THE "MOVIES."

The amazing development of the motion-picture industry is indicated with fair precision in the latest available report of the national board of censors for motion pictures, covering the year from October, 1911, to October, 1912. The report estimates that 98 per cent of all films exhibited in the country pass under the board's inspection. The total number of sample reels inspected during the year in question was 4,460, or, at 1,000 feet of film to the reel, 4,460,000 feet. Every sample is reproduced one hundred times on an average, so that, for the amateur of pure numbers, there is a delight in the thought that the board's authority was effective over 446,000,000 feet of film. duction. Nevertheless, out of 4,330 films presented for inspection, thirty-three were condemned altogether, and 2240 were subjected to partial elimination, involving the destruction of more than 40,000 feet of sample film, at a cost of nearly \$60,000. The activities of the board extend to the programmes of nearly 16,000 moving-picture theatres, with a daily attendance during the period cited of about 7,000,000.—New York Evening Post.
