The positive evil which it inflicts on the community arises from the preposterous notions which the little party entertain the nature of opposition. We can safely aver that during the two - brief periods which a Conservative paper has struggled for existence in Goderich, not one of the writers or editors, (il they please) has ever attempted to take hold of a single principle advocated by the Huron Signal. either in politics or philosophy, and tried to shew that it was either false or impracticable. The Huron Signal has been characterized by as many original articles on various subjects, as per-haps any other local Journal in Upper Canada, during the period of its existence. Many of these articles have propounded opinions altogether i opposition to the popular notions, and the fac that many of them have obtained a far more ex-
