

them, the major portion of the offering was not as good as commission men want. The steer market is steady and needs to be quiet, as farmers regard the prices as too high. The distillers announce that the price will be higher for feeders to augment, and this, too, will tend to depress the market. We quote as follows: Heavy calves, \$7 to \$8; feeders, 68 to 75; light calves, 68 to 75; medium to good, 65 to 70; stokers, 65 to 75; feeders, 85 to 90; cull cows, 45 to 60; stokers, 85 to 86.50; cull cows and cutters, 85 to 84.75.

Choice cows, the kind in demand, were at \$8 to \$9; medium to good, nominally at \$7 to \$8; cull cows, 45 to \$70. Cows are quoted at \$10 to \$10 for yearlings, calves, \$8 to \$8 each.

The market for mutton animals is not enough to cover an advance. Yearling lambs are quoted \$6.50 to \$7 spring lambs, \$5 to \$6; and yearling ewes, \$5 to \$6.

There is a distinctly weaker feeling in sheep, as the spring litters are now coming into the market. Packers are quoted from \$10 to \$12; lambs, \$5 to \$6.

**DAIRY BOARD SALES.**  
 Madoc, Aug. 4.—315 boxes sold at 15.65c.  
 Heterboro, Aug. 4.—207 boxes sold at 15.65c.

 The proceeds of chesns made Aug. 10th will be given for patriotic purposes. The total amount was \$14 boxes white cheese sold at 13.96c.  
 Kensington, Aug. 4.—203 boxes white and 170 boxes colored boxed; 550 boxes of white sold at 12.94c. White unboxed, 12.0c.

**OUR FARMERS' CLUB**

Correspondence invited  
 NOVA SCOTIA  
**CAPE BRETON CO., N. S.**  
 SALMON RIVER, July 21.—The weather is a little better and the potatoes are spered with hot sun. Turnips are better than usual. Potatoes are as good as usual and better than last year. Hay is far above the average. Hay is not ready to cut yet; it is at least two weeks later than last year. Eggs are better and eggs are unchanged, although eggs are being scarce here. The price of chickens is market and sells for 15c to 15c a lb.  
 J. H. Macle

**PRINCE EDWARD ISLAND**  
**PRINCE CO., P. E. I.**  
 KENSINGTON, Aug. 2.—Haying is in order and the crop is a good average. The ground is very short. The potato beetles are plentiful. Pastures are good with a few weeds. Milk is coming in well for a high price; milking cows will run from \$80 to \$85. Horses are in no demand at all, with lots to sell.—T. O.

**ONTARIO**  
**HALIBURTON CO., ONT.**  
 KIMYING, Aug. 2.—The June made making very late but it is about completed now. About one-half a crop. Corn is getting on the average, early peas and all other grain is the best in years. Beans are coming on slowly. Potatoes, the early ones are very good. The price of eggs is very low; few buyers; sales are at 85c to 90c. Hens, \$1.00 to 1.10; chickens, 10c to 12c; sheep, 10c to 12c; calves, \$6 to \$8.50; butter, \$20; eggs, 20c; no potatoes, 10c a bush; peas, 80c a bush; wheat, 12c; chickens, 16c.—J. A. S. T.

**HASTINGS CO., ONT.**  
**TWEED, Aug. 4.**—We have just had a rain which has done a couple of days, and a great many fields of grain have been laid low. The corn is in grain is about harvested and is in almost all cases a good crop. Corn and rye, crops are making good. Beans and peas are promising to be a good crop. The peas are becoming short and the milk yield is going out. There are many cases of foot and mouth very badly infected.—J. H. T.

**WELLINGTON CO., ONT.**  
**PERGUS, Aug. 5.**—The heavy rain yesterday flattened the grain down as if a steamroller had run over it, in some places where it is extra long and heavy it did not come up again. We are just in the middle of hay making. The hay is abundant, but unless we soon get good weather a quantity of it will be spoiled. Even the best hay will be much more improved with dry weather. Pastures are excellent. Prices are: butter, 20c; eggs, 12c; chickens, 10c; hens, \$1.00; sheep, \$1.00; calves, 40c; pigs, \$15.—W. B.

and practically all the crop is ready to harvest. Fall wheat and rye are bumper crops. But are very promising and barley is a good crop. The weather was heavy crop and are lodging considerably and will be better than last year. A great deal of mud is in evidence in our fields grown from untreated manure. It will be a great deal of damage yet.—C. B. N.

**WOODSTOCK, Aug. 4.**—We have had wet weather for some time, it raining nearly every day. The corn is in grain is good, and then heavily all night. There is considerable hay to cut yet, and most of the corn is in grain. Some farmers complain that the wheat is sprouting. We fall two months yet, and it is all right so far, but this is very hard on the corn. It is now being done well for some time back but the storm of the night last night put it down badly, a great deal of it will never get up. We cannot expect a good crop.—W. B.

**NORWICH, Aug. 5.**—Hay is about through and was only a fair crop, and a great deal of it was more or less injured by rain in the curing. Wheat is all out but very little is in the barn yet, and the continued heavy rain is causing the shocked wheat to sprout. The tremendous storm that has been so long, has done an enormous amount of damage to the oat crop throughout the whole district. Whole sheaves are completely rotted, and the cutting will be a very slow and tedious proposition. The quality of the grain will be much injured. Hay, 82c; bran, 87c; shorts, 53c; wheat, 95c; oats, 55c.

**NORFOLK CO., ONT.**  
**SIMCOE, Aug. 2.**—Wheat is all out with a few stalks in the barn. The corn is threshing tough but grain is plump, and runs 30 to 40 bush an acre. Plenty of rain, in fact, but not much rain in the past two weeks, with good pastures and cows milking well. Corn has been backward, but is getting on. The stored seed is showing up good wherever cut early.—F. C. B.

**GREY CO., ONT.**  
**THORNHURST, Aug. 4.**—We had a heavy downpour of rain yesterday which lasted all day. It has done a lot of harm to standing grain, laying it flat on the ground. The apple trees in fruit are a surrounding country. There are 600 pairs of socks for the soldiers at the front, and they should be ready to take to do so long as they are needed. One old lady, 54 years of age, has knit three pairs, who can knit another one. Her man has knit over 60 pairs. The price of butter is 25c, and eggs 25c. The farmers are shipping a number of butter and cereals to Toronto. They are taking their own cattle and horses to market. The turn about when shipping their stuff man doing business for all.—C. V.

**ESSEX CO., ONT.**  
**ARNEE, July 23.**—Haying is about completed. Wheat and barley harvesting has been in progress in the district for some time. Oats ready for harvesting next week. Spring grains are a good crop. The corn is in grain is a fair crop, but is not up to the past few days both of these crops have grown rapidly. The farmers have commenced to take in their cucumbers to the pickle factory. There has been excessive rainfall during the past few weeks.—W. M.

**BRITISH COLUMBIA**  
**WEST WASHINGTON CO., B. C.**  
 CHILLIWAG, July 28.—Haying is over for another year. The weather is well advanced. Already some have cut and thrashed, and some are taking a number have already cut their oats. The weather is cloudy at present but a few bright spots it was 100 degrees in the shade. That's not bad for B.C.—H. C.

**BRITISH COLUMBIA**  
**BROOKSIDE AYRSHIRES.**  
 NORWICH, Ont., reports the sale of 160 Ayrshire bull calves advertised some time ago in Farm and Dairy. Mr. H. C. Hamill, Box Grove, Ont., scored a nice one from Brookside, which was the only full child of Jess Armour, the export's champion. Mr. John A. Hayward, Eastview, Ont. secured an equally good one from Scottie's Nancy 2nd. This cow qualified both as a 3-yr-old and a 3-yr-old in the H.O.P. and is the first to have finished in time for the Guelph winter fair.

The dam of this calf was the export's, as she has given up to 63 lbs. a day on two milkings, and penning at large with her dam in the fall. This calf, the King of Springbank, a maternal half-brother to the champion Brierly 2nd of Springbank.

Mr. W. T. Harris, Madoc, Ont., secured a good one from Scottie's Sarah, a half-sister to Jess Armour, as well as Mr. Hamill's, was sired by our new stock bull, the King of Springbank. Exporter, a son of one of the choicest Ayrshire cows in Canada to date. Lussbrook Farm, near Madoc, was the dam of a yearling of 15 weeks in milk at Ormstown, a year ago last June. The last calf to go was

secured by Mr. E. D. Hilliker, Burgessville, Ont. He possesses very choice breeding and I expect will be exhibited by Mr. Hilliker at Toronto. This closes our list entirely of bull calves.—

**OLYMPIA FERN**  
 OLYMPIA FERN, owned by S. P. Kelly, Ferndale, California, has a record to her credit of 15,349 lbs. 11.66 os. of milk, and 927 lbs. 13.5 os. butter in one year. This makes this pure blood Jersey cow the champion butter producer in the world over all breeds at four and one-half years old and under.

T. E. Bissell Co., Limited, Elora, Ont.

years. Besides being a splendid producer, Olympian Fern is a show cow of no mean degree, winning first prize in the aged cow class at the World's State Fair last year; later she was the champion and grand champion of the Show. Here is proof positive that great production and desirable show yard conformation may be combined to a remarkable degree.

The sire of Olympian Fern is Melias Golden Lead, with five daughters in the Register of Merit. Her dam, Olympia of Maple Lane, has three other daughters in the Register of Merit.

**The Bissell Steel Roller**  
 With Three Drums and Strong Rigged Frame.  
 Some Improvements are: Heavy Steel Axle, Thick, Heavy Steel Plates, Drums Riveted, up to stand any strain, Roller Bearings Run like a slide. Full particulars free by mail, or ask your dealer. None genuine without the name "BISSELL." Look out for it. The Roller will stand hard work and lots of it. Write Dept. R. for free catalogue.

Don't fail to see us at the Toronto, London & Ottawa Exhibitions
