Political Notes

Hon. L. J. Tweedie, of Northumberland,

The many friends of the Hon. James Mitchell, who, by the way, is a York county boy, will be pleased to hear of his promotion to the important position of Provincial Secretary in the government of which he has been a conspicuous member Solomon Russel and Stephen Wilson were for the past seven years. The marked sucexamined. They both stated that defendant | cess of Mr. Mitchell since entering public had refused to give them liquor, but that life, is a worthy tribute to his honorable they had procured some from a lad named and conscientious discharge of public and private duties.

> The wail of the weakly daily, that some one couldn't find out when the return of the election of York's representatives was filed in the Provincial Secretary's office, would indicate that the protest brigade are preparing for a backdown.

transgressing the law. Mr. Vanwart stated to caucus at the Royal Hotel in St. John, the court and witnesses that he intended to a few days ago. The gathering did not proceed against those who had bought liquor take place a moment too soon. In the under such circumstances as particips brief space following the election, the criminis. The case was then adjourned opposition had shrunk from 21 to 11. If a few more days delay had occurred, Mr. case finished. The police magistrate reserved | being elected leader,—without opposition. present were elected to oppose the government, a committee was appointed to consider, and report at some future period, whether it would be less difficult to first elect a leader, or to formulate a platform out of the various issues involved.

It has been almost an average lifetime since St. John was without, at least, one representative in the government of the provnce. Now the metropolitan city, which for many years has claimed and been allowed two portfolios, is without a single representative in the government, or in the ranks of the government supporters. The city, which of late years has been wont to assume a dictatorial tone, and which claimed that the affairs of the province could not be successfully run without its advice and assistance, will be compelled to sit in the cool shadow of the that the affairs of the Province can satisfactorily go on without its interference. It will be a hard pill to swallow, but it must be very disastrous. The men, exposing thema man gain by cutting off his nose to spite

The readers and disciples of the St. John Sun must have a lively time following that and turnings. It must have been an inspiring sight to see the faithful exchange the shows that the trouble is not confined to our hatchet for Stockton's little can, and pour the oil of peace upon the troubled waters. They echoed their oracle's sentiment when and every mail brings news of the trouble in it laid down the sweeping proposition that the camps from that cause. In some quarters the lumbermen of the North Shore had been so many have left their work on account of badly used, and were entitled to, and would the part of some of the men fright- because he had considered the matter of giving some relief to the North Shore industry.

troubled. The lumber cut on the Penobscot | had a serious "rise" taken out of it by someone for it said :-"Messrs. Blair and McLellan returned today from the North. They are not altogether satisfied with the result of their visit, but, it appears, they yet indulge the hope of making a break if Mr. Pugsley will not insist on

claiming the Secretaryship on Mr. McLellan going out." After the rebuke the constituency of York gave the Gleaner on the 20th inst., one would almost expect that paper to let Messrs. Blair and McLellan alone. The little daily is fast earning the reputation of having more zeal than discretion in the cause of its defeated friends.-Advance.

council held on Monday evening, Aldermen McCready, Esty, Moore, Vandine and City Clerk Beckwith were appointed a committee to prepare a memorial to be presented to the Dominion government embodying Fredericton's claims for the construction of

the Harvey-Salisbury link of the Short Line, and on Tuesday evening the question of the Harvey-Salisbury link of the Short Line was brought up for discussion by way of resolution, moved by Ald. McCready as follows: Whereas, at the session of the Dominion Parliament held in the year 1889, a subsidy passed the House of Commons for the erection and completion of a line of railway from Harvey, via Fredericton, to Moncton in the County of Westmorland, but by the action of the Senate such subsidy was withheld until complete su rveys be made showing the

practicability of the route; And Whereas, such surveys have been made during the past summer, under the late Vernon Smith, and we are informed have demonstrated that such route from Harvey to Moncton, via Fredericton, is the shortest railway line from Montreal to Halifax, and is easy of construction, presenting no engineering difficulties;

And Whereas, some parties interested privately in other lines of railway have advocated, and are advocating at Ottawa, a On Friday the defence was put in and the Stockton would have stood a fair chance of the construction of a road from Edmundston, in the County of Madawaska, to Monc It is said that, after hearing the different is- ton aforesaid, in lieu of the proposed Short sues, upon which the several candidates Line railway from Harvey via. Fredericton to Moncton, and are representing that the substitution of the Edmundston-Moncton route for the Harvey-Salisbury route is satisfactory to the people of this county and

province generally; And Whereas, in the opinion of the people of this community, the construction of a railway from Edmundston to Moncton could be of no material advantage to the Dominion, or this province, passing, as it does, throughout almost every mile of the route, through a wilderness and a country which from its natural formation must always remain a wilderness, and at a distance of at least thirty miles from any of the centres of population

And Whereas, the Harvey, Fredericton, Salisbury route passes almost throughout through a fertile settled country, through Fredericton and other centres, and opens up to commerce the coal fields of the Newcastle region and is preferable in every way to the proposed Moncton-Edmundston route; Therefore Resolved, that in the opinion of this community, as expressed by this Board, that the subsidy for the completion of the Harvey, Fredericton, Salisbury route, as already passed by the House of Commons be insisted upon by our representatives, and erratic paper through its political twistings | that no compromise or change of route, by a subsidy to the so-called Edmundston-Monc-

> And Further Resolved, that a copy of this esolution, duly authenticated, be forwarded to our representative, Thomas Temple.

consequence on this section, but the main summit between the St. John and the Miramichi has to be crossed at an elevation of 1.100 feet above the Tobique, but my assistants report that they are satisfied that on a

careful location the grades can be greatly be so heavy as on the first section, and the only structure of importance will be that crossing the Tobique river requiring three spans of 150 feet each, and 600 feet of trestle

The third action of the summit down to the Miramich near Doaktown, a distance of 46 miles. The line follows and crosses the following streams, the Clearwater, Rocky Brook, Dungarvan, and Big Hole Brook, which latter is followed to the Miramichi river. The grades are all descending practically in the one direction, and, with the exception of one of 66 feet, are all under 53

feet to the mile. The curvature on this section will not exeed five per cent., or 1,146 feet radius. The work here will be moderately heavy, and the only structure of importance will be two steel viaducts of 250 feet each, 40 feet high, two steel spans of 100 feet each and one of 75 feet.

The Miramichi will require three steel spans 160 feet each, with some trestle ap. proach. The land on this section is abundantly timbered and of good quality. On the fourth section, from the Miramichi to Berry's mills, a distance of 691 miles, the country is level or slightly undulating, ex-

cept where streams are met with which usually run through deep ravines. There are no grades on this section exceeding 53 feet to the mile, and the line is unusually direct, and the percentage of curvature which nowhere exceeds five per cent., will are those crossing Cain's river and Mazroll ton route or other route be accepted in lieu brook, the former requiring 1,500 feet of 75 feet high. There are also several smaller stream's to be crossed, which will require

46 feet high. The rest of the work is not so

If, however, the line from the Grand river to increase the amount to at least \$400 per north of the Sisson Range, which, I exyear. The council however did not feel like plored myself and with an assistant enshowing the actual amounts each parish has at least ten miles would be obtained, and the improvement of the line at the de Chute river recommended by Mr. Cranston would also effect a saving of distance, so that in my opinion the total length from Edmundston to Moncton may be reduced to 199 miles, or 749 miles from Montreal to Halifax.

Literary Notes. MASHED OATS, BARLEY, &c.

"Drawing-Room Ethics" is the suggestive title of a paper which Christine Terhune Herrick will contribute to the number of Harper's Bazar to be published February 7th. The same number will contain a short story entitled "As Fair in Love as in War,"

"The Calico Pony," a story of semi-civilized Indian life, will be contributed by Elaine 310 QUEEN ST.
