The Eyeglass Beautiful—Our New Eyeglass Mountings possess the qualities of dignity, grace and beauty, combined with firmness and comfort. R. H. TRAPNELL, Eyeglass Specialist.—Jan 20, 14

H. N. Society.

The Cathedral Branch of the Holy Name Society attended 8 o'clock mass yesterday morning and approached Holy Communion in their usual large numbers. Rev. H. T. Renouf, officiated. At 3 p.m. the usual monthly meeting was held, seven new members were enrolled. The Spiritual Director occupied the pulpit and made a few announcements. In future business meetings will be held quarterly, beginning in March, in the Aula Maxima of St. Bon's College. He asked the co-operation of members in performing the different duties required of them at the Church, and pointed out that a method had been adopted

so as to give all an opportunity of assisting at the required times. The usual monthly meeting for the performance of the spiritual obligations will be as heretofore. He also intimated that instead of a sermon on the third Sunday of the month a series of instruction will be given concerning the festivals and liturgy of the church. A brief discourse on the Gospel of the day—Luke VIII. 4-15—was given, in which reference was made to the respect and reverence due to the Word of God, and that with proper disposition in hearing, His Word would not be swayed by the riches and pleasures of this life, but rather, "in a good and perfect heart, hearing the word, keep it, and bring forth fruit in patience." In conclusion the Director complimented the society on the large attendance each month and said it was most gratifying to His Grace and the clergy to see such a good showing. Benediction was then imparted by Rev. Father Sheehan. Sister Joseph, of the Presentation Convent, presided at the organ in the absence of Mr. Hutton, and the O' Salutaris was rendered by Mr. J. Hanlon.

J. G. CHAFE, Secretary.

NOTICE.—The C. E. T. S. will hold a Public Meeting to-night (Monday), at 8 o'clock. Mr. R. G. MacDonald will lecture on "Robert and Elizabeth Barrett Browning." 10 cent Teas will be served at the close.—Feb 16, 11

MONDAY, Feb. 16, 1914.
In cold weather like this there is nothing more stimulating and appetizing than a glass of Hot Malted Milk, or a cup of Hot Bovril or Oxo. It will supply just what is needed to keep out the cold without overloading the stomach between meals, or having the inconvenient effects of alcohol. During this week while the glass has kept in the neighborhood of zero, many have availed themselves of this same method of keeping the body warm up to normal. If you feel chilly just step in and order a hot drink, tasting the believing. Price 10 and 15 cents each.
Dry harsh winds play havoc with the complexion and make sore the hands and wrists. Use Cream of Lilies to keep them soft and smooth. It is quite the best thing of the kind. Price 25 cents a crock.

CHILDREN'S CARNIVAL.—A Carnival for Children under 15 years of age will be held in the Prince's Rink on Saturday, Feb. 21st, at 3 p.m. Admission—Adults, 20c.; Children, 10c. Season tickets will admit. Feb 12, 11

Special to Evening Telegram.
LONDON, To-day.
The appointment of Henry Thornton, General Superintendent of Long Island Railway, as General Manager of the Great Eastern Railway Co., continues to be the subject of comment in the newspapers. Those interested in railway affairs in Great Britain, have not in many years had such a shock to her pride as that experienced by the announcement of the appointment of Thornton, said Sunday Observer, prefacing a couple of columns of opinions which are to the effect that something must be wrong with the system of promotion in British Railways. The Westminster Gazette concludes a severe criticism of Lord Claud Hamilton by refusing to believe that English men who are pioneers in railway construction in the world are incapable of managing the Great Eastern.

Attempted to Kill His Mother

ASSAULTED THE POLICE WITH A KNIFE—PRISONER GETS SIX MONTHS.

A report was received by the police at midnight, Saturday, that a West End laborer, named Shortall, who was half crazed from liquor, was creating a sensation and had threatened to kill his aged mother, who was in bed very ill. Constables Hickey and Smith were sent to the home where they found the disturber, who remonstrated with the officers. He flourished in his right hand a knife which he plunged into Constable Hickey's left leg near the thigh. Both officers then wrestled with their man and took the knife from him and handcuffed him. While being brought along the prisoner became obstreperous and he had to be put into a sleigh and conveyed to the police station. Accused appeared before court to-day. L. G. Sullivan produced evidence of rash acts that Shortall had committed in recent years, and that he was a maniac when in liquor. After summing up, Judge Knight sentenced the prisoner to six months imprisonment.

Horse Stolen.

While Mr. Patrick Coughlan, of Killybeg, was shopping in the West End, Saturday evening, his horse was taken from opposite McCarthy's Grocery Store by some unknown persons, with the result that Mr. Coughlan had to walk home, a distance of three miles. Mr. Coughlan had been down town, and at 8 p.m. went into McCarthy's to purchase some groceries before proceeding to his home. This animal was quite accustomed to stand while he was shopping, but when he came out of the store his horse disappeared. Thinking the animal had gone home he trudged along with his parcels, only to be questioned upon his arrival, as to the whereabouts of the horse.

A man named Mason, residing on the Black Marsh Road found the horse at 10 p.m. Saturday. Both saddle and sleigh were broken and the horse was badly cut about the legs. The police are now at work upon the case, and an arrest will likely be made as the horse was met on the road with three men in the sleigh, of whom the authorities have a description.

Smoker

The St. Andrew's Society held a very successful Smoking Concert in their rooms on Saturday night last, a large number of members being present. Mr. A. Gibb was Chairman, and the programme consisted of a piano solo by Mr. Nicol; vocal numbers by Messrs. Young, Grant, Melville, Hershchell, J. Strang, Ellis, R. H. Anderson, J. McKinlay, and a recitation by Mr. S. Harvey; all of which were enthusiastically received and thoroughly enjoyed. The affair was the first of a series of smokers to be held during the season. Several applicants for membership were admitted before the close of the meeting.

Hockey Notes.

Owing to the visit of the Halifax Progressives, who are expected to arrive here this day week, the remaining three games in the local League fixtures will be run off on Monday, Tuesday and Wednesday nights. This arrangement will give the city team three nights of practice before meeting the Progressives. The St. Bon's and Victorias will play to-night; the players being: St. Bon's—Walsh, goal; Power, point; Higgins, cover; Callahan, rover; S. Shortall, left; Edens, centre; Grant, right.

American Tug Sunk.

CREW LOST.
The United States Tug Potomac is now a total loss and is supposed to have gone down to the bottom of the sea, received by the Customs Department, the officers and crew of the tug boat abandoned her on Saturday night, landing safely at Rocky Harbour Bay, without mishap. When the tug moved off yesterday there was nothing to be seen of the tug. The Potomac was sent to the West Coast to cut out some vessels that got jammed in the ice, and while engaged in this mission she became icebound herself.

PROSPERO SAILS.—The s.s. Prospero sails to-morrow morning for Western ports.

EXPRESS ARRIVES.—A local express from Port aux Basques arrived in the city at 11.30 a.m. to-day.

NELLIE M. REACHES PERNAM.—The Nellie M., Capt. Taylor, reached Pernambuco on Saturday last, after a run of 32 days from this port.

NASCOPIE REPORTED.—Messrs. Job Bros. had a marconigram from the s.s. Nascope to-day, as follows: "At 8 a.m. ship 130 miles S.E. of Halifax; hard weather all the way across; all well." The Nascope is on her way to Halifax, salt laden. After discharging she will proceed to Sydney and get a supply of coal which she will use at the seal fishery.

TO CONSULT DOCTOR.—Mr. W. G. Dalton, conductor with the Reid Nfld. Co. who has been suffering for some months past from injuries to his foot, received in a railway accident, arrived from his home at Lewiston by the express to-day. Mr. Dalton's foot does not seem to improve and he came to consult a doctor.

Citizens who subscribe to the funds of the St. Vincent de Paul Society cannot understand why the men interested, are not appearing to the day making collections, as the opinion is expressed that if there is any season of the year that the funds of the institution should be brought into requisition to aid the deserving poor, it is during the months of February and March.

Healthy and Un-healthy Lighting.

Gas, it may be said, vitiates the atmosphere. True. But it also helps to purify it. Its purifying power is greater than its vitiating power. Electricity does not vitiate, nor does it purify. Hear what three eminent men have said:—
Much evidence has lately been adduced to show that gas is more useful than the electric light in promoting efficient ventilation of air. It is for this, amongst other reasons, that gas is being frequently substituted for the electric light. The latest example is, perhaps, the Society of Medical Officers of Health, which has recently installed gas on its premises, after experience with the electric light.—Dr. Jamieson B. Hurry.

He would merely add that no member who had experience of their meeting room under the old conditions could deny the improvement that had taken place since gas had been substituted for the electric light and the new system of heating and ventilation had been installed.—Dr. Reginald Duffield, before the Society of Medical Officers of Health.
I have in my mind's eye, at the moment, a hall which, in the old days, was lighted by gas, and in which a large audience could, with comfort, sit through an hour's lecture, or with pleasure through a three hours' dinner, but which, with the march of civilization, had its illumination changed from gas to electricity, the latter being employed with all the latest refinements to effect the lighting under the best conditions, with the result that any large gathering within its walls leads to a state little short of asphyxiation.—Vivian B. Lewis, Professor of Chemistry at the Royal Naval College, Greenwich.—nov 8, 11

At Home.

As the Danco Programme prepared by the C.C.C. Band for the "At Home" is quite lengthy, it has been decided to begin the Concert at 8 o'clock sharp. It has been rumored that the price of admission was to be increased, but such is not the case, the price of tickets being the same as in former years. The Ladies' Committee take this opportunity of asking those who so kindly promised donations of cake, etc., to please send them to the British Hall at any hour on Wednesday next.
