"The Coming School of Medicine "-The Histogenetic System.

Chicage, Jan. 1. 1888.

This is to certify that I have made a thorough investigation of the Histogenetic Medicines, prepared by Dr. J. Eugene Jordan, and of his unique methods of research, and am therefore competent to form a correct judgment. I pronounce them marvelous products of the highest skill, showing an acquaintance with the natural sciences far in advance of any savant with whose works the world is acquainted. The amount of time and painstaking which the doctor has expended upon the single branch of spectroscopy is enormous, and his discoveries startling. Also having used these medicines in my own practice, I can say that their actual success in curing disease is as great as is their discovery. The revolution of the Medical science of to-day is no dream—It is at hand.

Prof. Chem. and Toxicology, Hahneman Medical College of Chicago.

The Histogenetic theory of reaching disease is Rebuilding the diseased cells and tissues of the body, with the same proximate principals and ferments, organic bodies, and so on, which are normally prepared in the body by themical processes, in a perfectly pure condition, and are quite tasteless. Diseases heretofore considered incurable are cured by these medicines. In acute diseases such as La Grippe, Pneumonia, Typhoid, Diphtheria, etc., the patient improves at once.

THE BUSINESS OUTLOOK,

New York, April 18.—Telegrams to Bradatreet's indicate that more seasonable weather and improving country roadways have had a favorable effect on general trade

weather and improving country roadways have had a favorable effect on general trade at some points, but the gains are conspicuous rather by contrast with relative duliness in preceeding weeks than otherwise. Drygoods, hardware and spring clothing have felt the stimulating influences most, and in some instances drugs hats and caps. Boots and shoes have remained slow of sale.

Cattle at western markets higher. Hogs 10 cents lower. Hog products and other meats remain firm and in active request. Crop reports from the Northwest are very favorable, as are those affecting winter wheat, and merchants in the spring wheat region are discounting their bills, to a noticeable extent. Exports of wheat from San Francisco have been very heavy this week at high prices, spot commanding 90 cents per bushel, with Europe a ready taker. Wool sales have been slow, with prices tending downward.

No improvement in the general business situation is reported from Cleveland, Pittsburg, Cincinnati, Memphis, New Orleans, Chicago, Philadelphia, New York or Boston. The situation among manufacturers of cotton and of woolen goods is unsatisfactory. There is little actual improvement in the general industrial situation.

Leading money markets report a rather better request for funds during the week.

Stocks of wheat in and out of farmers' hands in the United States and Canada (excluding "in farmers' hands" in Canada) are placed at 110,000,000 bushels (with spring wheat planted) food and (present) exported memans are about 32,000,000 bushels per

placed at 110,000,000 bushels (with spring wheat planted) tood and (present) export demands are about 32,000,000 bushels per month. Wheat prices for cash are strong and nominally 6 cents up on increasing exports and heavier decreases of the available supply, backed by a belief in small reserves. Indian corn is 55 cents higher and exports smaller.

serves. Indian corn is 5½ cents higher and exports smaller.

Telegrams from the Canadian Dominion report the Ontario wheat crop doing well with an encouraging influence on general trade. In Quebec the outlook for spring trade is fairly good. The Dominion reports 39 business failures this week, against 37-last week and 29 this week last year. The total number Jan. 1 to date is 672, against 637 last year.

Bullets for Breakfast.

Davenport, Ia., April 18.—At Leclaire yesterday Newton Nesbit and wife were eating breakfast when the husband made a remark reflecting on his wife. Mrs. Nesbit drew a revolver and sent a ball into the back of her husband's head. She then shot herself twice. Both will probably die.

Brant's New Sheriff.

Brantpord, April 18.—Mr. William Watt, jun, B.A., has been appointed sheriff of Brant county in succession to the late Wm. J. Scarfe. Mr. Watt was born at Brantford in September, 1845, and is the son of Mr. William Watt, merchant, one of the cides and most respected residents of the city. He is known and respected by all classes alike for his genial temperament and kindly and obliging disposition. This appointment will render vacant a seat at the council as representative of the North ward, and will also deprive the Reform Association of the valuable services of its secretary. Mr. Watt matriculated at Toronto University in 1862, and after a course of successful study graduated in 1866 with the degree of B.A. and after a course of successful study graduated in 1866 with the degree of B. A. and as silver medalist in modern languages. During his curriculum the Fenjan troubles began, and in 1866 Mr. Watt was at Ridgebegan, and in 1866 Mr. Watt was at Ridge-way in the ranks of the University com-pany, which hurried there at the call of duty. In 1873 Mr. Watt received the de-gree of LL.B. from his alma mater. He entered the law office of Mr. Hugh Mc-Mahon in 1867, and practiced law in Brant-ford for a few years. Mr. Watt subse-quently bought an interest in the Brant-ford Expositor, afterward resuming his law practices.
