

Men, It's Free

Any weak, puny man can have my Electric Belt Free, without the payment of one cent.

I make this offer to weak men, particularly those men who have spent their earnings for years on dope (the drugs that make them feel like a young colt one day and like an old, broken-down hack the day after), those men who have tried so many things that they are tired of fooling and want a cure. Those are the men I appeal to, and I am willing to give my Electric Belt free, without a cent of cost to you.

Men with small, flabby muscles, thin-chested, dull-eyed, short of breath, without endurance, courage, ambition, sand or grit in their make-up, are WEAK MEN. If they were not born weak I can make physical giants of them.

How do I do it? By filling the blood, the nerves, the organs and muscles with electric energy—that is what Nature gave them at first—that is what they have lost when they break down.

My Belt is easy to use; put it on when you go to bed; you feel the glowing heat from it (no sting or burn, as in old-style belts), and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a two-year-old.

Wherever you are, I think I can give you the name of a man in your town that I have cured. Just send me your address and let me try. This is my twenty-fourth year in the business of pumping new vim into worn-out humanity, and I've got cures in nearly every town on the map.

If you will come and see me I'll fix you up. If you can't call let me send you my book full of the things a man finds inspiring to strength and courage. Free if you send this coupon.

There's nothing surer than the word of an honest man, and when such men as these admit that I cured them, you know that I can cure you.

HERE IS PROOF OF MY ARGUMENTS:

G. Duval, Grand Mere, Que., says: "Your Belt is a wonderful appliance for the relief of poor suffering humanity. I found a permanent cure in its use for Rheumatism and weakness. Yes, the Belt cures."

F. A. Ouellet, Springfield, N.S., writes: "I now feel like a new man every way, and wish you all the success that you deserve in your endeavor to relieve suffering humanity."

W. H. Belding, Chance Harbor, N.B., has this to say: "After 32 days' use of your Belt, I feel twice as strong as I did. My stomach is much better, and I have improved in every way. Have gained in weight and sleep better than I have for 10 years."

Fred. J. Cutterbuck, Brockville, Ont., writes me, saying: "I have worn your Belt for 32 days, and feel better than I have for years. My stomach is better and my appetite has improved wonderfully. I feel like a new man entirely."

I have cured thousands of men who have squandered the savings of years in useless doctoring.

Veterinary.

CHRONIC SORE.

Stallion went through a bridge a year ago, and scraped his leg in front of the hock. The wound has not healed, but scab after scab forms. E. T.

Ans.—On account of the motion of the hock at each step, wounds in this position are very hard to heal. Keep him as quiet as possible in a well-ventilated but darkened stall to avoid annoyance by flies. Dress the wound, once daily, for four or five days with butter of antimony applied with a feather, and, after that, dress, three times daily, with carbolic acid, one part; sweet oil, thirty parts. Alternate this dressing with one made of one ounce each acetate of lead and sulphate of zinc and half a dram carbolic acid to a pint of water. Use the oil for two days, then the lotion for a day, then the oil again, etc., etc. V.

Miscellaneous.

EGYPTIAN ONIONS.

Have Egyptian or perennial tree onion. Are we supposed to gather small ones, which grow in bunches on top, or are we supposed to plant these in fall, and use when they came up in the spring? L. C.

Ans.—The Egyptian or perennial onion does not form bulbs in the ground like ordinary onions, nor does it produce seed. The little bulbels, which grow on top, should be planted in September the same as ordinary sets, and they will produce good bunch onions for early use in the spring. H. L. HUTT.

AILING DUCKS.

Our ducks sometimes are unable to walk. When they attempt to walk, they suddenly tilt backward, and sometimes they remain so for two or three hours, other times not so long, before they are able to walk. After this passes, they seem better again. They are about two months old. We feed them bran and shorts, ground wheat and whole wheat.

Ans.—The trouble mentioned is not uncommon with ducks, and is caused by various things, including a lack of shade, insufficient grit, especially of the limey nature, such as oyster shells or limestone grit. It has also been known to be apparently caused by an excess of animal food. A duck requires a ration of about thirty per cent. green food, ten per cent. animal food, and the balance of grain. Where one is mixing the grain food with skim milk, very little animal food is required. W. R. GRAHAM.

GOSSIP.

Mr. Geo. W. A. Reburn, Massachusetts, Que., has been a breeder of high-class pure St. Lambert Jerseys for many years. His new advertisement in this issue offers for sale a grand lot of young cows, heifers in calf and heifer calves. Look it up, and write him if interested.

D. M. Watt, St. Louis Station, P. Q., breeder of high-class Ayrshires, Canadian and Scotch bred, all of deep-milking qualities, writes us: "To make greater improvements I recently bought from R. R. Ness three very fine two-year-old heifers, bred by Mr. Mitchell and Mr. Barr, Scotland. They are of good-milking qualities, large, deep-bodied and fine udders. One of them has recently freshened; the other two are due this fall. I have a few fine Canadian-bred heifers for sale. They are due to freshen this fall. I have, also, a few yearlings and calves, and one bull calf, eleven months old, Sir Mindana Hector (imp.). We are offering special bargains in this stock in order to reduce the herd, on account of shortage in feed. My present stock bull, Pearl Stone of Glenora, has left a creditable mark in the herd. My yearlings are the best lot ever raised. The two-year-olds are from Lessnessock Reliance (imp.) 16770, and show the real dairy type. The herd was prepared to be shown at the local fairs here and at Ottawa."
