# DROUGHT HURTS

Official Report of Board at Washington Shows that Condition Deteriorated Rapidly During Past Month

weather-drought has played something which we have sent away." akin to havoc with the crop conditions during last month," was the statement made today by Professor N. C. Murray, the diamonds would make it costly to acting chief of the crop reporting board operate on a paying basis?" of the Department of Agriculture, after "I think so," he said. the announcement of the July report on grain and produce.

"reflects the rather serious effects of sent his party into the mountains with the drought in June, most of the impact trains by way of Princeton. They portant crops showing a condition which yields below last year and below recent average yields. Foodstuffs, oats tion been too heavy for it to be pos and hay, seem to have been hardest hit. sible to make any accurate survey of Less than two-thirds of a normal crop the mineral deposits of the district. of hav is expected and the oats crop probably will be more than 25 per cent less than last year's crop, and about 12 per cent less than the average for the last five years.

"The corn acreage is the largest ever recorded, but the condition of the crop s about 7 per cent below the average. That indicates a production of approximately five per cent less than last year's record crop, but nearly five per cent more than the average production in the last five years. The condition of the corn crop on July 1, however, was critical.

"The potato crop promises to be unusually short. The acreage has fallen off, probably on account of unsatisfac prices last year, and the condition of the crop now is lower than at any time on July 1 in the last 22 years. Almost a sensational advance in the price of potatoes has been made during the last month. The average price on July 1 was 96.3 cents a bushel.

"Notwithstanding the drought, the wheat crop, both spring and winter, will be well up to the average in total pro-

deal from the average of the last five vears.

"On general crop conditions, the section of the country which appears to have been hit the hardest by the hot

#### NEWSPAPERMEN'S VISIT Portland Scribes Will Tour Vancouver Island and Write of Its At-

tractions. cumnavigating Vancouver Island some left the Mitchell in a yawl, which soon one of the best known newspapermen passengers in the small boat. of the Portland Journal.

They have written to the secretary coast and others on the east coast, and to pull the yawl right side up. that the agent there is not sure how that the agent there is not sure how Among those saved from the wreck they can connect at the upper end of was Miss Clemens disabled mother, the island so as to go one way and whose leg had been broken when she back the other. They think that if they can travel from Quatsino to Aleit being lowered to the Mitchell's deck. bay by any means they can make the trip even if there is a trail that they can walk the distance. The letter conludes by stating that the gentlemen re quite anxious to make the trip even hough they might have to cross id of canoes, muleback, or even on oot, for this would only add zest to he outing.

The letter asked for information re garding the route which would be the best way to travel and several other such questions. It is expected that their route will be by steamer to Quatsino, launch to Coal harbor, trail t Hardy Bay, and back to Victoria along the east coast of the Island.

Should this route be taken the points er plant at Jordan river, and gold mining at Sombrio river and at Wreck Bay.

It is thought that when these journalistic explorers return to their city papers what they have seen and their ideas and opinions of Vancouver Island in its various phases.

### NOT FOUND IN PAYING QUANTITIES

Mr. C. Camsell, Dominion Governmer Expert, Makes Examination of Tulameen Diamonds.

Mr. Charles Camsell, Dominion Govrnment Mineralogical and Geological surveyor, arrived a few days ago in has become recently famous as the discaused widespread discussion in the the camp, but his injuries proved fatal. old world and throughout the Empire In conversation, while at Merritt, Mr Camsell stated that he and his party had been working in the Tulameen fo

tract specimen diamonds from the ings agc, a resolution strongly ex- stalled. The arrangements have been "In this I cannot say we were very successful," said Mr. Camsell, "Inasmuch as the river was very high and copy of the resolution in this regard we were unable to go down so far as being ordered sent to the local member by their daughter, Miss Mona Sullivan,

hem on to Vancouver.

"Are they in payable quantities in the Tulameen?" he was asked. "Well," he replied, "I cannot say that I think they are. There is undoubtedly a large and valuable deposit there, but we have found that the chromite, in which the diamonds occur, being so hard, and not having disintegrated, or tends to powder up as soon as the pressure of the surrounding rock is removed. The shock involved in breaking up the rock around the chromite also shatters the diamonds; so that we found that about all we were able to get was in the form of fine dust, and valueless. We did, however, manage WASHINGTON, July 10 .- "Hot, dry to get a few well preserved samples,

"Then," he was asked, "you think that the work involved in getting out

Mr. Camsell will now go into Steamboat to make an investigation "The report," said Professor Murray, for the Dominion Government. He has pack trains by way of Princeton. They would have gone in earlier, even last fall, had not the snowfall in that sec-
