

RECEIPTS FOR DYEING.

(Continued from page 8.)

Scarlet.—No. 2.

Take soft water sufficient to cover the cloth or yarn you wish to colour, bring it to a boiling heat in a copper kettle, then add 1½ ozs. cream of tartar for every pound of cloth; now boil a minute or two, and then add 2 ozs. of powdered lac, and 3 ozs. of madder compound (the lac and the compound must be previously mixed in an earthen bowl,) boil five minutes; now wet the yarn in warm water and wring it, and put it in the dye; then boil the whole nearly an hour, take the cloth or yarn out and rinse it in clean, cold water.

Scarlet (Very Superior).

One-and-a-half ounce of cochineal, 1 oz. cream of tartar, and 1½ oz. sol. of tin; powder the cochineal and rub it together with powder into blood-warm water sufficient to cover the yarn; when it is a little warm put in the cream of tartar and simmer, then add the solution of tin. Your yarn must be wet with clean water; steep in the dye until the yarn is properly dyed. Dye your yarn before you wash it. This will colour one pound.

Madder Red.—No. 1.

Take 1 lb. madder for every 2 lbs. of yarn or cloth; soak the madder in a brass or copper kettle one night in warm water enough to cover the yarn you wish to colour; next morning put in 2 ozs. madder compound for every 1 lb. of madder you have so soaked, then wet your yarn or cloth in clean water and wring it out; afterwards put in the dye; now put the kettle on the fire and bring it slowly to a scalding heat, which will take about half an hour if a light red is wanted, and longer if a dark one; the colour depending upon the time it remains in the dye. When the colour is made, rinse the cloth immediately in cold water, and it will then be finished.

Madder Red.—No. 2.

To each lb. of goods, alum, 5 ozs.; cream of tartar, 1 oz.; put in the goods and bring your kettle to boil for about half an hour, then air them and boil half an hour longer; then empty your kettle and fill with clean water; put in bran, 1 peck; make it milk warm and let it stand until the bran rises, then skim off the bran and put in ½ lb. madder; put in your goods and heat slowly until it boils and is done. Wash in strong suds.

Wine Colour.

1 lb. of wool—redwood, ½ lb.; madder compound, 1 oz. Soak the powdered wool in warm water all night, mix the madder compound with about half pint of water (in a glass) and add it to the rest; rinse the wool in warm water and put in the dye, boil about half an hour, take out the wool and rinse in cold water.

Bright Pink.

Two ozs. of cochineal, ½ oz. cream of tartar; steep the cochineal in warm water sufficient to cover the cloth for two hours, or until the strength is entirely extracted, and add the cream of tartar; then wet the cloth in clean water, wring it out and put it in the dye; bring it to a scalding heat; let it remain a few moments and it will be finished. This will colour 3 lbs. If a lighter colour is wanted, use less cochineal; if a darker, more; the shade depends upon the quality of the cochineal used.

Pale Pink.

1 lb. wool or cloth, ½ lb. good red wood, and ½ lb. of alum. Soak the wool all night in warm water, add the alum, and boil the cloth with these ingredients for about an hour; take it out and rinse it in water. A cheaper yet handsome pink may be obtained by substituting madder for madder, in the receipt for madder red.

(Continued on page 14.)

VICTORIA

COMPOUND SYRUP OF

HYPOPHOSPHITES

FOR THE PREVENTION AND CURE OF

Consumption, Diseases of the Chest, Defective Nutrition, General Debility, and all Nervous Complaints.

The HYPOPHOSPHITES, being the SPECIFIC REMEDY for Consumption, when once developed, are equally and ABSOLUTELY A PREVENTIVE in cases of predisposition, from any cause; as easy to employ as tea, coffee, sugar or salt in the kitchen. So certain are the results that in no case among children or adults, where hereditary predisposition has existed, has the disease ever developed itself when the Remedy has been used; while it exerts a manifest influence in quickening the growth of infants and young children; possessing, in these respects, A POWER in THE ECONOMY UNEQUALLED BY ANY AGENT KNOWN TO MEDICAL SCIENCE.

By their use as a occasional aliment to the vital forces, the HYPOPHOSPHITES are a CERTAIN MEANS of maintaining the health and strength of the labouring classes, students, clergymen, fragile children, women during the periods of pregnancy and nursing; and of all persons of sedentary habits, or those who, either from excessive labour of body or brain, are called upon for a greater expenditure of NERVOUS OR VITAL FORCE than is or can be supplied through the normal channels of recuperation.

"I know," says Dr. CHURCHILL, "that the HYPOPHOSPHITES will prove not only as SURE A REMEDY IN CONSUMPTION as Quinine is in Intermitting Fever, but as EFFECTUAL A PRESERVATIVE as Vaccination in Small Pox."

Effects of the Treatment.

On the Nervous System.—One of the first effects is an INCREASE OF THE NERVOUS OR VITAL ENERGY, followed by a feeling of unusual comfort and strength. This is more marked, and earlier manifested, in proportion to the degree of weakness and nervous debility previously existing.

The nervousness, or irritability, is allayed; the patient experiences a pleasant calm; and the sleep becomes profound and refreshing.

On the Blood System.—The effect upon the Blood System is equally marked. The quantity and colour are rapidly increased; the countenance becomes fuller and fresher, the lips red and the eyes brighter; the superficial veins are swelled out; and according to the doses employed and the duration of the treatment, the patient shows striking evidence of the PLETHORA or fullness of blood.

On the Nutritive Function.—The appetite is increased often in an extraordinary manner; the patient gains flesh, and the features, especially after the first two or three weeks, show a marked improvement in appearance. The remedy acts beneficially in all cases of impaired nutrition.

N.B.—This is the only Compound Syrup of Hypophosphites prepared from the Formula of the Original Discoverer, and certified to be "CHEMICALLY PURE."

BE SURE THEREFORE, TO USE ONLY THE VICTORIA SYRUP OF HYPOPHOSPHITES. THE GENUINE has the Trade Mark—the QUEEN'S HEAD—printed on the wrapper. Price ONE DOLLAR per bottle. Sold by all the principal Druggists in the Dominion.

Use the COUGH ELIXIR for Coughs, Colds, or Sore Throat—See page 14.
