## MARKET REVIEW AND FORECAST %

Toronto, August 24, 1908. - Though gen-Toronto, August 38, 1988. — Though gen-eral business cannot be called active, a steady feeling continues in the whole-sale trade. Present indications point to a greatly increased trade later on, when the crops begin to move. Imports are increas-ing, which is a healthy sign, and the out-look is bright. Trav'ers are not, however, evincing any desire to speculate on the future, and prefer to sweal the outcomes. future, and prefer to await the outcome of the harvest before embarking in extensive commercial enterprises. This is a safe course and will work to the country's good in the long run. The banks are not encouraging any specialtive buying, and it is difficult to obtain new credit. There are some exceptions, but as a rule, banks, though money is easier, are conservative with loans.

WHEAT

WHEAT

The wheat markets early in the week ruled strong. Towards the end a weaker feeling prevailed though prices were well maintained. Gables are weaker owing to every prospects in the Argentine. There has, however, been an increase in cable orders for wheat which would indicate that Europe is anxious to get as much wheat ahead an possible, and is looking to the United States and Canada for the bulk of as sellers were asking in some cases, and her needs. Cable orders were not as high as sellers were saking in some cases, and asles were not as numerous as the active cable market would indicate. In a week or cable market would indicate. ## COARSE GRAINS.

COARSE GRAINS.

There is lithe change in oats: Orop estimates point to a continuation of high prices. The English crop is reported below that of last year, and also the crop on the continuent. The Canadian crop will not be as large as was expected. During the past week only 9,300 bush were exported from Montreal as against 158,450 bush for the corresponding week of 1907. New Ontario casts are quoted here at 250 to the farmers' market 516 to 526 for old and 45c to 476 for new. New barley is quoted here at 550 to 50 cuttide as to quality. Peas are nominal as there is nothing doling. Crop prospects are not as bright. reas are nominal as there is nothing do-ing. Crop prospects are not as bright as they were. In some sections where peas have been grown this season for the first time in 6 or 7 years, the "bugs" are reported as bad as ever. FEEDS.

Bran continues scarce, and prices are Bran continues scarce, and prices are high under a good demand. Bran is quot-ed here at \$16 to \$18 and shorts at \$20 to \$21 a ton in bulk outside. In bags the price is \$2 a ton more. Manitoba feed wheat is about all used up and prices are wheat is about all used up and prices are largely nominal at 780 to 80c at Mon-treal. The corn market rules firm. No. 2 mixed is quoted at Montreal at 84c to 86c, and here at 87%c to 88c Toronto freights. Kiln dried is a cent or two less.

The demand is light. Ontarios are quoted at Montreal at \$2. Here supplies are light and quotations are \$2 to \$2.10 for primes and \$2.10 to \$2.20 for hand-picked.

## EGGS AND POULTRY.

The egg trade continues good though increased supplies have caused an easier feeling and dealers contemplate reducing feeling and dealers contemplate reducing prices at country points this week. The quality is better than it was. Selects are quoted at Montreal at 25c and straight gathered at 15c to 19½. Though there is an easier feeling here the market is steadier and prices remain at 25c to 21c a dozen in case lots. On Toronto far-mers' market new latd bring 25c to 25c doz.

DAIRY PRODUCTS.

The cheese market has maintained its strong position of a week ago; 12½c was the ruling price at the local cheese markets the end of the week. The shortage in receipts now totals over 18,000 boxes. Some cheese was sold over the cable last week at 15c. Though trade is quiet in the Toronto cheese trade the market is strong at 13½c to 13½c for large, and 137b butter market has ruled strong the control of the property of the prop

The butter market has ruled strong all week. There has been very little exporting, the local market being sufficient to take the bulk of the supplies, and maintain the price. A decline in prices would increase the exports. The market here showed a little easier feeling at the end of the week but with no change in prices, belowed a little easier feeling at the end of the week but with no change in prices, 25% to 25% for 50 dist, 25% to 25% for 50 dist, 25% to 25% for dairy prints choice, and 21c to 25c a 1b for ordinary and for tubs. ## LIVE STOCK

The live stock market had a much better tone last week, excepting for hogs, which were lower. Receipts were fair, which were lower. Receipts were fair, week. The general quality of the fat cattle offering was not good. Had the general average been higher, quotations would have been higher. Of the 1466 butchers' cattle reported on sale at the market on could be classed as well finished butchers'. cattle reported on sale at the market on Wednesday and Thursday, scarcely fifty could be classed as well finished butchers' cattle. Wholesale butchers who were look-ing for good cattle all week, had to go without. Choice stuff will likely be in acwithout. Unoice stuff will likely be in active demand the beginning of this week. The opening of the exhibition next week will also increase the demand and good business is looked for this week.

Quotations for hogs are \$6.50 for selects, and \$6.55 a cut for lights, fed and water-ed on Toronto market. As high as these figures was said at several local points for hogs during the week. At Buffalo heavy and mixed hogs are quoted at \$7 to \$7.10; Yorkers, \$5.50 to \$7; and roughs at \$5.55 to \$5.65 a cwt. The supply of these hogs continues, farmers evidently ese hogs continues, farmers lling before the hogs are ready selling before the hogs are ready because of the easier feeling in the market. If a proper discrimination in price were made in buying at £0.b. points fewer of these unfinished hogs would be marketed. Where the same price is paid for all kinds the farmer is hardly to blame for selling on a falling market.

MONTREAL HOG MARKET
Montreal, Saturday, August 22.—The market for live hogs has been quiet and steady for several days but has been fixed, for the past day or two, due, no doubt, for the past day or two, due, no doubt, for the past day or two, due, no doubt, for the past day or two, due, no doubt, for the past day of prices and any improvement in prices would certainly see a decided in-crease in the shipments to market. There is a fair demand for fresh killed abattori stock and prices are steady at 8.9.75 to 819 a 100 lbs. There is also a good trade doing in hams and bacons at steady prices.

**EXPORT BUTTER AND CHEESE** 

Montreal, Saturday, Aug. 22—We have had a comparatively quiet week after the sharp advance experienced last week. There has been practically no demand from the other side at prices to show a profit on last week's purchases at country markets, and desiers here have been forced to cut prices slightly in order to make sales.
