Women Who Work

and women who are entirely unfit for the daily round of toil. They are compelled to be on their feet until every nerve and muscle is tired and aching, and when night comes are so thoroughly worn out and nervous as to be unable to rest or sleep. The strain, the monotonous hum of machinery and the tremendous expenditure of nerve force is more than their systems can stand, and sooner or later they are obliged to give up the battle-worn out, nervous, irritable and despondent.

But it isn't necessary for women who work either in factory or home to be overcome by nerve exhaustion. There is a preparation, known as Dr. Chase's Nerve Food, which replenishes the wasted nerve force and increases the vigor and vitality of the body. If taken regularly and persistently Dr. Chase's Nerve Food will restore and revitalize the most exhausted and debilitated nervous system. It simply cannot fail, because it contains all the elements of nature which go to create new nerve force and vital energy,

Nervous Prostration

Mrs. D. W. Cronsberry, 168 Richmond street west, Toronto,

Ont., states:-My daughter, who sews in a white goods manufactory, got completely run down by the completely run down by the steady confinement and close attention required at her work. Her nerves were so exhausted, and she was so weak and debilstated that she had to give up work entirely, and was al-most a victim of nervous pros-

"Hearing of Dr. Chase's Nerve Food she began to use it and was benefited from the very first. It proved an excellent remedy in restoring her to health and strength. After having used four boxes, she is now at work again, healthy and happy, and attrib-utes her recovery to the use of Dr. Chase's Nerve Food."

Dr. Chase's Nerve Food

Is prepared in condensed pill form, from the favorite prescription of Dr. A. W. Chase, the famous recipe book author. The above cut of box is shown in order that you may not be deceived by imitations. Imitators do not dare to reproduce the doctor's portrait and signature, which appear on every box of the genuine. Dr. Chase's Nerve Food is different from any medicine you ever used. Instead of tearing down the tissues and deadening the nerves, this great restorative cures by building up the system and reconstructing the feeble, asted nerve cells. 50 cents a box, at all dealers, or Edmanson, __tes & Co., Toronto.

ACTIVITY

of Unseasonable Weather.

Toronto, Dec. 7.-Bradstreet's trade

review says: There is considerable activity in wholesale trade circles at Montreal. Large sales of holiday goods have been made this week. The general outlook for that branch of business is very promising, as in good times the masses are liberal purchasers in the holiday season. Sales of such goods promise to make up to some extent for the dullness of business in heavy winter goods at retail centers of trade; but as jobbers and retailers had prepared for the winter trade, they are anxiously looking forward to colder weather in the west to stimulate sales of seasonable lines. Values are generally firm for staple goods. Payments have been fair this week, and obligations have been met probably as well as expected. The demand for money is active, and rates are steady. Toronto-Business at Toronto this week has been fair, considering the adverse conditions. The wholesale adverse conditions. trade still hope that a smart drop in the temperature, when it comes, will result in largely increased sales of heavy winter stuff that will to some extent make up for earlier deficiencies in that respect. The trade in various holiday lines is quite active. Payments this week have been fair, and on the whole renewals have probably not been as large as expected. There is a good deman! for money, and rates

are steady.
Ottawa-Wholesale trade at Ottawa has been fairly active this week. The sales of heavy goods for immediate use are a little larger, and the outlook for that department of business is more promising. Payments on paper maturing this week were fairly well met. There is an active movement in holiday goods.

London-Colder weather has had an appreciable effect in moving seasonable goods at London the present week. Reports from country more cheerful. A big business in holiday goods is looked for. Grain delivcrie are expected to increase with the a vent of good snow roads in the

country. Hamilton-Jobbers at Hamilton have made considerable shipments this week, and they report the condition of trade very good, except in heavy win-

The holiday trade is good. Quebec—At Quebec navigation is closed somewhat later than usual, the last steamer leaving for sea a few days ago. The mild weather of the past week has had a depressing effect on the retail trade in the city. In wholesale circles the demand for holiday goods is about the average. In shoe manufacturing circles quietness The Outlook Is Very Promising in Spite still prevails, but it is probable that a settlement between the employers and employed will be arrived at in the course of the next week. Work in the woods is somewhat backward, owing to the scarcity of snow. Collections.

on the whole, are fair.

West-Business in Manitoba and the Northwest has been picking up somewhat the past week, with good, sharp winter weather. Stocks of heavy goods are getting more broken into, and retailers in many instances report daily sales much larger than a year ago, thus showing that expectations as to more business than usual being crowded into the close of the season, owing to mild weather and the poor crop outlook at the opening are being fulfilled. The grain movement is rather lighter, but the farmers have considerable other produce, which has been coming forward pretty freely. Collections are fair, but jobbers realize that they will have to exercise patience

in the matter of collections. Reports of business at Pacific coast towns do not disclose a great deal of activity. The demand for novelties and general holiday lines is picking up, and such business is expected to very active. Prices of various lines of produce have stiffened, fresh eggs having advanced recently to 60 cents. There is a scarcity of hard coal in the

province. IN THE UNITED STATES. New York, Dec. 7. — Bradstreet's says: There is a quieter tone and reduced volume of business doing at wholesale in many lines, but this not unusual at this season, and partly balanced by a larger interest in retail and holiday distribution. In the larger lines of trade new features are not numerous. Textiles are quiet and rather dull, with agents pending the opening of the spring season. Wood and woolens are still quiet. Cotton is irregular. Failures for the past week number 224, as against 184 wast week, 220 in this week a year ago and 237 in 1898. Wheat, including flour, shipments for the week aggregate 3,432,159 bushels, against 2,497,880 last week, and 5,-133,331 in the corresponding week of Corn exports for the week aggre-1899

last week and 3,815,699 in this week a year ago. Dun's review says: Business is progressing along conservative lines. Prices of commodities are generally steady, and holiday trade is brisk at all points. Railroad earnings in November increased 1.3 per cent over last year and 13 per cent over 1898. There is no cause for alarm in the small volume of new business at iron and steel With the first sign of higher prices there came forward such a flood of contracts that mills and furnaces booked orders sufficient to keep their full force employed for months.

The blue book just issued with respect to the state of affairs in South Africa, contains an interesting dispatch from Mr. Chamberlain on the question of the treatment of the Cape Colony rebels as compared with the treatment of those who revolted in Canada in 1837-8. The conditions which accompanied the Canadian rebellion were totally different from the condipopulation in parts of Cape Colony. tions attending the revolt of the Dutch insurrection in Canada was founded on grievances which were afterwards recognized as legitimate, and removed by subsequent legisla-tion, and the grievances were in fact due to the absence of the very constitutional privileges which the in-inhabitants of Cape Colony had enjoyed for a generation.

SLAVERY IN FRENCH COLONIES. Paris, Dec. 8.-The chamber of deputies rejected a motion, providing for a parliamentary inquiry into slavery and cruelty in the French colonies. The premier, Waldeck-Rousseau, said a commission of inquiry would be tantamount to putting the entire colonial administration on the stand, and, he added, the government would not retain power for a moment at such a price. He regarded the matter as one of confidence. The motion was then defeated by a vote of 409 to 116.

A fire at the Cherbourg arsenal has destroyed several workshops and a number of historical relics, including Napoleon's launch. The damage done is estimated at two million francs. MORE FRENCH CRUISERS.

The French Senate adopted the naval bill after a short discussion. Senator Compos, Progressive Republican, urged the building of 20 additional cruisers to prey upon Great Britain's commerce in case of war.

The minister of marine replied that the number of cruisers projected in the present bill would suffice for France's
