ARMY AND ST. JOHN LEAGUE

St. John people will have the opportunity tonight of seeing some real fast hockey when the 69th and St. John teams meet. Each team will have six men in reserve and as soon as a man shows signs of weakening he will be replaced by a fresh one. In this way the pace will be held at top speed and a moving picture machine would have to work fast to follow it. The 69th Battalion will have a large number of enthusiastic rooters who will test their lung power in the dual languages. Both teams have been practicing hard and neither are over confident of the result. This will be the first appearance of a French-Canadian team on St. John ice.

HOW THE GOVERNMENT IS ENCOURAGING STOCK BREEDING IN CANADA

Owing to the heavy drain upon the live stock of the various warring countries of Europe, they have been forced to go abroad for supplies. The longer the war lasts the greater will be this demand. Moreover, when peace is restored, these countries will require large numbers of the various classes of animals to replenish their studs, herds and flocks. It should be borne in mind, however, that the buyers, who come to this country after the war, will require better animals than have been bought during war time, as they will be used largely for breeding purposes.

With this in view, the best of the females and particularly the young stock would be kept for breeding purposes. Breeders should not fail to raise all the live stock possible at this time, in order that the country may be able to supply a large number of the animals that are certain to be needed by the warring countries. At present, however, there is an unequal distribution of live stock in the country. In certain sections there is a heavy surplus, with a corresponding scarcity in other parts. During the past year hundreds of young cattle from our prairie provinces have gone to the United States as stockers and feeders. These should be kept at home, particularly the females. Sections of the west are reported as being in need of good draft horses, particularly draft mares; while, in sections of Ontario, there is an over supply of this particular class.

In order to remedy these conditions, the Minister of Agriculture, through the Live Stock Branch, has decided to grant liberal aid to breeders who wish to secure good breeding stock. The conditions under which aid will be given are as follows:

In the event of a number of farmers in any district of Canada wishing to co-operate for the purchase of breeding stock in certain lots from some distant section of the country, the department will pay the travelling expenses of their duly appointed representative during the time required to effect the purchase and transport the shipment to its destination.

Should it be desired, the Live Stock Commissioner will nominate a suitable person who will be directed to accompany this representative and assist him as far as possible in buying and shipping the animals. Persons wishing to take advantage of this offer should make full arrangements with the Live Stock Commissioner as to place and time of purchase before sending out their representative.

WORLD'S CHAMPION TARGET SHOOTER REPORTED DYING

George L. Lyon, who holds the world's championship title at inanimate target shooting, and three times a successful defender of the championship trophy, is in a critical condition at St. Joseph's Sanitarium, at Albuquerque, New Mexico. He is gradually dying under the malignant ravages of tuberculosis, which became so acute last Thanksgiving in New York that he hurried away to New Mexico.

TOMORROW And Every Other Day is the ST. JOHN STANDARD "Heart Songs" Day

Comin' Thro' the Rye

The "Rye" in the song is a little river in Scotland and "To Meet a Body Comin' Thro' the Rye," meant to meet someone crossing the river on the stepping stones. Any lad meeting a lassie crossing on the stepping stones was privileged to exact a toll of kisses.
