Rough Siege Laid to Him.

Mr. James O. Neville, the well known General Import and Export Agent of the "Allan Line," and General Dominion Ship-ping Agent, of 538 Dorchester street, Mon-La Crosse Club. "While on a late exhibition trip to the States," said Mr. Neville to the writer, "my old foe, the rheumatism, William B.Johnston attacked me, and gave me a rough siege.] suffered with the ailment all through my trip and long after my return home. I tried several remedies and found them entirely useless. Having read the indorsements of well known people who had used St. Jacobs Oil, and been cured thereby, I determined to give it a trial. Upon the first application, I saw at once it was what I required. In two weeks time I was as well as ever, fully able to attend to my business. I have not had the least suggestion of rheumatism since. It certainly is a remarkable remedy and one that seems to me to be infallible

Government to disallow those Acts ; we said, "if it was their duty it is your duty also." They said,

"OH, THAT IS QUITE A DIFFERENT THING." What did they do? When the question was pressed home upon them, after Mr. Devlin, who represented the city of Montreal, made a very eloquent speech on that question, ap-pealing to his friends to support that motion, and after several others had spoken, Mr. Mackenzie, finding that my motion would pass that night and he would be left in a didates to take a seat on the platform, who had pledged themselves to stand by my their seats.

resolution swallowed their words next day and voted for a motion declaring that the Parliament of Canada had nothing to do with the question at all. (Cheers.) I ask on some for the course he pursued in a second myself whether I can take the professions of these men now for more that, they were worth at that time? There was another test of the liberality of those men. They talk about being the exponents of Liberal ideas and principles. When they were in power they introduced a bill affecting Prince Edward Island, by which they changed the franchise of that province. There were two sets of franchises, and they introduced a bill here to adopt the one which it was well known would very seriously affect the Catholic vote in that country. I appealed to some of the island members and asked if they knew what was going on, but they were too faithful supporters of the Government to trouble themselves about it or to ask them to change their policy. Fortunately, when it went to the Senate it was so mons when it went to the Senate it was so mons-trous, so unfair, and so unjust for men call-ing themselves Liberal, that it was thrown out of the Senate. For my own part, I have a no reason to believe that by going over to s the Reform party the interests of the people to whom I belone would be any better or as m to whom I belong would be any better or as Conservative Government. (Cheers.) I do not ask for special favours or privileges for myself or in the name of my countrymen.
