## SCHOOL CONDITIONS TO BE IMPROVED

Changes Recommended by Dr. Downham Favored by Board of Education.

There were but two matters of importance taken up by No. 2 committee of the board of education at its regular meeting yesterday afternoon. The first was the report of Dr. W. S. Downham, medical health officer, as to the sanitary conditions of the public schools, and the second was a letter from Robert Aitken, caretaker of St. George's public school, asking for assistance in connection with his duties.

In the main the recommendations of the medical health officer were acquiesced in by the committee, and Superintendent of Works W. H. Robinson directed to carry out the improvements.

The committee, however, declined to sanction the expenditure of any money at the present time in connection with lavatory accommodation at Knollwood and Chelsea Green schools. The committee will investigate the condition of the blinds at Lorne avenue school.

After considerable discussion Caretaker Aitken's letter was ordered placed on file to be considered by next year's board, together with the suggestion that the various public schools of the city be classified into three classes as to age and care takers' salaries based thereon, as well as size, it being agreed that it was much more difficult to clean the old schools as compared with the newer ones.

The recommendations made to the board by Dr. Downham were as follows:

Eating school, greater water pressure in water; Chelsea Green, sanitary toilet and modern bubblers; Trafalgar, toilet for kindergarten; Pottersburg, new sanitary toilet; Lorne, new window blinds; Knollwood Park, kindergarten toilets and toilet for teachers; Simcoe, toilet improvements; Talbot, new drinking bubblers; Aberdeen, attention to the window blinds; St. George's, new bubblers; Alexandria, attention to window blinds.

## PRISONER IS RELEASED ON CASH BAIL OF \$500

John Boyd Will Fight Charge of Having Liquor in Illegal Place.

John Boyd was released on \$500 cash bail by Magistrate Graydon this morning when he appeared, charged with having liquor in other than a private dwelling. Boyd will appear at a later date to combat the charge.

Acting on information supplied them from persons living in the neighborhood of Queen's park, a detachment of the London police force, headed by Inspector Lucas, made a raid on the horse stables in Queen's park yesterday afternoon, and seized a large amount of liquid beverage, a number of counterfeit seals and numerous labels.

Boyd was arrested and brought to the police station. He has rented horse stalls at the fair grounds for fifteen years, and usually had two or three horses at the fair grounds. The stall where the wet goods were found was not used during fair week, and Western fair officials stated last night that they did not know whether the liquor was stored there during fair week or not.

They are of the opinion that Mr. Boyd is not involved in the handling of the liquor, and believe that he allowed someone to bring the goods there, and he was keeping watch.

He has never given the officials any trouble whatever, and it was a surprise to them when they learned of the man's arrest.

There were 250 bottles of the alcoholic spirits found, 33 gallon cans of alcohol and a number of bottles of oil of wintergreen for coloring purposes. The oil is usually used to make an imitation of gin, Inspector Lucas said.

The labels and seals found were for standard makes of whiskey, gin and other spirituous liquors. The finding of these is liable to lead to a place where the printing of the counterfeit labels is done.

This was the first raid conducted by the police department since the arrival of the "Department of Public Safety" patrol. It was given a good baptism, and the officials said it stood up well under the strain.

## DEAN SKELTON UNABLE TO RECEIVE HIS DEGREE

In its original plans for the conferring of honorary degrees at the special convocation in connection with the opening ceremonies of the new buildings, the senate of the University of Western Ontario included among the recipients of degrees Dean O. D. Skelton of Queen's University.

In accepting the proposed honor some months ago Dean Skelton did not count upon his appointment to the position of special adviser on foreign affairs to the department of state at Ottawa. At the present time the duties of that office are detaining him in Geneva and as a consequence he will be unable to be present on Thursday night to receive his degree. The senate has consented to a postponement in the conferring of the honor and at some later convocation when Dean Skelton can be present. It is to be regretted that Dean Skelton's absence from the country has prevented the senate from carrying out its original plan of honoring at the special convocation a prominent scholar and one of the four universities comprising the Ontario conference of universities.

**REMANDED FOR WEEK.** Albert Boyd, who is charged with an offense against a 12-year-old girl, was remanded another week in police court this morning. Goodhue has been in the local jail now for two weeks. He will probably be tried next Wednesday, when witnesses for the complainant will be available.

The fishing industry at Port Stanley is more extensive than in former years. This is evidenced in the fact that four new tugs have been built for Port Stanley fishing concerns this year. The latest addition to the large fleet of boats is the new tug, the "Erie," a steel boat, being constructed at Erie, Pa., for Morgan Brothers.

The builders of Erie, one of the largest concerns of ship contractors in America, have been working on the tug for nearly two months, and it is thought that she will be launched Thursday, and make Port Stanley by Friday night.

Miss Fairley, who took over her duties on Oct. 1 brought in her first monthly report to the trust, and the recommendation of the hospital trust was made in order that the night staff of the hospital might be better fitted to cope with emergencies than it is now.

The funds to take care of this increase are available in the estimates of Victoria, and the appointment received the unqualified sanction of the trust.

Dr. Watson was made a member of the attending staff of the hospital. He has been in charge of the department of clinical pathology for some time, and the new appointment is a technical one to facilitate his work.

### J. H. LACKOIX DIES

Special to The Advertiser.

Sarnia, Oct. 14.—The city council has decided to leave the matter of the erection of an isolation hospital in the hands of the ratepayers, who will be asked to vote on a bylaw for \$17,000 for the project at the December elections. The health board has urged the necessity of an isolation hospital in this city for some time, but the council has declined to act without an expression of opinion by the voters.

## DRUGS EXCITE THE KIDNEYS, DRINK WATER

Take Salts at First Sign of Bladder Irritation or Backache.

The Canadian men and women must guard constantly against kidney trouble, because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog, and the result is kidney trouble, bladder weakness, and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts, or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water, and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate the kidneys, to have good results in a glass of water before breakfast for a few days, and your kidneys may then act fine.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water drink, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means, have your physician examine your kidneys at least twice a year.
