IT IS TO LAUGH

The amusing Toronto Globe has broken out in a new spot. It twits Winston Churchill, First Lord of the Admiralty with having shown that the "German peril has vanished into thin air" and asserts that because no battleships are needed from Canada in the German sea that therefore no emergency exists and that therefore Johnny Canuck should build, man and equip three workshops for Vancouver, at which point the leading Grit organ seems to imagine there is hourly danger of an attack from Japan.

HEALTH MINISTER

It is rumored that the Borden Government proposes to establish a Minister of Public Health. It is to be hoped that the statement is correct. In some places, France in particular, there are inducements for the acceleration of the family birth rate, but there is also the solemn duty of preserving those we have, and to a very large extent many diseases are in the preventive class such as typhoid, tuberculosis and in fact all cases in which infection is involved. Of course in this connection the matter of an early diagnosis with regard to individual cases and complete isolation are essential.

NO ELECTION THIS YEAR.

Liberal newspapers still give their readers to believe that the naval bill will be blocked, and that an election will take place this year. A few months will show those readers that their organs deceived them, but the organs will keep on feeding them with other stories equally absurd, and the marvel is that many of these Liberal readers will continue to believe these stories.

What the Other Fellow Thinks.

As to Pugsley. Hamilton Spectator: Ex-Minister Pugsley's insufferable arrogance and mendacity was once more shown in his blatant assurance in the house last night that the people were eager for an election. Where did he gain his alleged knowledge? If there is one thing more than another the people do not want, it is to be thrown within a brief year and a half, into the turmoil and expense of a contest, merely to gratify the spleen of a small clique of disgruntled and discredited politicians.

His Mandate. Stratford Herald: The Kincardine Review, edited by Hugh Clark, M.P., reminds the public that in connection with the attempt to hold up the Borden naval measure several points of importance and significance should not be lost sight of. The Conservative leader during the election campaign said he would, if made Premier, go to London and consult the Admiralty as to the measure of aid which would be most acceptable. He was returned to power and he carried out his promise. He is therefore entitled to hold that he had a mandate from the people to do what he did, and the members who represent the minority in the House have not justification for holding back the measure. The Premier has every justification for refusing to dissolve the House on a question that the electors have already passed upon.

Nature's Own Warning. St. Thomas Times: Our Mother Nature has been issuing strenuous warnings to mankind the past few days, by means of hurricane, flood and tornado, that the destruction of forests without any attempt at replacing them is at the peril of lives and property. That deforestation is the cause of rivers overflowing their banks, of mighty winds sweeping across great tracts of country, devastating everything in their path, is beyond a doubt, and scientifically proven. Years ago when the pioneers of this country were still hewing out the clearings in the almost unbroken forest, there were no death-dealing and property-destroying cyclones and tornadoes.

Discredited. Woodstock Express: Under the heading "Lying Report Sent Out," Rev. Dr. Macdonald of the Toronto Globe, published a letter under his own initials in which he referred to "lying reports" which he says were sent out by the Conservative press with respect to the near riot in the Commons on Saturday night. Among other things he denies that Dr. Pugsley clutched at the Chairman's shoulder, shook his fist in his face, and adds, "No man was more self-possessed." They very day that his letter was published, Dr. Pugsley admitted in the House that he was "angry through and through." So much, therefore, for one "lying report" sent out.

NIGHT CLASS WORK PROOVES BIG BENEFIT

Closing of the Class Work Last Night Proved Very Interesting Affair. The night classes which have been held in the Brantford Collegiate for the past four or five months were brought to a very successful close last evening. A very large number were present to view the work of the various classes and listen to the speeches of those in charge.

NO DEGRADING OF THE N.T.R.

For some time there has been talk that the Dominion Government had changed the grade in the National Transcontinental to such an extent that it would not be the first-class road which was first intended, and that the Grand Trunk Pacific might thus have a ground for refusing to operate it. An explanation has at last been given, and it seems that some one was making a mountain out of a mole-hill. At two points, near miles 395 and 397, west from Quebec, velocity grades have been adopted. These are 4-to 10 per cent. eastbound and 6-to 10 per cent. westbound. They will not affect the economical operation of the road. Practically all the engineers agree that velocity grades might have been introduced permanently into the road without affecting traffic and greatly reducing the cost. The answer made by Hon. Mr. Cochrane seems to be complete, and probably nothing more will be heard of this "great crime." The G.T.P. cannot have any objections.—Canadian Courier.

NOTES AND COMMENTS.

It is rumored that the name of Ottawa is to be changed to Gaville and that of Pugsley to Mugsley.

Mr. Sweet followed Mr. Picher, complimenting the pupils, teachers and those in charge on the work, which judging from the work in evidence was of a very advanced type and a decided success.

Mr. Simpson, a member of the royal commission on technical work, was the speaker of the evening. Mr. Simpson in opening his address stated he noticed a decided change in Brantford since his last visit, in many respects. He was also glad to see such rapid strides being made in connection with the night classes and technical education in general. He dealt with conditions he found prevailing in other countries, relating to technical education. In Germany, for instance stated the speaker, they have laws compelling factory employees to attend night schools. These employees were paid wages to attend the classes. This to a large extent was considered by the speaker as the reason why Germany was able to compete so favorably along educational lines, with the result that Germany is the home of a class of expert workmen but also educated men. Primary English is also compulsory in Germany. The speaker in bringing his remarks to a close stated he was of the opinion that primary English should be made compulsory in the case of all who have not the time or means to attend schools during the day time.

Mr. Fred Pelling, who has charge of mechanical drawing classes, spoke briefly on the work of his class, dealing with the rapid advancement made by the pupils of his department.

IN ONE MINUTE! CLOGGED NOSTRILS OPEN—COLDS AND CATARRH VANISH

Stops Nasty Discharge, Clears Stuffed Head, Heals Inflamed Air Passages and You Breathe Freely. Try 'Ely's Cream Balm.' Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold, sin-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of 'Ely's Cream Balm' at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately. Don't lay awake to-night struggling for breath, with head stuffed, nostrils clogged, hawking and blowing. Catarrh or a cold, with its running nose, foamy mucous dripping into the throat, and raw dryness is distressing but truly needless. Put your faith—just once—in 'Ely's Cream Balm' and your cold or catarrh will surely disappear.

Miss McWilliams who had charge of the millinery classes also spoke, stating the attendance at the night classes had been very good, also the work. The girls had all made a hat or two apiece. Between thirty-five and fifty hats, all made by the pupils were on display and certainly were a credit to not only the teacher but also the pupils.

Mr. J. P. Picher, chairman of the technical committee in the course of a few remarks read the following letter re the special grant asked by the Brantford committee. Chairman of Technical committee, B.C.I.

Dear Mr. Picher.—The deputation which waited on the Hon. Minister of Education some time ago asking for a special grant to the B.C.I. for support of the night classes and of which you were chairman, I may say I have seen Dr. Pyne three times and have urged upon him the necessity of making the grant asked for. The supplementary estimates have not been brought down in the House, but I think I can with confidence say to you that an additional sum will be set aside out of which B.C.I. will get as much as the deputation asked for if probably will not take the form of a special grant but will be made subject to regulations and distributed on a certain basis and no doubt you will be satisfied when the amount of the grant is made.

Yours truly, W. S. BREWSTER.

The distribution of the prizes brought a very successful evening to a close.

Mr. Picher when seen this morning by The Courier representative stated that the committee proposed to give the work if possible and in this manner hoped to attain better results.

ARE YOU GOING WEST THIS SPRING?

If so, exceptional opportunities are now being offered by the Grand Trunk Railway System in connection with Colonist, Homeseekers and Settlers excursions. The Colonist rates are one-way tickets applying from stations in Ontario to Vancouver, B.C., Victoria, B.C., Prince Rupert, B.C., Seattle, Wash., Spokane, Wash., Portland, Ore., San Francisco, Cal., Los Angeles, Cal., San Diego, Cal., and other points in Arizona, British Columbia, California, Idaho, Montana, Nevada, Oregon, Utah and Washington, and are on sale daily until April 15th, inclusive.
