New York 4, N. Y.

Dear Lawrence:

Thanks very much for sending me the
Report of the Committee on Labour Law. You must have some
excellent men on that Committee, judging from the last
document you sent me from them.

I think the American Congress is
seized of the labour situation better at least than any
other Parliament in the world—certainly better than our
own.

They are going to learn a lot in
England on this subject in the next four or five years--
and there certainly is room for education.

Very kindest regards,

Yours sincerely,

AM/E.
