AGITATORS MAKING TROUBLE.

BOMBAY, INDIA. Aug. 24. A grave situation has arisen in Malabar district, on the west coast of British India, where seditious agitators have been working on the religious fanaticism of ignorant natives. Their activities have resulted in serious mass rioting, bloodshed and destruction of property: Military forces have fired upon the rioters, causing many casutities. Railway lines have been cut, postoffices have been robbed, and mob law is almost supreme in several small towns. A proclamation has been issued by the British officer commanding troops in the Malabar area. It refers to "open rebellion prevailing in the district of North Penani," thirty eight miles south east of Calicut.
