Americana

Annual Register (Dodsley), of History, Politics, and Literature. Complete from its commencement in 1758-1832; 75 vols., with General Index, Index to History, also the Index to Births and Deaths to 1819, 3 vols., together 78 vols. *A sound set in half calf, yellow edges*, \$24.50. 1758-1832. 1 a.

—Another long and cheap set, 1758-1839, with 2 index volumes; 84 volumes, *nice and clean, but many covers broken*, \$14.50. 2 a.

We rejoice to have been the medium for the distribution of *some hundreds of thousands of volumes by the best authors, ancient and modern*; and it gives us especial pleasure to import and sell, at a cheap rate, so many sets of BURKE'S INVALUABLE REGISTER, which will become very scarce, as most of those we have disposed of are well cared for in public libraries and institutions. The above sets comprise a detailed view of the *politics, literature, biography, parliamentary history, commerce, statistics*, etc., during a most important period. All the *State papers* of any importance are given at length. It was suggested to Dodsley by the *Right Hon. Edmund Burke*, who conducted it for many years, and when no longer able to hold the pen himself, he directed that of his substitute, *Mr. Ireland*. The great questions which occupied the talents and attention of this, one of the greatest of men, and called forth from time to time the most splendid displays of eloquence, which was listened to, and since read by admiring multitudes, and his public labors, was one continuous struggle against the stupidity, venality, and selfishness of the politicians of his day. It is safe to assume that had his advice been taken, the necessity for *American Independence would never have had any existence, Warren Hastings would have been hanged, and the world would never have been cursed with a Napoleon*. In one of the index volumes there are above 200 references to this one man.

The contest with the *American Colonies*, the impeachment of *Warren Hastings*, and the *French Revolution*, all of which were commenced and concluded during the publication of the above; the relationship between England and what is now the United States and Canada, occupies nearly twenty columns in the closely-printed index, representing many hundreds of pages. *Hundreds of authors are indebted to this bold and uncompromising lover of justice*, and his complete and invaluable information retailed to their readers. On the subject of Canadian history, these volumes are of extraordinary interest. Long accounts are given of the Indian and French wars, and each of the sets completely cover the interesting period of 1812-14.
