FIVE CHILDREN LEFT.

A short time ago a woman in the advanced stages of tuberculosis died in her own home. By her death five little ones were left without the care of their mother. There was money enough in the family to make some provision for the care of the children, but it was almost impossible to secure any one who would render this service, so afraid are many people of this dread disease. A visitor to the home says that time and time again she had found the baby sleeping in her sick mother's bed, and near by food was stored from which the children partook. A sequel is revealed in the fact that to-day one of these five children is a patient in Gravenhurst, and the baby is in the children's ward at the Toronto Free Hospital for Consumptives.

It is for the care of such sufferers as these that the Muskoka Free Hospital for Consumptives has been built. The tax on the accommodation is heavy, and the Trustees have only been able to make the large extensions of the present year by borrowing heavily from the bank. An appeal is now made for funds to help on this work and provide a place where children, such as are referred to here, may find a home with good possibilities of cure. Contributions may be sent to W. J. Gage, Esq., Chairman Executive Committee, 84 Spadina avenue, or Sec.-Treas. National Sanitarium Association, 347 King St. W., Toronto.

The Muskoka Free Hospital accepts patients from any part of the Dominion, and not a single patient has ever been refused because of poverty.

DIES SUDDENLY

Many friends throughout the Bay Chaleur country will regret to learn of the sudden death of Wm. Jamieson Municipal Secretary, of the "Glen" Escuminac, which occurred Friday morning. Mr. Jamieson was enjoying good health up to the time of his death and all were shocked to learn of his sudden demise. He was a bachelor.

VICTIMS OF CONSUMPTION.

MOTHER AND TWO CHILDREN AT MUSKOKA FREE HOSPITAL. Are Now Under Treatment—Husband, Too, Had Been a Patient—A Tragedy in Real Life—Heavy Debt on Institution.

A story from the Muskoka Free Hospital for Consumptives tells of a mother who, with her two children, is now under treatment in that institution. The husband had been a patient, but the case was an advanced one when the patient entered, and he has since passed away. There is little doubt but that the wife was infected as a result of caring for her husband, and now she is in the Muskoka Hospital. Her little girl, about five years of age, and a boy of ten are with her, both being afflicted with this dread disease. The words of the mother are pathetic. She writes: "I went to a doctor and got him to examine my lungs to see whether there was anything wrong with them, and he said that the right lung was affected. A little rest, he hoped, would build me up. I have a little girl, about five years old, and the doctor says that if I could take her up with me it would do her over so much good, as she is not very strong. I have three more children, and one of these, a boy of ten, seems also to be afflicted, and it is advisable that he should enter the hospital."

These three are of the 104 patients who are residents in this deserving institution, and being cured, but without money and without price. The sorry part of it is that the trustees are carrying a debt of \$100,000, and the Muskoka Free Hospital is a charity.
