

For All Kinds OF Seeding

No machines or implements are quite so effective as **The McCormick Line of Seeding Machines.**

The line embraces Hoe Drills, Shoe Drills, Disk Drills and Broadcast Seeders.

All are equipped with a positive double run force feed which insures perfect and even seeding, even if the grain is not perfectly cleaned.

Hoe Drills may be quickly changed to broadcast seeders. Hoes change from straight to zigzag line by convenient lever.

Safety springs on each hoe draw-bar prevents breakage in passing over roots, hidden stones, etc.

Powerful lifting spring aids the lever in easily lifting the hoes. Made in three sizes having 10, 11 and 13 hoes.

Shoe Drills—specially adapted to sandy or loamy soils. Driven from both wheels, insuring even flow of seed at all times. Provided with divided lift—user can lift half the shoes with each lever.

Perfect regulation of pressure on shoes.

The McCormick line of tillage implements for Canada is complete and includes Smoothing harrows, spring tooth harrows, disk harrows, scuffers, cultivators and land rollers.

Call on the International Agent for information or write nearest branch house for catalog.

CANADIAN BRANCHES: Calgary, London, Montreal, Ottawa, Regina, St. John, Toronto, Winnipeg.

INTERNATIONAL HARVESTER COMPANY OF AMERICA, CHICAGO, U. S. A.
W. C. (INCORPORATED.)

This drill is made in three sizes: 16, 18 and 20 shoes.

Zigzag Disk Drill specially adapted to drilling stubble or trashy land. Being zigzag, with wide spaces between disks, drill will not choke or clog. Splendid for seeding on fresh breaking or sod plowing. Cuts up the earth, making a fine seed bed.

Made in three sizes: 15, 17 and 19 disks.

Cultivator and Seeder may be quickly changed from one to the other. Sows all kinds of small grain broadcast and covers it with the cultivator. Equipped with grass seed attachment.

Made in two sizes—6-foot with four sections and 7½-foot with five sections.

Broadcast Seeder worked with one horse, fluted force feed and safety spring grain spout. Grass seed attachment. Sows all small grains in any desired quantity. A very strong and efficient machine.

A Worker On the Farm

Hard, slow, disagreeable, odd jobs can be turned into quick profitable pleasures by using this handy, Portable Gasoline Engine. Talk to your neighbors about it. We build them from 3 to 40 H.P. and build them right. They are

not expensive and it will pay you and please us to attend to your wants, if they are only a Catalogue and particulars.

IDEAL WOVEN WIRE FENCE

When you build fence, you ought to be thinking of permanent improvements. Fencing does not pay. Fences made of light wire, and wires that break rather than give when it gets cold; fences that an unruly animal could break through; fences not properly stayed—these are not paying fences. It takes only a glance at the Ideal fence to see that it is the right kind. It is made of No. 9 hard steel wire from top to bottom, and is heavier and stronger than any fence on the market. Remember, it costs no more to dig your post holes, set your posts, stretch your fence and staple it when the heavy Ideal fence is used than for a light, flimsy article. And notice how the Ideal fence is locked at every crossing. It is heavily galvanized to keep off rust. It will adapt itself to the greatest extremes of heat and cold, and always present a handsome, well stretched appearance. You do not buy poor cattle because it does not pay, and you cannot afford to buy a light, cheap fence for exactly the same reason. It pays to study the matter over thoroughly before you buy any kind of a fence. We have prepared a little book that will tell you all about Ideal fence. It gives fence pointers and details that we cannot give here. Write and let us send it to you. A postal will do; write to-day.
