

THE OPPOSITION CAMPAIGN SHEET ANSWERED.

Phrenosians' No Fancy.

A Tory in opposition is always virtuous. A Tory in power is always a hypocrite.

"When the Devil was sick, the Devil's world would be well; but when the Devil got well, the Devil's world would be bad."

What nonsense has the country, that the present Opposition leaders in Ontario are conservative?

Do more profligate or bungling resolutions prove their true intentions?

What are their associations, and in what school have they professed?

When did they practice the doctrine that "Economy is the only means of salvation"?

They are the blind workmen and followers of a Jester whose performances as an economist have been as follows:

WHAT THEIR GREAT EXAMPLE DID.

In 1864, John A. Macdonald became one of the principal members of the Canadian Administration, which succeeded that of Sir Francis Hincks.

There was a surplus in the Treasury when Sir Francis Hincks left office of \$1,000,000. \$4,000,000 went to the credit of the Government for public works executed and the public debt reduced out of surplus revenue.

In 1864, Sir John A. Macdonald became the Upper Canadian leader of the Government.

In 1867, TWO-FIFTHS OF THE WHOLE EXPENDITURE HAD TO BE MET BY BORROWING, to avoid showing a deficit of \$2,400,000.

The treasury was empty; the \$2,000,000 to credit was gone. The Government banking account was overdrawn to the amount of \$2,400,000.

The interest of the public debt had increased from \$1,300,000 to \$4,400,000, the whole of which, except about half a million, was due to the replacement of non-revenue of about 4½ millions of dollars.

In 1864, the entire expenditure, including interest and public works, was less \$4,100,000.

In 1867, it had been increased to \$7,600,000, in face of enormous current deficits, by the guide, model, philosopher, and friend of the men who are now, the Macs say, preaching that "Economy is the only means of salvation."

These facts were all brought out by investigations before the Public Accounts Committee, &c., &c., at the time, and are now matters of history.

In 1866, the Revenue was 5,270,627
And the Expenditure 6,645,344

Déficit 1,375,837

In 1869, the Revenue was 6,897,017
And the Expenditure 8,001,701

Déficit 1,104,684

In 1870, the Revenue was 7,436,665
And the Expenditure 8,446,570

Déficit 1,010,908

In 1871, the Revenue was 7,542,926
And the Expenditure 8,552,704

Déficit 1,010,778

In 1872, the Revenue was 7,277,166
And the Expenditure 8,441,495

Déficit 1,164,329

Increase of Expenditure, in five years, in face of moral delicts, by the great chiefly of the party that declares "Economy is the only means of salvation." 780,661

Deficit in five years 10,907,390

The statement of Receipts and Expenditure from 1863 to 1869 are from a table prepared by Mr. Langton, the late auditor.

HIS NEXT GRAND ECONOMICAL ACHIEVEMENT.

From 1863 to 1864, Mr. Sandfield Macdonald's Government interceded. From 1868 to 1877, John A. Macdonald again had a controlling influence in the Cabinet. And this is how he once more illustrated the doctrine that "Economy is the only means of salvation"!

| | |
|---|------------|
| In 1866 the expenditure was | 30,933,957 |
| In 1868 it was | 10,934,813 |
| In 1867 it was | 11,881,950 |
| Increase in three years by the hand of the school which teaches that "Economy is the only means of salvation" | 1,427,003 |

THE GRANDEST OF ALL.

In 1867 Sir John A. Macdonald became Premier of the Dominion. He held office until November, 1873, and was therefore responsible for the finance for 1867-68, '70, '71, '72, '73, '74. And this is the way he once more illustrated the doctrine "that economy is the only means of salvation."

| | |
|-------------------------------------|------------|
| In 1867-8 the expenditure was | 13,484,092 |
| In 1868-9 it was | 14,000,064 |
| In 1869-70 it was | 14,345,509 |
| In 1870-71 it was | 15,028,061 |
| In 1871-72 it was | 17,589,468 |
| In 1872-73 it was | 19,174,247 |
| In 1873-74 it was | 23,816,316 |

Increase in expenditure in seven years effected by Messrs. Meredith, Morris and Co.'s "Grand Statement and Economist," on the principle that "Economy is the only means of salvation." 9,830,234

For expenditure from 1866 to 1874 see "Public Accounts" (Canada).

And although the Revenue up to 1872-3 kept pace with the Expenditure, yet, in 1873-4, by adding four millions of dollars in one sum to the payment of expenditures of the country, Sir John A. Macdonald exceeded his Finance Minister's own estimate of the Revenue for the year by no less than \$1,300,000.

See that an increased expenditure of \$9,830,234 in six years was Messrs. Meredith, Morris and Co.'s great answerable's tribute to the doctrine that "Economy is the only means of salvation."

And their being the very humble followers of, and believers in, "Sir John," is absolutely the only claim and title these gentlemen have to be even suspected of being economists.

CANADA OVER GOVERNED.

TOO MANY EXECUTIVE COUNCILLORS.

From the "Mail" Opposition Campaign Sheet, March 26th, 1879.

The Dominion, with a population of 4,000,000 people, is governed by a Governor-General, a Lieutenant-Governor of provinces, and the Lieutenant-Governor of the North-West Territories, plus governors-in-chief. We have sixty-five Executive Councillors, &c.
