#### New Brunswick Education Costs \$1,242,000

PUPILS ENROLLED IN THE PROVINCE OVER 66,000 INCREASES IN EXPENDITURES AND IN ENROLLMENT. OVER 2,000 TEACHERS EMPLOYED IN SCHOOLS OF THE PROVINCE.

departmental examinations held under the Board of Education in July, or at the

departmental examinations held under the Board of Education in July, or at the opening of the university in September.

A normal and model school for the training of teachers are provided for by the Board of Education; they are situated at Fredericton. Teachers entering for a class higher than the third or lowest class must attend the normal school at least one school year. The normal school year begins on September 1 and ends about June 1.

The school gardens department work is chiefly under the control and direction of the Department of Agriculture and government grants are made to teachers and trustees of districts in which school gardens are maintained from the moneys provided for agricultural education. This department is likely to show record production for 1917.

There are numerous private schools and colleges throughout the province, Sackville being one of the educational centres of the province. At Sackville is Mt. Allison, one of eastern Canada's best known colleges. Thousands of men and women prominent in every walk of life, have graduated from Mt. Allison and the other

The Saint John Business College at St. John is the oldest business college in Canada. It was established in 1867 and thus this year celebrates its fiftieth anniversary. S. Kerr, the principal, was also the founder of the college and is still actively engaged in the management. S. L. Kerr, also a principal, has taught continuously in the college for over twenty-five years. Thousands of pupils have graduated from this college, many of them now prominent members of provincial and federal governments, university staffs and in every line of commercial and industrial business.

There are also numerous private kindergartens, girls and boys schools, etc., throughout the province. Education in New Brunswick is one of the greatest assets of the province, an asset in which New Brunswickers and ex-New Brunswickers are justly proud.

#### **Expenditures For Education**
