turning Officer for interrupting and the ballots.

Now, Sir, what happened is this. The Returning Officer calling the names of the various candidates as the X appeared to their names, I noticed one of the official checkers was not keeping a correct tally as the Extensive Work of names were called, or, in other words,

I noticed Murphy, Outerbridge and McNeil were missed. I then drew the attention of the Returning Officer stating what had happened. To this the Returning Officer told me to keep again insisted that a correct court should be kept. At this point the Revote, could not spare the turning Officer called the police officer to remove me from where I sar. I then appealed to the lady and gentlemen candidates who were present removed, one who was looking after the interest of every candidate pres- peoples of alien speech. in such a manner. I would like to draw your attention to Section 9 of the Election Act, which

reads as follows:-"The Returning Officer shall make arrangements for counting of votes in the presence of candidates or their agents of the candidates as soon as practicable after the close of the poll, and shall give to the candidates or their agents notice in writing of the time and place at which he

will begin to count the same." In reading the account in the daily papers on Saturday morning, they stated that on the box of ballots being found the candidates were summoned. This is absolutely untrue, as I enquired from several of the candidates, and they, including myself, knew nothing officially or heard of it

I hope this letter will place me right in the minds of the public.

Yours truly. KENNETH RUBY.
