

# The Port Williams Acadian

## PORT WILLIAMS AND VICINITY

Mrs. David Sutton, Church Street, has returned home from Ottawa, where she has been with her sister, Miss Christine Dewar, who has been seriously ill. Miss Sutton left her sister much improved in health.

Mr. MacMime and Mr. Melvin, of Halifax, (Royal Bank staff) were in Port Williams last week inspecting the work of the branch in this place.

The regular monthly class meeting of the "King's Daughters" S. S. class met on Thursday evening of last week at the home of Mrs. A. B. Rand.

Those who attended the service in the United Baptist church here last Sunday evening had the pleasure of listening to a solo, sung by Mr. Arthur Tingley of Wolfville. Mr. Tingley is a Theological student at Acadia University and his fine baritone voice will be a splendid help in the ministry, since he will be able to sing the Gospel as well as preach it.

Mr. Elias Curry, of Wolfville, was the week end guest of the Misses Peryle and Susie Lingley, of Belcher Street.

The members of the Women's Institute nursing class met at the Institute room in Citizens' Hall on Tuesday afternoon at 3.30. The speaker for the afternoon was Dr. M. R. Elliott, of Wolfville, subject "The Feeding of Infants and Children".

The Rev. Mr. Woodroffe, who was at one time rector of St. John's church, Church Street, was welcomed by his many friends last Sunday morning, when he again occupied the pulpit of St. John's church.

Miss Kathleen MacDonald, of Wolfville, accompanied by a friend from Halifax, spent the week end with Mr. and Mrs. Robert Murphy, Church Street.

Mr. Elias Curry, of Wolfville, spent Monday and Tuesday with his friend, Mr. O. G. Cogswell.

## REPORT ON PORT WILLIAMS WATER

This sample of water was submitted by Dr. Fullerton and Mr. J. W. Harvey, of Port Williams. It was received at the Laboratory on April 3rd. It was not packed in ice. Examination was requested merely as a matter of precaution, as there had been no epidemic in the district, and survey of the water system revealed nothing wrong.

**Colour:** Slightly brown.  
**Opacity:** Very slight, owing to a little suspended vegetable matter.  
**Chlorine:** 13 parts per million.  
**Bacteriological Examination:** Colonies on agar plates after 48 hours, 80; Gas formation equaled 10% on 5 ccm. On Levine's Eosin-methylene blue medium, no B. Coli was found.

Careful search also failed to reveal the presence of Bacillus typhosus or other disease producing germs.

**Conclusions:** There is no reason to conclude that this water is contaminated. The tests are satisfactory in all particulars. In my opinion the water is quite safe to use for domestic purposes.

A. G. NICHOLS,  
Professor of Pathology, Dalhousie University.

**"SAVE THE FOREST WEEK"**  
The Federal and Provincial Governments are again jointly undertaking a special program of Forest Conservation.

Forest fires cause loss of timber wealth and other valuable property. In some cases they have resulted in loss of life. The destruction of the forests interferes with the storage of water and disturbs the flow of streams, causing thereby serious injury to farm lands and water powers.

Forest industries furnish employment to a large proportion of our people, and supply us with many things necessary to our everyday life. Without the forests we could hardly live.

A careless settler, having cut down his trees to clear his land, may try to burn up the brush, during dry weather and neglect to take precautions against the spread of fire into the surrounding bush, or some thoughtless camper or smoker may start a serious fire that will rage for days and cause tremendous destruction.

### CROSS WORD PUZZLE

Played 9 years on Broadway.  
Ran 9 years in Saturday Evening Post.  
Nine years on tour in the United States.  
Five years in London.  
Three years in Berlin.  
Three years in Russia.  
Seen by the world.  
Heard by the world.  
Samuel Goldwyn, producer of "In Hollywood with Potash and Perlmutter," which is said to be one of the most hilariously funny pictures ever seen on the screen, claims his picture is, in one way, very much like Shakespeare's "Hamlet". While one is comedy and the other stark strygedy, both make use of the "play within a play" idea. Only in "In Hollywood with Potash and Perlmutter" the play is screamingly funny—the initial venture of the famous cloak and suit partners in the field of motion picture production.  
The picture will be the attraction at the Orpheum Theatre next Wednesday and Thursday.

### KEY TROSS WORD PUZZLE

Horizontal	Vertical
1 A parent.	1 Myself.
2 Flower.	3 Thus.
3 Male parent.	4 Sailor.
4 Personal pronoun.	5 A French conjunction.
5 Grain.	7 Near.
12 A child's thanks.	8 Exclamation.
14 Southern State (ab.)	9 To locate.
16 Metal in raw state.	11 Means of travel.
18 A map.	13 One.
19 Migratory bird.	14 Denoting pleasant surprise.
21 The high card.	15 Part of verb "to be."
23 To offer.	16 A sphere.
25 Thus.	17 Finish.
27 Cry of sheep.	20 A tree.
29 Child's name for father	22 Talks loud; noisy.
30 Kitchen utensil.	23 A water course.
31 Money (English)	26 An idiot; a simpleton.
32 A numeral.	27 A girl's name (ab.)
33 Two odd letters.	28 A card.
35 Devoured.	29 River in Scotland.
37 Each (ab.)	34 Strikes.
38 A beverage.	36 To put away for preservation.
40 Ontario's dry law (ab.)	38 An animal.
43 Song of praise.	39 A cathedral city.
44 Cuts off.	40 Mineral in rock.
45 To discover.	41 An animal.
47 Before (poetic)	44 A pronoun.
49 Toward.	46 A girl's name.
51 Single.	48 A river in Europe.
53 Exclamation used in Bible.	50 Upon.
54 A point of the compass.	51 All correct (ab.)
55 A flat fish.	52 Eastern time (ab.)
56 One of the United States (ab.)	53 Note in vocal scale.

## CROSS WORD PUZZLE CONTEST

For some reason there was no response to our Cross Word Puzzle Contest last week. This week's puzzle is open to any one, and we are expecting a number of solutions. Who will be the first?

## FACTS ABOUT TEA SERIES—No. 4

### The Two Types of Tea

There are two distinct types of tea, namely Black Tea and Green Tea. Both are made from the same bush and both are equally pure. The difference is in the process of manufacture which gives each a different flavour. Black Tea after it is plucked is withered and partially "fired" or dried, then allowed to oxidize by being exposed to the air. This gives Black Tea its dark reddish colour when drawn. Green tea is immediately steamed after plucking, which prevents oxidization. There are delicious blends of "SALADA" in both of these types and also a unique blend of Black and Green Tea Mixed. All are sold in four qualities.

# Auction Sale

OF  
**19 High Producing Grade Holstein Cows**

**BREEDING**  
14 of the 19 are sired by the pure bred Holstein bull, Clifton Colanthus Poeh, a half brother of Dickie Bros. Senior herd sire. The remaining 5 are sired by a pure bred bull raised at the College Farm, Truro.

**PRODUCTION**  
12 of the 19 have produced 50 lbs. of milk or butter per day when new milch. Of the remaining seven, five are immature cows 3-4 years old.  
7 of the 19 have already freshened or are about to freshen this Spring. The remainder freshen in the Summer and Fall.

**Dairymen! Do not overlook this opportunity to add more good milkers to your herd. Come and buy on Wednesday, April 29th.**

Furthermore we offer for sale the 17 months old, pure bred Holstein bull, King Cobequid Mechthilde, No. 60647, whose dam has a record as a 4 year old of over 16,000 lbs. of milk, testing 38%, and whose granddam is Dickie Bros. great show cow, Patsy B. Hortoz, prize winner at the Royal Winter Fair at Toronto, and at the Amherst Winter Fair in 1923.

Also we list the following:  
1 Dusting outfit in good working order, consisting of a Niagara duster driven by a 3 H.P., I.H.C. engine mounted on skids.  
1 Empire milking machine.  
1 straight Sled 10 ft. long.  
15 tons prime hay.  
1 Green Feed Cutter.  
Sale to be held on the premises of
