GRAND PRE

Mr. Henry and Miss Mabel Borden, both of Halifax, spent the holidays with their aunt, Miss J. H. Borden.

ABOUT BOOKS

A book of special interest to the lovers of Canadian literature in general and of Nova Scotian literature in particular is R. P. Baker's "Sam Slick."

WOODSTOCK TOWN COUNCIL WANTS ECONOMY

An appeal is being made by the Mayor, aldermen, town manager and a prominent citizen of Woodstock, N. B., to their fellow citizens throughout Canada, urging some drastic reforms in the interests of economy.

WHY I RESIGNED AS A BANK OFFICER

A Scotchman came in and asked whether he would lose any interest if he withdrew a dollar to-day and put it back to-morrow. I thought he was joking.

I told a woman to endorse a check to her husband, and she wrote on the back, "Your loving wife, Dorothy."

A customer complained because we didn't pay interest on his overdraft.

I advertised "Consult your Banker" and somebody thought I meant it.

You wouldn't guess it, to see her on the street, but the flapper is very charming in gingham apron and dust cap.

KENTVILLE DEFEATED WINDSOR 5 TO 4

The Provincial Hockey Champions Went Down to Defeat in Thrilling Game at Kentville

KENTVILLE, Jan. 3.—Kentville tonight defeated Windsor, the Provincial hockey champions the past two years, when Burke shot the winning goal after four 5-minute periods of overtime play in the best and most exciting game ever played in the local arena.

HON. F. B. MURPHY

Elected to the board of Montreal Tram and Power Co. Mr. Murphy represents Nova Scotia shareholders.

SMILE

In small towns no one's business is often made everyone's business and a remark that is especially true of love affairs.

KNEW ALL ABOUT THEM

Old Stage Hand (boastfully) "Yeh I've seen a good lotta good actors in my day. Once I knew an actor who could read a restaurant menu card and make his audience weep."

WORTH TRYING

Willie would not study. It broke his mother's heart. So father spanked him good. We hear it made him smart.

There need be no controversy as to whether the man or the woman is boss—besides controversy will never come anywhere near settling the question.

Usually the man mean enough to talk about his neighbor has done things mean enough for his neighbor to tell about him.

It is the soul which sees and hears, not those parts of the body which are, in a sense, the windows of the soul.

BUT DID SHE?

The inspector put his hand on the golden head of the tiniest girl in the class, and smiled kindly. "What is your name, little girl," he asked.

Applied Affection.—You can raise a boy on love, but there are times when you must apply it to the seat of his pants.—St. John Journal.

Change of Venue.—A man I know ate too much angel cake the other night and has felt like the devil ever since.—Medicine Fat News.

Rubbing It In.—It can scarcely cheer up a sick horse to see that even the veterinary surgeon who is called in to see him drives a motor car.—Toronto Star.

HUMAN NATURE

Musician: "I've been playing Mendelssohn." Golfer: "Bet you beat him. That guy never could play golf."

A MUCH TRIED RECIPE

Take one reckless, natural born fool; two or three big drinks of bad liquor; a fast high powered motor car; soak the fool well in liquor, place in the car and let him go. After due time, remove from the wreckage, place in a black satin lined box, and garnish with flowers.

All doubt as to whether or not the new Sales Tax will go into effect on January 1st was removed following a lengthy sitting of the Cabinet Council at Ottawa last week when Premier King stated positively that the tax would be enforced.

Politeness of mind consists in the conception of honorable and delicate thoughts.

A conspiracy is never more difficult of detection than when it is concealed under a pretense of duty, or of some alleged necessity.

To live well and happily is nothing else than to live honestly and uprightly.

If you would banish avarice you must first banish luxury.

WHAT IS CHIROPRACTIC ?

Chiropactic is the Science of Common Sense applied to the human machine, and the Art of Adjusting the machine when it is out of order. It is the Science of location and correction of the causes which produce ill health.

Chiropactic is the Science dealing in with the cause of disease and how to eliminate it. The philosophy of Chiropactic points to the source of life and how it manifests itself in matter; the science of chiropactic locates precisely the point where the force is interrupted, producing disease. The art of chiropactic traces the relation between the point of interruption of power and the portion of anatomy which suffers because of the lack of power, and it is capable of removing the obstruction so as to give freedom to power to reach its destination.

The most frequent cause of nerve compression is a misalignment of the bones in the spinal column from between which the nerves pass as they leave to spinal cord.

INVESTIGATE

this wonderful science. It's a pleasure to tell you about it.

New Cars de Luxe Made in Canada

Above—Exterior Cafe-Parlor Car Left—Interior of the parlor. Right—The dining room.

Of the best of modern improvements to railway service in Canada are the Canadian Pacific combination dining and parlor cars. The new all-steel cars, six in number, will operate on the more important short runs, affording every convenience and luxury, where full size dining and parlor cars are not required.

Interior decorations has been given special consideration by the Company, and the new cars are an extremely well finished product. Inlaid mahogany has been used with good effect, the ceilings have a light brown finish, and the lighting has been arranged to permit reading in any part of the car without strain or glare.

some china and silver cabinets can be seen here, and stowed snugly into the corner is a "bar" which will hold a surprisingly large number of bottles, and keep them cool too, because ice may be let into a chamber at the rear, through the roof.

The dining room is 19 feet long and seats 18 people. Three tables each accommodate four diners, and three tables, two. Particularly when lighted, the dining room is most beautiful. The general effect is very rich and soft.

The parlor, over 21 feet long, contains twelve chairs with swivel base and reclining back. There is a good distribution of light for reading, and the compartment is absolutely the last word in comfort.

The smoking room is reached through a short corridor, off which are the wash rooms. This is somewhat smaller, but decidedly more comfortable than the smoking rooms of the standard sleeper or first class coaches. It is over 7 feet long and the two leather sofas accommodate six people.

The new Canadian Pacific cafe parlor cars have their own heating units which is another advantage. They are fitted with cooling fans and the ventilating system has been so arranged as to ensure a complete change of air every few minutes without causing draughts.

These cars are a credit to the Canadian workmanship that has gone into their makeup, and will do much to encourage travel in this part of the continent.
