

GENERAL TORIES BEST

Col. Sam Says He Tried To Have Work Done By Tories Without Success

George W. Fowler Makes Savage Attack on Minister for Purchase of McGivney Junction Tract of Land From New Brunswick Government.

Ottawa, June 7.—Colonel the Hon. Sam Hughes, minister of militia, mounted the parliamentary stand yesterday and gave unsolicited testimony as to the economy and business-like system which prevailed in government contracts during the Laurier regime. The militia estimates were under discussion and the house sat till almost midnight on Saturday.

Hon. Dr. Pugsley asked concerning the contracts for supplies and clothing for the volunteer forces.

"I may as well be frank," exclaimed the minister. "When we took office we proposed to be very politically virtuous. We tried to change the Tories and arrange it so that good Tories would secure the contracts. But we found that this resulted in loss and in failure, and in dissatisfaction and in trouble, so we had to give it up and go back to the same old Liberal contract system."

"Back to business principles," observed Dr. Pugsley.

"Yes, we found we couldn't improve on the old contract system," he said. "I am admitted the colonel."

Fowler scolded Hughes.

As a climax to the earlier Liberal criticisms of Hon. Sam Hughes and his administration of the militia department, there came direct and emphatic condemnation from George W. Fowler, the Conservative member for Kings-Albert. Mr. Fowler's attack had to do with the plan for acquiring a new military training ground near McGivney Junction (N. B.). It is a wild, reckless and foolish plan, he said, and he said, "I am opposed to it absolutely."

Mr. Fowler condemned the scheme for several reasons. The land in question, he said, was made up of rough, low ground, remote from the settled centers of the province, and was to be purchased from the New Brunswick government for \$2,000,000, or about \$200,000 apiece. "I don't blame the provincial government for agreeing to sell it at this price," he said. "I blame the federal government for agreeing to buy it at this price. It is a waste of money, and it is a waste of land. It is a waste of money because the land is not suitable for military purposes. It is a waste of land because the land is not suitable for military purposes. It is a waste of money because the land is not suitable for military purposes. It is a waste of land because the land is not suitable for military purposes."

WILL COST MILLIONS.

As for the suitability of the ground for a military camp, Mr. Fowler took the ground that instead of being suitable for military purposes, it was a waste of money and land. He said that the land was not suitable for military purposes, and that the cost of the land was too high. He said that the land was not suitable for military purposes, and that the cost of the land was too high. He said that the land was not suitable for military purposes, and that the cost of the land was too high.

We will not give a summer vacation this year as a number of students from long distances would be inconvenienced thereby.

Then, our summers are so deliciously hot that St. John is a harbor of refuge during the hot season, and study just as pleasant as at any other time. Students can therefore enter at any time.

It attempts to point out a safe road to new manhood or new manly strength, and as such is destined to mankind generally. One part of this book fully describes my little VITALIZER referred to above.
