

Mrs. McKim Filed Suit For Divorce

MRS. MARGARET EMERSON MCKIM.

Reno, Nev., May 5.—Mrs. Margaret Emerson McKim, wealthy and prominent in society in Newport, New York and Baltimore, has filed her long expected divorce suit against Smith, Hollins McKim in the District Court here.

Mrs. McKim's father, J. Emerson, of Baltimore, manufacturer of bromo seltzer, arrived from the East a few days ago, and accompanied his daughter to the court. Mrs. McKim will join the court clerk's files as soon as it was recorded, thus preventing any knowledge of the contents of the complaint becoming public.

The complaint was withdrawn under the representation that the attorneys wished to obtain an order for the publication of summons from the district judge.

ARTICLE ON BRITISH KING WITHDRAWN

Issue of Contemporary Review Recalled Owing to References to Sovereign Taking Part in Politics.

London, May 5.—A sensation has been caused by the news that the May number of the Contemporary Review which was issued last Saturday has been withdrawn from circulation and that a revised edition will be put into circulation in the course of a few days.

The Evening News states that this is due to a criticism of the king's bad taste and disloyalty of certain references to the king in an article which had the place of honor in the review.

Copies of The Contemporary were sent to the newspapers for review on Friday last, but on Saturday all who had received them were requested to return them, as it was desired to revise one of the articles. Beyond this no intimation was given by the publishers of The Contemporary of what had occurred to cause the unusual step of suppressing, or partially suppressing, the review.

Seven persons who have read the supposedly offensive article declare that they are quite unable to understand why it should have led to the withdrawal of the review.

The "Opportunity of the King," it opened with a fierce denunciation of the king's "Hamlet" played by "The Fallies" at the Apollo Theatre and concluded with an appeal to the king, a good sportsman, to arrange a settlement of the controversy between the king and the Commons on the basis of an arrangement that would give the Liberals a sporting chance to have a majority in the Upper Chamber whenever a general election is held.

The article generally discussed the position of the king and the extent of his discretion in deciding whether the members of the expedition hope to decide the question whether the earth involves electromagnetic disturbances of the earth's atmosphere.

One theory of the nature of electrical radiation, and if this theory is correct it is probable that the ultra-sensitiveness which exists in Court circles at the moment regarding the introduction of the king's name into party politics.

The expedition will cooperate with two others: One that the Carnegie Institution is sending to Alaska, and the other at the North Cape under the Norwegian physicist Birkeland.

Certain writers have taken advantage of the appearance of the comet to harrow the feelings of readers with speculations as to a possible collision between this wanderer and the earth.

The comet, the deadliness of the gases which make up its atmosphere, and strive to create a general sense of impending danger that is different from the usual sense of danger.

The comet is a grove. For unknown ages this comet has been rushing through space, covering its elliptical orbit of miles once every 75 years.

As far as astronomers have been able to determine, it is hurtling through the same groove in space as it was the day before Adam was born.

Many hundreds of years ago it was observed with terror by astrologers, who associated its appearance with some terrible event in history.

If anything unusual occurred the year before or the year after, there would be always enough superstitious people to believe it.

THE LATEST ON HALLEY'S COMET

Fervid Imagination of Kings County Man Pictures Heavenly Visitor as Terrestrial Motor Car -- Comet Will Miss Earth by More Than 15,000,000 Miles -- Expedition to Iceland.

Interest in the appearance of Halley's comet grows apace as the time approaches when the heavenly visitor will be seen in the full glory of its brilliance.

A Kings County man has been devoting some thought to the subject, and the following thoughts which are given for what they are worth:

Dear Sir: In the scientific world it is apparently floundering in its efforts to understand the phenomenon, or to explain the mystic star's allotted part in the universal programme.

For aught we know this fleeting star may be a chariot, sphere or world of conveyance or transportation, or to give our dreamy thoughts and musings scope.

Or perhaps it may be one of the "many mansions" in our Father's house, as, in the opinion of the ultra-sensitiveness which exists in Court circles at the moment regarding the introduction of the king's name into party politics.

The expedition will cooperate with two others: One that the Carnegie Institution is sending to Alaska, and the other at the North Cape under the Norwegian physicist Birkeland.

Why these masses rush toward the sun with enormous velocity for 35 years or so, and then whisk around and sail away from it, with gradually diminishing speed, is a puzzle that astronomers can explain; but it is easier to show a similar phenomenon than to understand the explanation.

The comet in their relation to the sun is exactly the same as the relation of a bit of suspended pith, a rod of glass and a stick of sealing wax. A little friction of a handkerchief upon the glass rod will make it attract the pith suspended on a silk thread.

Having been once attracted the pith takes on a charge of electricity, and thereafter the glass rod will repel it with as much power as it once attracted. But the stick of sealing wax and the pith is strongly attracted to it, only to acquire a quality of repulsion for the wax and to recover its power of attraction for the glass.

This simple experiment, explained by the Detroit News Tribune, is governed by exactly the same principles as control the comets and the sun.

As the comet approaches the sun from a distance no tail is visible; but within a certain range the tail begins to develop. It is not a cloud of red-hot particles driven off by friction of a meteorite, that is consumed by the friction of its own velocity through our atmosphere.

In that case it would extend in a direction directly opposite to the direction of travel. As a matter of fact the tail is always developed on the side opposite to the sun, and some repellent force from the greater mass were blowing off particles of the envelope of the comet, or rather charging it with electricity, so that we are able to see parts that are ordinarily invisible.

We have kindred phenomena on a large scale in the aurora or northern lights, and on a small scale when, during certain conditions of atmosphere, the tips of the yards and spars and in fact every projecting part on a ship at sea will be tipped for a time with a glow of St. Elmo's fire that ever since men went "down to the sea in ships," has awed and mystified seafaring men.

A Streak of Gas. This tail of electricity charged particles may be a mere streak of highly gaseous matter which envelops the nucleus of the comet on all sides to the same extent.

It may be only the most rarefied portion that shows as the tail, for the same reason that a high-tension electrical discharge which may be invisible in ordinary atmosphere gives a pale glow to the whole interior of a glass globe from which the air has been exhausted.

Long ago, Heinrich Geissler, the celebrated maker of scientific instruments, covered through hollow glass tubes containing gases in rarefied condition, produced various colors of the spectrum, each gas having its characteristic color.

It is no longer supposed that the comet's tail is elementary matter in a molten condition, which might reduce this planet to a cinder by its terrific heat.

It Has Happened Before. On the contrary, the comet's tail is thought to be made up of particles so rarefied that our own atmosphere, let alone the solid planet itself, would bore through it as a bullet would bore through a cloud of smoke.

On many occasions, this globe has passed through the tail of a comet, most recently in 1811, and before that in 1819. It was as though we had floated through the beam of a faraway searchlight.

Only the astronomers knew it was happening. Equally undisturbed we shall undergo the approaching ordeal.

MAX BEERBOM WEDS. New York, May 5.—Cable despatches received today announced the marriage in London last night of Max Beerbom, the writer and critic, to Miss Florence Kahn, an American actress, whose home is in Memphis, Tenn. The ceremony was performed in great secrecy.

IMPORTED CLYDEDALES FOR SALE.

Just arrived at Fredericton from Scotland seven choice bred Clydesdales and splendid individuals. The lot comprises one Stallion four years old, one Stallion three years old, and five three-year-old mares.

These horses will be sold by private sale to the first buyers that come, at very moderate prices considering the quality of the animals. Six months credit will be given on approved notes.

Horses may be inspected at Phair's Stable, King Street. All information as to pedigree, &c., may be obtained at the stable or by addressing A. H. Thomson, c/o Department of Agriculture, Fredericton, 1029-1030 D.W.

NOTICE TO BUILDERS. TENDERS WILL BE RECEIVED by the undersigned until 12 o'clock noon, of May 13th, for the remodeling of the Victoria Street United Baptist Church, St. John, N. B., according to plan of specification to be seen at the office of H. H. Mott, Architect, German street, city.

The lowest or any tender not necessarily accepted.

PUMPS. Packed Flange, Compound Duplex, Centrifugal, shot and cast iron. Automatic feed pumps and receivers. Single and double acting power, Triple pump for pulp mills. Independent jet condensing apparatus, centrifugal pumps. G. EDGECOMBE & COMPANY, Nelson Street, St. John, N. B.

CLASSIFIED ADVERTISING. Necessity is the Mother of Invention, and Classified Advertising was invented by The Man who was Forced to be brief. 10c PER WORD PER INSERTION, 6 INSERTIONS CHARGED AS 4. MINIMUM CHARGE 25c.

FOR SALE. ESTATE SALE. Valuable Farms on the St. John River—in good working order, with immediate possession. Convenient steamer, wharf, store and school privileges. For terms write or enquire of W. BAIRD, Barrister, etc., Loan and Real Estate Offices, Pugsley Bldg. 1029-1030 D.W.

FOR SALE—Have for sale 3 bike wagons, 2 cushion tire wagons, 4 delivery wagons, and a number of new hand-made carriages. Phone A. G. EDGECOMBE, 115 or 120 City Road, Factory Phone 547, house 225.

FOR SALE—New Home, Domestic and other Sewing Machines from \$6. Buy in bulk and save agents' commission. Genuine needles of all kinds. Sewing Machine Oil. Repairs and alterations. WILLIAM CRAWFORD, 105 Princess St. Opposite White Store.

For Sale—Freehold property, house on Have lock, 1200 sq. ft. of land, 1000 sq. ft. of land, 1000 sq. ft. of land. Apply to George Maxwell or Marshall, Sanford & Co., 1029-1030 D.W.

TO LET. Desirable suite of offices to let in the Canada Permanent Block from May 1st or 15th of June. Apply at premises.

To Let—New bright flats, modern improvements. Cor. Rockland Road, Park St. Apply on premises, after-noon.

WANTED. Wanted—Boy to learn plumbing, J. H. Noble, King Square, 1046-2-May-9.

Wanted—Boy for office work. Must be 8th Grade. Apply in own hand-writing by mail. Box 405, City, 1027-51-May-9.

Girl Wanted—By family of three, girl between 14 and 16 for general household work. Good wages to right party. Apply 23 Cedar St.

Wanted—Pastry cook and table waiter from June 1st at Kennedy's Hotel, St. Andrews, good wages. Apply to W. S. Kennedy, proprietor, St. Andrews, N. B. 1027-41-May-9.

Wanted—A bread baker. Must be good on bread and supper. Work will be at night with helper. Apply to Sydney Cake and Pastry Co., Sydney, C. B. 1026-61-May-9.

WANTED—A sack maker or man to take charge of Sack Department. Also bench and machine launders. Apply to CHRISTIE WOODWORKING CO. LTD. 15 Mecklenburg street. 912-11.

Wanted—A competent cook. References required. Apply to Miss Thomas, 15 Mecklenburg street. 912-11.

Lumber Wanted. 100 M. of clear Spruce Boards. 100 M. of clear, fair Birch Boards.

A. E. HAMILTON, St. John, N. B. Phone—211.

COAL and WOOD. WE SELL—SCOTCH HARD and BROAD COVE SOFT COALS, HARD and SOFT WOOD. GOOD GOODS. Promptly Delivered.

PLACING OF THE JUDGES

Assignments Order New Judiciary Act Announced Yesterday—Judge McLeod Opens Chancery Court Here

Fredericton, May 5.—Assignments of judges under the new Judiciary Act, which came into force on Monday last, have been announced in the Royal Gazette as follows:

CHANCERY DIVISION. The Chief Justice and Mr. Justice McLeod are assigned as the judges of the court to sit in the Chancery Division.

The following will be the assignment for the sittings of the Chancery Division for the remainder of the year 1910:

The Chief Justice. Fredericton, Tuesday, September 6, 1910; Tuesday, December 6, 1910; Saint John, Tuesday, July 12, 1910; Tuesday, September 20, 1910; Tuesday, November 15, 1910.

Dorchester, Tuesday, May 31, 1910. Mr. Justice McLeod. Fredericton, Tuesday, May 3, 1910; Tuesday, October 4, 1910.

Saint John, Tuesday, May 17, 1910; Tuesday, August 16, 1910; Tuesday, October 18, 1910; Tuesday, December 20, 1910.

Dorchester, Tuesday, December 13, 1910. The chief justice will hold chambers at St. John on Tuesday of each week, and Mr. Justice McLeod on Friday of each week.

KING'S BENCH DIVISION. The following assignment of judges for sittings and Circuit Courts for the remainder of the year 1910 will supersede the assignment made in Hilary Term last:

Mr. Justice Landry. Queens, Tuesday May 17, 1910. Sunbury, Tuesday, May 24, 1910.

York Sitings, Tuesday, June 28, 1910. Albert, Tuesday, September 6, 1910. Saint John, Tuesday, September 27, 1910.

Charlotte, Tuesday, October 4, 1910. Mr. Justice White. Charlotte, Tuesday, May 10, 1910.

Saint John, Tuesday, June 28, 1910. Queens, Tuesday, October 4, 1910. Kent, Tuesday, October 11, 1910.

Sunbury, Tuesday, October 18, 1910. York Sitings, Tuesday, January 3, 1911.

Mr. Justice Barry. Westmorland, Tuesday, May 3, 1910. Northumberland, Tuesday, May 24, 1910.

Gloucester, Tuesday, August 23, 1910. King's, Tuesday, September 6, 1910.

Carlton, Tuesday, October 18, 1910. Saint John, Tuesday, November 22, 1910.

Mr. Justice McKeown. Restigouche, Tuesday, August 30, 1910.

Victoria, Tuesday, September 27, 1910. Madawaska, Tuesday, October 11, 1910.

Westmorland, Tuesday, October 25, 1910. Northumberland, Tuesday, December 6, 1910.

The judges of the King's Bench Division will hold chambers in each week as follows:

HEROISM OF GIRL SMUGGLER

Swiss Girl Held Her Fallen Brother for Thirteen Hours at End of Long Rope--Sacrifice in Vain.

London, May 5.—The heroic effort of a girl smuggler to save the life of her elder brother after holding him thirteen hours on a rope over a precipice is reported from Bellinzona, Mlle. Poret, aged eighteen, and her brother, aged twenty three, left Swiss territory to cross the Baldisio Pass, carrying contraband goods into Italy.

On the summit they were overtaken by a violent snowstorm, which raged throughout Southern Switzerland, and were soon in deep snow.

The Poretis roped themselves, the young man leading. They lost their way, and while attempting to find the path Poret fell through the snow in a crevasse into which he nearly dragged his sister, who, however, planted her feet in the snow and withstood the shock.

Early the next morning several smugglers crossing the pass from Swiss territory into Italy found the young girl near the ordinary route taken by smugglers, and recognized her at once, as she belonged to a smuggler's family, and lived at Chiavenna. The smugglers at once drew up the brother, but found that he had died during the thirteen hours his sister had held him by the rope. He had received severe injuries in the head, and his body was frozen.
