sult will be a lustre like that of new material. White silk bodices and gowns not often worn should be kept in drawers or boxes wrapped in blue tissue-paper, with bits of white wax scattered among the folds. White silk articles of any kind should never be hung out on the line to dry. They should be rolled up in a cloth and kept so until ironed.

* * TO WASH QUILTS.

A soiled quilt can be washed perfectly clean without any rubbing, wringing, or hard work by the following plan : Fill your wash-boiler nearly full of cold water, dissolve some good soap and stir in, then put in the quilt, and make your fire.

When it comes to the boil, keep it well punched down, and boil for a half-hour or more. Then lift it out into an empty tub, dip out all the soiled suds, and again fill the boiler with cold water and soap, drain the quilt, put it back in the boiler, and boil for another halfhour. Then take out and rinse through four waters, and hang on the line without wringing. It will be perfectly clean and sweet.

TO CLEAN COAT COLLARS.

Coat collars become soiled by coming in contact with the hair. The slight greasiness upon the collar gathers dust, and the two together form a mixture disagreeable to look upon and difficult to remove, especially if allowed to accumulate and harden. It is best to clean the collar frequently. Very strong alcohol or benzine or ammonia may be used. In either case, do not work near a lamp for fear of accidents. A tablespoonful of powdered ammonia in half a teacupful of water is the safest mixture. Dip into it a piece of cloth, and well rub the collar with it until it is clean.— Otago (N. Z.) Witness.

* * TO DRIVE OUT RATS AND MICE.

When we moved into our present home, I found that the house was over-run with rats and mice. I tried everything to drive them away, but with no suc-

After liberally sprinkling quick-lime on the cellar walls and around the edges of the floor, I discovered that the unwelcome visitors had gone. The lime burned their feet. I now sprinkle the lime in the cellar once a year, and have never seen another rodent during the ten years we have lived here.-M. B. H., in Suburban Life.

A fund maintained by readers of "The Farmer's Advocate and Home Magazine' for (1) Belgian Relief; (2) Soldiers' Comforts; (3) Red Cross Supplies.

The following contributions have been received during the week from June 4th to June 11th :

Amounts over \$1.00 each:

Friends of Knox Church, Strathroy, Ont., \$10.00; Mrs. Geo. Wilson, Winchester, Ont., \$5.00; J. E. Jackson, Elia, Ont., \$1.50; M. J. Bussell, Hornby, Ont., \$2.00,

Amount previously acknowledged

from Jan. 30th to June 3th \$1,402.75

Total to June 11th\$1,422.25 Mrs. Elizabeth Gibson, Mallorytown, Ont., \$1,00.

Kindly address contributions to "The Farmer's Advocate and Home Magazine,' London, Ont.

A civil engineer, who was building a railway in Mexico, was trying to show a native how much the new railway would benefit the country.

"How long does it take you to carry your produce to market at present?' he asked.

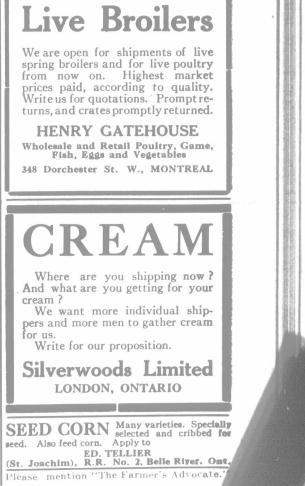

"With a mule it takes three days," was the reply.

"There you are !" exclaimed the en_ineer. "When the new railway is in operation you will he able to take your produce to market and ret rn home the same day !'

"Very good, senor," was the placil reply, "but what shall I do with the other two days ?"
