MANITOBA ELECTIONS.

On July 11th the Manitoba elector ate will elect a new legislature. Elections are uncertain, but nobody be lieves that there will be any change in that province. The present govern fore the people. Leaders in Canada in the control of freight rates, govern ment ownership of telephones, govern ment owned elevators, they are ac knowledged as being the most pro gressive of our local legislatures.

The attitude of Sir Wilfrid on the extension of the boundaries has injured his followers in that province. He seems determined to revenge his defeat in Manitoba by forcing it to remain the "postage stamp province." No Canadian statesman has ever acted in such a petty manner. Manitoba people resent the Federal premiers attitude toward their province.

The opposition in Manitoba is la mentably weak Nearly all of them in the pay of the Dominion government they are rated as hirelings of a party whose enmity toward their province has been amply proven by Sir Wil frid's attitude on the boundary question. T. C. Norris, the oppositio leader, is personally popular, but is an employee of the Federal government. Last provincial election in this province he assumed the part of the most despicable ward heeler. His masters at Ottawa cracked the whir and Norris was seen in his true light as a manipulator of the foreign vote The people of Manitoba will not place a man of his calibre in control of the destiny of their province. Manitoba will not retain the services of Sir Wil frid's hire dman to secure justice from
