PARIS BLACKMAIL CASE.

Sensational Affair Now Occupying Attention of the Courts

Paris, Dec. 21.—Further sensational developments are promised in connection with the arrest in London of Alexander Tscherniedoff, charged with conspiring to blackmail Lucie Tate de Choiseul, of Paris, widow of Charles H. Payne, of Boston. Tscherniedoff, who posed as a count, but who, according to the counsel for the prosecution in reality was a Russian peasant, was remanded in the Marylebone Police Court.

The attorney for the Duchess de Choiseul says that other arrests, both in London and on the continent, are impending and intimates that the plot to blackmail the former Mrs. Payne, which was based upon alleged letters written to her, to the so-called Count de Galigny, who is under arrest for an attempt to extort from the count \$200,000 for sordid pictures supplied to her late husband, by many ramifications.

Mrs. Payne and the Duke de Choiseul were married Nov. 23, under the separation of property law, the marriage contract leaving each full control of his or her own property.

TOO MUCH LEVITY.

Western Man Criticizes Proceedings of the House of Commons

Ottawa, Dec. 21.—Charles Crossman, of Elkhorst, one of the prominent figures in the grain growers' deputation, is not impressed with the Canadian House of Commons. Speaking to a reporter he said: "On our visit to hear the deliberations of the members of the House of Commons we were most impressed by one thing—the waste of time and the levity in the conducting of the debates. To see a handsome chamber strewn with all kinds of paper, members with hats on and legs on their desks throwing up their balls at one another is not an edifying spectacle, or one that lends that dignity to the house that a stranger would expect. And these scenes occur even during the most important debates. We in the west have always thought, there is much to be said for the Commons, and I will undertake to say that our executive in sessions will do more real work in one hour than the House of Commons does in a whole day, and it costs the country nothing."

ANOTHER VICTIM TO SKY NAVIGATION

Belief is General that Young Cecil Grace Has Lost His Life in North Sea

London, Dec. 23.—With the approach of midnight and no tidings yet of Cecil S. Grace, an aviator who dropped Thursday afternoon, while en route to Dover, in an aeroplane, the belief that he is generally prevalent in London is that the old North Sea holds somewhere in its breast the story of a tragedy.

Every hook and cranny where it was thought young Grace might have landed, was searched today unavailingly. Grace carried with him petrol sufficient for a flight of about five hours. His bi-plane was not fitted with pontoons.

Grace wore a cork jacket but in case of a fall into the water he would have been cumbered by his heavy boots. The general belief is that it would be impossible for his machine to float for any length of time, and that unless found for some distant port there is slender hope that he escaped death in the seas.

CHRISTMAS PARTY ENDS IN TRAGEDY

Two Women and Four Men Lose Lives by Fumes From Gas Stove

Kenton, Ohio, Dec. 26.—Two women and four men were found dead yesterday in two rooms in a building at the rear of the opera house, where they had held a party last night. The dead are: Clark Latham, aged 34; Mrs. Clark Latham, aged 31; Pearl Kennedy, aged 27; William Kennedy, aged 53; Harry Newcomb, aged 26; Mrs. Elizabeth Bailey, aged 22.

The clerk of the restaurant on the first floor received no response to his repeated calls and going to the rear of the room the first sight that met his gaze was four bodies lying on the floor. He gave the alarm and a son of William Kennedy broke open the door with a hammer.

Killed by Fumes. A fire had been burning in a gas stove which had no escape pipe and it is supposed that the fumes from this killed the occupants of the rooms. The four people found by the clerk were fully dressed, while the Kennedys, who were regular roomers there, were in bed and were evidently overcome in their sleep. It is not known where the Lathams came to be in the room, as they lived in another part of the town. Nothing is known of Newcomb or the Bailey girl up to the present. Kennedy had been separated from his wife and evidently intended for a Christmas party for his grand children, for he had made his preparations in the rooms and had a bundle of toys. A number of bottles were found in the adjoining room.

Eight Passengers Killed When Scotch Express is Derailed and Burned

Kirky Stephen, England, Dec. 26.—Eight passengers were killed, some of them being burned to death, and 25 others were injured in a wreck on the Scotch express near Hames Junction yesterday. Fire caught the wreckage and the whole train with the exception of the locomotive and rear baggage car were reduced to ashes.

Though at first it was thought that only two persons had been killed and that the others had time to escape before the flames swept through the coaches, a search of the debris resulted in discovering other bodies, and by the time the whole wreckage had been gone through eight bodies had been recovered. Most of the bodies were burned beyond recognition. Among the dead was a little girl who perished in the flames before the eyes of the people trying to save her. Identification of the wreck caused some delay before the physicians could reach the place.

He soared more than two miles up into the sky, his barograph registering 11,474 feet, or about one thousand feet above the altitude of 10,499 feet, recently made by Lagarde, at Pau, France.

This is the second existing record that has been broken in Los Angeles, the first being last January when Paulhan rose a little over 4,000 feet. Hoxley accomplished his feat in a forty mile gale that wrecked Latham's monoplane and kept more cautious aviators on the ground.

Hoxley sailed into the sky at one o'clock. His barograph showed the greatest height at 2:45. Coming down he made a series of thrilling spiral glides while thousands of feet in the air.

The crowd was cheering when he came lightly to earth. He was lifted from his machine by fellow aviators. The crowd insisted on making a hero of Hoxley. They did not give him time to doff his furs before marching him back and forth before the grand stand.

RUMORED APPOINTMENT CAUSES LOUD PROTEST

French Press Objects to A De'Cellis Being Selected as Canadian Commissioner

Paris, Dec. 26.—(C.A.P.)—It is rumored here that A. De'Cellis, librarian of the federal Parliament, and a F.R.H.S.C. is to be appointed high commissioner of Canada at Paris. The rumor has aroused a protest from the French press.

De'Cellis, who received the legion of honor decoration in 1904, has, it seems given great offence to France and to French-Canadians by an article he wrote in La Presse of Montreal a year ago. The Echo de Paris said that De'Cellis would be out of place in Paris and the Journal states that "it is impossible that Sir Wilfrid Laurier contemplates confiding to him the precious trust of Franco-Canadian friendship."

Madame Baril also suffered such injuries that her life is in danger. The quadruple funeral occurred this afternoon and was attended by practically all the people in the village.
