

# WANT TO SHIP APPLES IN LARGE QUANTITIES THROUGH THIS PORT

**Hon. C. N. Skinner Interviews Government in Their Interest Relative to Cold Storage--I. C. R. Engineer Figures High on Interprovincial Bridge at Metepedia--Hon. Mr. LaBilloy Conferring With Road Superintendents--May Divert Highway at Palmer's Pond.**

At a meeting of the local government here Thursday Hon. C. N. Skinner, representing Ontario apple shippers, asked if the act relative to cold storage could be changed in some particulars to suit the shippers he represented, who would like to ship in large quantities to the old country via this port. He said they were prepared to put money into the enterprise if favorable terms could be had.

Mr. Skinner was asked to supply further information and put a proposition in writing and the matter will be taken up later.

The government adjourned until next Monday night, when a meeting will be held here. At this meeting the commissioners on the Central Railway and the Restigouche Boom Company, also the factory inspector may be appointed. Hon. P. E. Barker is mentioned as likely to be one of the Restigouche Boom Company commission.

The matter of the street railway's application for the piece of land at the Provincial Hospital corner, to enable them to lay double tracks, was referred to Chief Commissioner LaBilloy and will likely be finally dealt with at the next meeting.

Last evening Hon. C. H. LaBilloy had a conference with the Kings county road superintendents. There were present Wm. Gilliland, superintendent for Hampton, Robt. and Upham; John Moore, of Bellefleur, for Springfield, Norton and Kings; John Morrison of Sussex, for Cardwell, Hammond, Waterford and Sussex; Warren S. Mason of Head of Millstream, for Stodolm and Havelock; G. G. Scovill, M. P. R. for Kings, was also present. The fifth superintendent, Capt. A. L. Postman, of Greenfield, who is the official for Westfield and Kars, was not at the meeting.

Arrangements about the amounts of road grant to be expended by each were made and the road act was generally discussed. Today Hon. Mr. LaBilloy will go to Dorchester to look into the question of diverting the highway at Palmer's Pond at a place where there have been a number of

accidents because of the railway track crossing the road. To avoid them the people petitioned to have the road changed and it will be necessary to have the old bridge there replaced by a new structure. The people interested in the land are asking for a draw in the new bridge.

Hon. Mr. LaBilloy will tonight meet the members for Westmorland at Moncton to discuss the road repairs in Westmorland county. Tuesday he will meet, in this city, the members for Queens and St. John counties to arrange for the repairs to roads and bridges in those counties.

The chief commissioner has received word from Charles Marcell, M. P., of Bonaventure (Que.), deputy speaker of the Canadian commons, that he has had several interviews with Hon. H. R. Emmerson, Mr. Pottinger, of the I. C. R., and W. B. MacKenzie, I. C. R. engineer, relative to the proposed inter-provincial bridge across the Restigouche at Metepedia. Mr. MacKenzie has prepared a report dealing with the undertaking, and he estimates that the cost to Quebec and New Brunswick would be \$50,000--a much larger sum than was estimated by the Quebec and New Brunswick engineers. The step to be taken now is that the New Brunswick and Quebec engineers will again prepare plans and specifications and submit estimates to their respective governments.

A provincial public works department has issued, under date of May 1, the first of a series of bulletins dealing with the new road act. It gives general instructions to the road superintendents in reference to the questions of drainage, graveling of roads, encouragement of wide tires, proper care of all road machinery and proper making out of accounts and vouchers.

Bulletins will be sent out from time to time dealing with modern improvements in road making. Under the new act 200 officials will look after the repairs of the roads and bridges. All save those for St. John county have been appointed, and they will be named next week.

## LOCAL AND PROVINCIAL

Sells and Downs' circus will be in St. John June 20.

The inland revenue receipts here for April were \$22,494.35 as against \$22,832.54 in 1904.

The Metropolitan line of steamers between Boston and New York has been purchased by Charles W. Morse, who controls the Eastern S. S. line.

Many will regret to learn that George McLeod is lying dangerously ill at his residence, 51 Orange street. Last evening no change during the day was reported.

The common council will meet this afternoon at 3 o'clock, when the contracts for the water extension works are expected to be signed. It is understood a meeting of the water and sewerage board will follow.

In the preliminary examination of Mrs. Mary Best and Minnie Robinson, in the police court on charge of abandoning Mrs. Best's baby, Dr. James Christie gave evidence Tuesday as to child's health and the women were remanded for three days. Her baby was given to his father, who placed it in the care of his sister-in-law, Mrs. John W. Best.

William Malcolm, son of Andrew Malcolm, will commence studying for the ministry in the fall. He will leave Saturday morning for New Scotland where he will take charge of the Presbyterian church before entering Dalhousie where he will take his theological course.

The workmen employed on the government repairs to the Negretown Point breakwater are asking for an increase in wages. There are twenty-two employed under John W. Long, foreman. Thursday they presented a document signed by all but four, asking for increase of \$2 a day. There was no strike, as the men continue at work awaiting the department's action on their request.

Rev. C. W. Hamilton and Rev. G. M. Young returned yesterday from Charlotte town, where they went to make arrangements for the holding of the N. B. and P. E. Island conference in June. Rev. Mr. Hamilton, who is the president of the conference, said that a ministerial session will be held on Tuesday, June 13, after which the regular business of the conference will be proceeded with. The majority of the Methodist ministers in this province and P. E. Island are expected to be present. Spring, said Mr. Hamilton, is very backward on the island. There is no scarcity of snow, and only a few days ago the Northumberland Straits were full of ice.

**Ladies' Costume Cloths**  
Made at Henson Woollen Mills, Amherst

Possess style, durability and beauty, combined with economy. Ask at the store to see the newest Henson samples. Fit for all times of year. Make up handsomely. Not too expensive.

# COLE COMMITTED TO PORTLAND JAIL

**Murdered Man's Father on the Scene--Whereabouts of Prisoner on Day of Murder Unsolved.**

Edward Cole who was arraigned in the Municipal court last week on the charge of having murdered John Steeves, the Hillsboro (N.B.), man whose body was found in a pasture at Falmouth a week ago Sunday, was on Saturday taken over to the jail after having been in confinement in a lodging room at the police station continuously since last Tuesday evening. Only his attorneys have seen him since his incarceration and one of them stated Saturday evening that Cole was cool and composed, manifesting no alarm as a result of his sudden predicament. Mr. Cole has left her home at 380 Cumberland avenue and gone to her grandmother who lives on Spruce street.

Following the arrest of Cole, the father of the murdered man, David Steeves, the father, has reached town. Naturally he is very much depressed over the awful crime which has befallen his son. He states that he will never rest until this cruel slaying of his promising son is ferreted out to the furthest and the guilty man run down.

Cole is being held in the Portland jail with his sister, Mrs. O'Brien, who lives in the western part of the city. She is the wife of John O'Brien who works with the Crossman brothers at the plant of the Berlin Mills Company.

David Steeves was well acquainted years ago with the Crossman family before they left Hillsboro (N.B.), to come to Portland, and he has been spending considerable of his time with the Crossman brothers since his arrival. Saturday evening he went out for a walk with the two brothers--Robert Crossman and Sanford, who came here with "Jack" Steeves, remained at the Crossman home at 318 Cumberland avenue.

Certainly one of the most important features in this highly interesting case revolves around the point as to the daily whereabouts of Edward Cole during the last two or three days before the murder. Only person who can furnish any definite information on this leading question is the wife of Cole--and she has been questioned by her husband's counsel to make her talk to outsiders. Saturday evening an attempt was made to clear up this doubt. A call was made by a reporter at the home of Cole by her husband's counsel to make her talk to outsiders. Saturday evening an attempt was made to clear up this doubt. A call was made by a reporter at the home of Cole by her husband's counsel to make her talk to outsiders. Saturday evening an attempt was made to clear up this doubt.

# MAINE'S LOG OUTPUT IS 700,000,000 FT. THIS YEAR

**More Than Was Intended at First, But Less Than Last Year.**

A summary of the past winter's logging operations in Maine indicates a total cut of about 700,000,000 feet, as follows, says the Bangor News:

Penobscot river--West branch, 77,800,000 feet; East branch, 89,000,000; Mattawamkeag, 25,000,000; Passamaquoddy, 25,000,000; Passamaquoddy, 25,000,000; total, 200,000,000.

Moose river--Moose river, 30,500,000; Moosehead lake, 30,500,000; East branch and main river, 31,300,000; Dead river, 19,500,000; total, 128,800,000.

Androscoggin river--Operations in both Maine and New Hampshire aggregate 250,000,000, chiefly for pulp, and 50 per cent. transported by rail.

Saco river--About 20,000,000 feet, chiefly second growth pine.

Machias river--About 15,000,000 feet. St. Croix river--25,000,000 feet.

Naragansett river--7,825,000 feet.

Aroostook county--Allegash and St. John river above Fort Kent, 50,000,000; Fish river and lakes, 25,000,000; Aroostook county--7,825,000 feet.

This is about 50,000,000 to 75,000,000 short of the maximum cut in recent years in Maine, but it is greatly in excess of estimates made last fall. On account of the large stocks of logs carried over from last season, high rates of stumpage and increase in the price of supplies, it was predicted that the cut would fall off 25 per cent. from that of 1904, making a cut of about 600,000,000 feet; but, while the cut was reduced in some sections, in others it was increased because of exceptionally favorable weather conditions.

Should all the drives reach boom, Maine will have with the surplus of 1904, an exceptionally large stock of logs for all purposes for South America.

The 40,000,000 feet of last year's saw-logs were wintered in the booms and mill ponds, and these will be sufficient to keep the mills going until the arrival of the first drives of new logs. The demand for spruce lumber is only fair at present, but a decided improvement is expected soon.

Mr. Lindsay, who is in charge of the trade is not encouraging this season, but, on account of the short log crop on the St. John and throughout the maritime provinces, he expects that Maine will ship considerable quantities of deals to the United Kingdom this year.

## WHEN DOCTORS FAILED

**Dr. Williams' Pink Pills Brought New Health and Strength.**

From The Post, Thorold, Ont.

Mr. Reuben Lindsay, a fruit grower at Ringville, Ont., is one of the best known men in that section, having lived in the village or its vicinity all his life. All Mr. Lindsay's neighbors know that about a year ago his condition of health was very serious. To use his own words he "began to go to pieces--was all wasting away." When a reporter of the Thorold Post asked Mr. Lindsay recently he found him again enjoying the best of health, and when asked what had wrought his cure, he replied very emphatically: "Dr. Williams' Pink Pills did for me what medical treatment and other medicines failed to do. In the spring of 1903," continued Mr. Lindsay, "I grew so weak that I could not do my work, and my appetite completely failed me, and I seemed to be wasting away to a mere shadow. I grew so weak that I could not get up, and I could scarcely look after my business. I consulted several doctors, but got no permanent benefit. In fact, they seemed doubly so to me, as they did not know what to do. I had no other kind of disease; but I was suffering from a trouble which was rapidly using me up. A neighbor who had used Dr. Williams' Pink Pills, and who did for me what medical treatment and other medicines failed to do, I was finally induced to try them. I bought a box of the pills, and I found that I could get up, and my appetite completely failed me, and I seemed to be wasting away to a mere shadow. I grew so weak that I could not get up, and I could scarcely look after my business. I consulted several doctors, but got no permanent benefit. In fact, they seemed doubly so to me, as they did not know what to do. I had no other kind of disease; but I was suffering from a trouble which was rapidly using me up. I grew so weak that I could not get up, and I could scarcely look after my business. I consulted several doctors, but got no permanent benefit. In fact, they seemed doubly so to me, as they did not know what to do. I had no other kind of disease; but I was suffering from a trouble which was rapidly using me up. A neighbor who had used Dr. Williams' Pink Pills, and who did for me what medical treatment and other medicines failed to do, I was finally induced to try them. I bought a box of the pills, and I found that I could get up, and my appetite completely failed me, and I seemed to be wasting away to a mere shadow. I grew so weak that I could not get up, and I could scarcely look after my business. I consulted several doctors, but got no permanent benefit. In fact, they seemed doubly so to me, as they did not know what to do. I had no other kind of disease; but I was suffering from a trouble which was rapidly using me up.
