

"BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in ill ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the red blood corpuscles, carbonic (oxide) gas. This blood, or blood which lacks the oxygen or emitting in anemic people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

is a blood cleanser and alternative that starts the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the heart—nerves—brain and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and strenuous instead of tired, weak and faint. Nowadays you can obtain Dr. Pierce's Golden Medical Discovery Tablets, as well as the liquid form from all medicine dealers, or tablets by mail, prepaid in \$1 or 50c size. Address R. V. Pierce, M. D., Buffalo, N. Y.

DR. PIERCE'S GREAT 1008 PAGE ILLUSTRATED COMMON SENSE MEDICAL ADVISER WILL BE SENT FREE, CLOTH BOUND FOR 50 ONE-CENT STAMPS.

Department Store Collapses

Peterboro, August 28.—A gloom has been cast over the city by one of the worst, if not the worst, disaster in its history. With no more warning than a few ominous cracks that were immediately followed by a rendering of timbers and a crashing of bricks and mortar, a big section of the large departmental store in Peterboro collapsed this morning, killing five and injuring more or less seriously almost a dozen of the occupants.

The obvious cause of the calamity, which occurred before 10 o'clock this morning, was the weakening of the walls by extensive interior alterations, involving the removal of a brick partition, separating what were formerly two stores. A searching investigation will be made by the coroner, who opened an inquest to-night and adjourned it until a week from to-night. The coroner will call in outside architects to give expert testimony, and, if possible, place the responsibility.

During the whole day upwards of 100 people worked in the ruins, first rescuing the living and later removing the bodies of the dead. Even after the last body, that of Miss Dorothy Sisson, had been uncovered this afternoon, the working party did not cease, for it feared that there might be others. By 8 o'clock this evening it was learned that several whom it was feared had been killed were found to be safe.

Some Class to This

TRENTON, N. J., August 28.—Henry G. Moore, formerly of this city, who is known as the "millionaire alimony dodger" because for 10 years he has avoided paying alimony, and now owes his divorcee about \$32,000, is to be examined by a New Jersey lunacy commission to determine his sanity.

Mrs. Scott, in her averment, states that her father is now over 63 years of age, that his habits of life have ruined his constitution and impaired his mind and that he is now under the influence of a Mrs. Belmont, his housekeeper, at his home in Rutherford, N. J., to whom, it is declared, he has turned over all his fortune and who pays all the bills.

Just a week ago Mr. Moore was released from the Bergen County jail under a bond of \$50,000 provided by a surety company. He had been in jail since July 12, charged with contempt of court in not paying the alimony due his wife.

It is told of him that he never walked even two or three blocks if he could find a cab, that he smoked cigars that cost \$6 each, bathed in champagne, and generally threw his money to the winds.

A Clever Horse

We have often said that there is as much difference in horses as in people. They differ in looks, in color, in spirit, in endurance, in disposition and in intelligence. There is no denying that there are some very stupid horses. Many of us know also that there are not a few clever as to startle us with what seems an almost human faculty. One of the best we ever owned, with an absolutely perfect disposition, could free herself from a halter with a facility that was at once astonishing and amusing. When one device for preventing this trick was apparently pondered over by her and its secret solved we tried another. At last we matched her shrewdness, and the first morning she was found with the halter on she seemed, to our imagination, no doubt, to admit by the look in her eye that we had been too much for her.

A story from a Massachusetts town has just come to us of a horse that has learned how to turn the water on to the trough in his stall by working the faucet with his teeth. He never turned it off, however, and so it was taken out and a shut-off placed near the rear of the stall. His owner avers that, standing in the stall untied, a rope behind him, he has now learned to turn around, reach out some three feet and open up the new faucet.

But they have their limits. We know of one which will come from any part of the stable and back into the shafts when the carriage is headed toward the exit. Turn the carriage the other way and she will promptly walk into the shafts with her nose over the dash-board.

Milk Will Keep Sweet Longer in Bottles Made of Red Glass

That light is detrimental to the conservation of milk is well known; lately, however, it has been discovered that the violet rays are the most detrimental, while the red rays are beneficial. Sterilized and unsterilized milk, if in plain glass bottles, "turn" equally quickly when exposed to sunlight.

The claim that the use of red glass or red paper wrappings is of advantage in conserving milk, could very easily be investigated by Canadian dairy companies, experimental farms and agricultural colleges. In future it may be found desirable to deliver milk in the colored bottles which are now generally used for buttermilk. Investigation along these lines would be neither difficult nor expensive to carry on and might prove of advantage.—W.L.C.

Relief for Suffering Everywhere

—He whose life is made miserable by the suffering that comes from indigestion and has not tried Parnee's Vegetable Pills does not know how easily this formidable foe can be dealt with. These Pills will relieve where others fail. They are the result of long and patient study and are confidently put forward as a sure corrector of disorders of the digestive organs, from which so many suffer.

A New York couple is said to have married because they both loved the same bull dog. We trust that their love may never grow cold and that they may enjoy a long period of wedded felicity.

A Smile or Two

"My dear, having your father to live with us won't work." But neither will father."

She—"Is your brother, who is deaf, any better?"

He—"Yes. He was arrested yesterday, and I'm told he is to get his hearing in the morning."—Brooklyn Citizen.

"Do I make myself plain?" shouted the woman suffrage speaker, as she paused to let her arguments sink in.

"The Lord did that for you years ago," said a "mere man" in the rear.

An American tourist was having his boots polished by an Irish shoeblack, and as the latter was administering the finishing touches his patron rudely tossed two coppers on the pavement as a reward. This insult, added to, no doubt, by the fact that the reward was the mere recognized twopenny, caused the shoeblack to exclaim, "Thank ye, sir. The only polish you have is on your boots, and I gave you that."

The Shark is a Slow Swimmer

One ill service nature has done the shark—namely, that of placing a triangular fin on his back which acts as a danger signal and gives warning of his approach. Happily the shark has not been gifted with sufficient sagacity to be aware of this peculiarity, for had he been so he would unquestionably abandon his habit of swimming close to the surface of the water and would in that case be enabled to approach his victim unobserved. The shark is a slow swimmer for his size and strength. Byron observes, "As darts the dolphin from the shark." But Byron was a poet, and does not appear to have been a close observer of the habits of inhabitants of the water or he would have known that a shark would have no more chance of dolphin than a sheep would of overhauling a hare.

Flying Frog

In Java and some other places is a remarkable flying tree frog, with a green back, a white belly and a bright orange colored membrane between its toes, which are tipped by circular discs. Like the chameleon, it can change its color to suit its surroundings. It feeds at night on insects, and when disturbed leaps out of the tree and sails away to safety. Some observers call it a frog, while others say it is a tree toad. The membrane between the toes probably acts as a parachute, and not as a flying apparatus. The toe disc, like similar enlargements on our common tree toad, must act like suckers to hold the animal firmly in place against the trunk or the limb.—St. Nicholas.

Promoting Matrimony

Pascal Favale, a benevolent Paris gentleman who died the other day, has devoted his modest fortune to promoting matrimony. He leaves three sums of £27 10 shillings each to three spinsters on condition that they shall desert spinsterhood. The list of applicants will close by Nov. 15 next. Three names will be drawn by lots from among those on the list. These three spinsters will bind themselves to marry before the expiration of three years. This gives them ample time to look around. On their wedding day, provided that it comes to pass within three years, the £27 10 shillings will be handed to each of the three brides.

Miller's Worm Powders destroy worms

without any inconvenience to the child, and so effectually that they pass from the body unperceived. They are not ejected in their entirety, but are ground up and pass away through the bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

An epidemic of hog cholera has broken out on the creek road in Harwich township.

John Manning, who for many years conducted a blacksmith shop in Strathroy, died in Saskatchewan last month.

COUNTY OF LAMBTON
Treasurer's Notice as to Lands Liable For Sale For Taxes A. D. 1913.

TAKE NOTICE that the list of lands in the County of Lambton liable for sale for arrears of taxes by the Treasurer of the County, has been prepared by me and that copies thereof may be had in the office of the Treasurer of the County of Lambton.

AND FURTHER TAKE NOTICE that the list of lands liable for sale as aforesaid is now being published in the Ontario Gazette in the issues thereof bearing dates the 5th, 12th, 19th and 26th days of July, A. D. 1913.

AND FURTHER TAKE NOTICE that in default of payment of the taxes in arrears upon the lands specified in said list together with the costs chargeable thereon as set forth in said list so being published in the Ontario Gazette before the day fixed for sale of such lands, being the 8th day of October A. D. 1913, the said lands will be sold for taxes pursuant to the terms of the advertisement in the Ontario Gazette.

AND FURTHER TAKE NOTICE that this publication is made pursuant to "The Assessment Act, Edward VII, Chap. 23, and amendments."

Dated at Sarnia this 5th day of July A. D. 1913.

HENRY INGRAM,
Treasurer County of Lambton.
