to Messrs. F. A. Jones and S. Dow, of Woodcock.

At the same time as the Mission meeting was going on Rev. Dr. Sanders conducted the regular young people's meeting. At 2:30 o'clock Rev. Mr. Ruth preached to a large audience. At 4:30 o'clock a meeting of the general missionary board was held. Considerable important business was transacted at the meeting.

At 7:30 o'clock Rev. Mr. Ruth, the evangelist, once again preached a fine sermon. This session ended the day's services.

"Daily News" Popular. Mr. J. F. Bullock's journal "The Beulah Daily News," is published each evening and is becoming very popular.

WAS TAKEN TO PROVINCIAL HOSPITAL

Mr. W. J. Groathead, traveller for Messrs. Moore, Smith & Co., hatters of Boston, was taken to the Provincial Hospital yesterday from the St. John Private Hospital on account of temporary insanity, caused by a bad sore throat. Groathead arrived in the city on Dominion day and put up at the Royal. He was then suffering with a bad cold and called Dr. T. D. Walker. The next day his condition was decidedly worse, and acting under Dr. Walker's advice, he went to the Private Hospital. Yesterday he became insane and was removed to the Provincial Hospital.

WHOLE PLANT WIPED OUT AT CARIBOO MINES

Special to The Standard. Halifax, N. S., July 8.—The crusher, a forty stamp mill and all the buildings of the American Company were destroyed by fire at the Cariboo Mines yesterday afternoon. The loss will be very heavy as there were no insurance. How the fire originated is a mystery. The mine has recently been started up at full strength, and it will be a great loss to the community.

Mr. C. B. Black, of Halifax, was at the Dufferin yesterday. Mr. G. A. McArthur, of Sussex, arrived in the city last night. He is at the Park.

BACK FROM CONVENTION AT OMAHA

Mr. Alfred Dever, pressman of The Standard, returned from Omaha on Tuesday after attending the annual convention of the Pressmen of North America. Mr. Dever was the only representative from the Maritime Provinces who attended the convention. The sessions at Omaha occupied six days, and much important business was transacted.

Important Decisions. The convention decided to take steps to establish a home for pressmen, and also a technical school for the education of the society's members. The question of stamping out tuberculosis also received attention. The problem was one of importance as among employments that of pressmen ranks third in the number of deaths of operatives from tuberculosis. An aggressive anti-tuberculosis campaign is to be begun. At the Omaha convention some two hundred and fifty delegates were present, Canada being well represented. The convention of 1910 is to be held in Columbus, Ohio.

BD. OF HEALTH PROSECUTIONS TO BEGIN SOON

Yesterday the returns of two of the Board of Health inspectors who have been examining the premises in various parts of the city, were submitted to Mr. J. R. Armstrong, the board's counsel. Prosecutions will probably result within a few days as many citizens have not come up to the requirements of the Board of Health in the matter of cleaning their premises.

Inspection Completed To-Morrow. The reports of other inspectors will be in shortly and it is expected that the result will be a big list of prosecutions by the Board of Health before the police magistrate.

The inspection will be completed to-morrow. Prosecutions may be begun next week. Milk Licenses. The Board of Health has issued 177 licenses to storekeepers to sell milk. There have been 60 licenses granted to vendors so far. The veterinary is now completing the inspection of the dairies.

Monthly Meeting of Board. On Wednesday next the Board of Health will hold its regular monthly session. Among important business to be transacted will be the presentation of the report of the committee on tuberculosis.

MAY SELL FAMOUS PARIS CREW'S SHELL

Mr. Elijah Ross, the sole survivor of the world-famous Paris crew, has received an offer from a Bostonian for the shell St. John in which the world-beating four rowed at Paris and made three-mile and six-mile records still unbeaten.

Raced on the Kennebecasis. This shell is the same in which the crew rowed on the Kennebecasis on that memorable day when Renforth died. It is in an excellent shape, as good, Mr. Ross says, as ever. Mr. Ross is not desirous of parting with this shell, but circumstances compel him to give up his boat house, and he will then have no place to keep it.

The shell is now in the boat house of Mr. Ross at Sand Point. A relic of such historic interest from an aquatic point of view should not be permitted to leave St. John, but it seems likely that it will.

MANY STORIES RE FEROCIOUS DOGS AT LARGE

Yesterday afternoon, in front of the No. 2 Hook and Ladder station, a young boy was attacked by a ferocious dog. The boy, whose name is not known, is said to have been bitten quite badly. Mr. William J. Cox, who happened to be at the fire station, succeeded in driving off the dog, but not without considerable effort.

Another canine story was at issue last evening. Richard Rackley, of 148 Mecklenburg street, asked the police station last night, entering to have two dogs belonging to the famous Annie Doherty, of Blood Alley, destroyed. The canine pet, of which one is a bull terrier, he claims attacked his dog, lacerated it into pieces, causing its death.

Mr. Rackley feels very badly over the loss of his dog. Many other ferocious dogs have been reported to be roaming around the city unmuzzled, causing many persons to be severely bitten.

LOST VALUABLE HORSE.

Dalhousie, N. B., July 8.—Today about ten o'clock the firm of A. and R. Leigle lost a valuable horse by being struck by the branch engine while shunting in the yard. A boy who was driving it paid no attention to the approaching engine and drove the horse on the crossing. The horse was knocked down and had one leg cut off which made it necessary to have it killed.

John Good came home from Campbellton Saturday evening. Not feeling well enough to go back Monday called Dr. A. G. Ferguson, who found a very severe case of typhoid fever.
