THE NEW-YORK WEEKLY TRI-Description of the second of t

tively, and shall especially hail, as we labor to effect a radical improvement in the celerity and reliability of the Mails.

THE TRIBUNE has not now its character to make or to proclaim. It has not been and never can be a mere party organ. It has supported the Whig party because the distinctive principles of that party appeared to favor the great ends which it has laboured to subserve; it never advocated a measure because it was proposed or sustained by the Whig party. It holds itself at all times as free to condemn unsound principles, unwise measures or corrupt acts should the two former be propounded or the latter perpetrated by Whigs as though they had emanated from the hostile camp. In so far as Peace, Liberty, Education, Temperance, Internal Improvement and Industrial Development may be subserved by acting with the Whig party, it must continue to be, as it has been, Whig.

Though never acting with any Abolition or other one-idea party, it must continue to be, as it has been, Whig.

Though never acting with any Abolition or other one-idea party, it must continue to be, as it has been, Whig.

Though never acting with any Abolition or other one-idea party, it must continue to be, as it has been, Whig.

Though never acting with any Abolition or other one-idea party, THE TRIBUNE is and must be the releutless foe of Haman Slavery, as of whatever else tends to degrade Labor and obstruct the intellectual and social development of any portion of mankind. Were it able to perceive that a vote in New-York could abolish Slavery in Carolina, it might attach itself to some one of the expressly Anti-Slavery parties: lacking that light, it declines to abandon the substances for the shadow of political good. But while it does not see its way clear of any effective Political action against Slavery in the States which now clierish it, it regards the defeat of whatever effort to extend the giant wrong under the flag of our Usion, or to obstruct by its power-the-progress of Abolition in other lands, as among the most urgent an

respondence will, as heretofore, be both reliable and satisfactory.

The Markets for Grain, Cattle, Cotton and other

products of the country, will receive proper attenti and be reliably reported in THE TRIBUNE. On our correspondence with the most important points throughout the world we need not here dilate off the fact that our Associate, BAYARD TAY-LOR, is now on the other side of the globe, sending LOR, is now on the other side of the globe, sending as advices from the enst of war in China, and expecting seen to depict for our readers the physical, moral and social characteristics of jealousy-guarded Japan, the public is already aware the will probably return by way of Australia and California, in both of which, we have several correspondents. Briefly—we shall spare no expense to keep our readers well advised on every subject of interest, and doubt not that the same generous measure of natronage interest interto

advised on every subject of interest, and doubt not that the same generous measure of patronage hithertonecorded to as will continue to repay all our exertion.

Any friend who believes he will do good by increasing, the circulation of THE TRIBUNE is
authorised to solicit, and receive subscriptions; sud,
on due proof that money has been united and postpaid to our address, we take the responsibility of its
safe transmission. Specimen Copies will promptly be
cent without charge to those requiring them, and we
trust many friends will be moved to ask their neighboors and acquaintances to join in making up a Club
to commence with our Enlarged Sheet and New-Type

GLEASON'S PICTORIAL.

ON the first of January next, Gleason's Pictorial will commence its sixth voltane, and will appear vastly improved in all respects, with a superb new beading, now type and dress throughout, and will be printed upon the finest paper. As the proprieter of the Pictorial has purchased the entire good will of Baruam's New York Illustrated News, and has merged that journal in the Pictorial, the public will reap rhe advantage of this concentration of the strength of the two papers upon one, both in the artistic and the literary departments. The same brilliant heat of contributors and artists will be engaged on Gleason's Pictorial as heretofore, and a large addition is also made to the corps, both in taleat and number. The most liberal arrangements have been completed, and such as will enable the Pictorial will constantly be beautified by all that can please and instruct in art and nature, and it iterary department will fully easting the high proprietor to produce by far the finest illustrated jurranly et published, and much superior to the present issue of the paper. The Far-famed Medicine!

HOLLOWAY'S PILLS.

SURPRISING CURE OF A CONFIRMED ASTH-MA, AFTER FIVE YEARS' SUFFERING. The following testimonial has been sent to Professo Holloway, by a gentleman named Middleton, of Scotland Road, Liverpool.

Holloway, by a geatleman named Middleton, of Scotland Road, Licerpool.

Sir,—Your Pilla have been the means, under Providence, of restoring me to sound health, after five years of severe affiction. During the whole of that period, I have suffered the most dreadful attacks of Asthma, frequently of several weeks' duration, attended with a violent cough, and continual spitting of phlegm intermixed with blood. This so shook my constitution that I was untited for any of the active duties of life. I was attended by some of the most eminent medical men of this town, but they failed to give me the slightest relief. As a last remedy, I tried your Pills, and in about three months they effected a perfect cure of the disease, totally eradicated the cough, and restored tone and vigor to the chest and digestive organs.

(Signed) H. MIDDLETON.

Dated Jan. 1st, 1953.

PERMANENT CURE OF A DISEASED LAVER, OF MANY YEARS' DURATION. of a Letter from Mr. Gamis, Chemist, Yeo-vil, to Professor Holloway.

Dear Sir,—In this district your Pills command a more extensive sale than any other proprietary medicine before the public. As a proof of their effeace in Liver and Bilious complaints, I may mention the following case: A lady of this town, with whom I am personally acquainted for years, was a severe sufferer from disease of the Liver and digestive organs; her medical attendant assured her that he could do nothing to relieve her sufferings, and it was not likely she could survive many months. This amount country maturally caused great alarm among her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health that she was induced to continue them until she received a perfect cure. This is twelve months ago, and she has not experienced any symptoms of relapse, and often declares that your Pills have been the means of saving her life.

I remain, Dear Sir, yours truly,

AN ASTONISHING CURE OF CHRONIC RHEU-MATISM, AFTER BEING DISCHARGED FROM THE HOSPITAL INCURABLE.

Copy of a Letter from Mr. W. Moon, of the Square, Winchester.

Nov. 23, 1852.

Square, Winchester.

To Professer Holloway,
Sir,—I beg to inform you that for years I was a sufferer from Chronic Rheumatism, and was often laid up for weeks together by its severe and painful attacks. I tried everything that was recommended, and was attended by one of the most eminent surgeons in this town, but obtained no relief whatever; and fearing that my health would be entirely broken up. I was induced to go into our Coanty Hospital, where I had the best medical treatment the Institution afforded, all of which proved of no avail, and I came out no better than I went in. I was then advised to try your Pills, and by persovering with them was perfectly cured, and enabled to resume my occupation, and although a considerable period has chapsed, I have felt no return whatever of the complaint, I am, Sir, your obliged Servant,

AN EXTRAORDINARY CURE OF DROPSY, AFTER SUFFERING FOR EIGHTEEN MONTHS.

Copy of a Letter from Mr. G. Briggs, Chemist, Goole, dated February 15th, 1858.

Goole, dated February 10th, 1858.

To Professor Hollowar,
Sir,—I have much pleasure in informing you of a most surprising cure of Dropsy, recently effected by your valuable medicines. Captain Jackson, of this place, was afflicted with Dropsy for upwards of eighteen months, to such an extent that it caused his body and limbs to be much swellen, and water could as it were from his skin, so that a daily change of apparel became eccessary; notwithstanding the various remedies tried, and the different medical men consulted, all was of no avail, until he commenced using your Pills, by which, and a strict attention to the printed directions, he was effectually cared, and he insult perfectly re-established. If you doen this worthy of publicity, you are at liberty to use it.

FAMILY PHYSIC.

Titute has long existed a public demand for an effective purgative pill which could be relied on as our and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not casy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is carimonious and irritating to the bowels. This is not. Many of them produce so much princip and net revelation in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing, obstruction of derangement in the howels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should orders it arise from a previously existing obstruction or decangement in the bowels. Being purely
