THE CALL TO DUTY.

A WORD TO OUR FRIENDS—THE TEMPERANCE ELECTORS.

LIBERALS, CONSERVATIVES, PATRONS, PROHIBITIONISTS, ATTENTION!!

The Nominating Conventions of all the political parties in Ontario are now being held or arranged for, at which representatives will be chosen for the next Provincial election. Electors should therefore be seriously thinking of their duties and responsibilities. Now is the time for action, prompt and vigorous. Do not expect to get pure water out of an impure fountain, or good law from a bad legislator.

The Council of the Dominion Alliance for the Suppression of the Liquor Traffic has given out this advice in respect to Parliamentary and political action:—"We strongly urge that prohibitionist electors who have party affiliations, be present at the local caucuses of their parties, in order to secure such prohibitionist representation in the county Nominating Conventions as shall secure known and avowed prohibitionist candidates for Parliament." It further urges that no candidate, no matter how absolute his pledges might be, should be endorsed and supported unless his past record has been such as to warrant that his support may be relied on upon this question.

We ask immediate attention to political affairs. See that the candidate your party selects to contest your constituency is sound upon this great question. Our need is for men who will promote our cause by legislation, and by enforcement of the law. The obligations of this Order in no way interfere with any member's religious or political opinions. It aims to promote good citizenship, and the industrial, social and moral welfare of the nation; and it is our duty to secure such legislation as will harmonize with and advance the principles of Christianity upon which our institution is based.

Our legislators are the ones to whom we must look to relieve society from the evils that afflict it through the great curse of the liquor traffic. Morality and religion must not be subverted in politics. Every elector who is on the side of RIGHT must stand true, and insist on his principles. Our cause is right and must pre-

vail, but zeal, vigilance and ceaseless activity on our part are absolutely necessary to success.

To our friends in localities where the Scott Act or Local Option is under test, we urge steadfast support thereof. In municipalities where licenses are numerous, we hope our friends will assume the aggressive and at once take steps to have the number reduced.

We are now entering the great conflict. The eyes of the world are upon us. Let each member of our Order do something toward giving us a grand victory, and placing Canada first among the nations, in the abolition of the liquor traffic.

In the name of the self-sacrificing advocates of our cause, who have for fifty years labored for its triumph; in the name of humanity, and in the name of God, we appeal to every elector, (and particularly to every Son of Temperance) no matter to what party he belongs, to use his best and most earnest endeavors to prevent the endorsement of any candidate for Parliament who will not earnestly uphold and advance Temperance measures.

SNAP SHOTS.

NEGATIVE NO. 2.

Bro. Wm. E. Smallfield was born in 1861. He learned the newspaper business in his father's office; was in due course made a partner, (an event celebrated by the citizens with a banquet to the firm) and is now in control of *The Mercury*, founded by his father in the year 1871, one of the leading papers in the Ottawa District. The paper has always taken a pronounced stand in temperance matters. He joined the S. of T., associated with such stalwarts as Bros. Jas. Ward and Wm. Dickson, and was soon in the thick of a Scott Act fight. Ardent in his support of it, and unwavering in its enforcement, the whiskey men got even by the torch. *The Mercury* was burned to the ground. The temperance people insisted on sharing the loss and presented the firm with \$1200.00. In his own county he has been a power. He has been a "Son" for 16 years, and was secretary of the building committee and one of the promoters of the Renfrew Temperance Hall, which is the finest in the Province. He is also a R. T. of T. In politics he is an advanced Prohibitionist; in faith a Unitarian. *The Mercury* has now magnificent quarters and a new plant from

type to presses and Bro. Smallfield is never so happy as when his presses are running off temperance literature. During the fight he published *The County Temperance Advocate*. In '92 and '93 he published *The Son of Temperance*. Had the Grand Division at that time taken hold of the matter in hearty earnestness, we could have had the benefit of "an organ" from that time to the present. This year Bro. Smallfield is in the council as a system of waterworks is to be inaugurated involving an expenditure of \$72,000. Renfrew is a live, progressive town in which the citizens are justly proud. He is a public spirited citizen and takes an active interest in all good movements and a "cold water" movement is quite congenial—and right in his line.
