THOM'S PNEUMATIC AND PROPELLER Elevator Feed Cutter

Patented in Canada
and the United States.

OUR machines have filled more silos, twice over,
than have been filled by all the other combined
families of imitation machines.

It's foolish boasting for any firm to say that their
machines are the only practical pneumatic cutters on
the market.

We are the originators and the patentees, and the
only safeguard against being humbugged is to see
that the machine you purchase is marked "Thom's
Patent."

Every honest manufacturer in Canada knows that
we are the leaders, and that our machines represent
all that is latest and best.

We guarantee to fill any silo in Canada, we care
not what the height may be, at the rate of 8 to 12
tons per hour.

And we remind the farmers we make high-grade
plows, Riding and Walking. Our latest is the
"Ideal" two-furrow gang, for two or three horses,
intended to do the work of two ordinary walking
plows. Wherever our plows are not already known,
special prices to introduce them. Once on the farm
they prove a comfort.
