

A GRAND KIDNEY MEDICINE

"Fruit-a-tives" Cured Him When Everything Else Failed.

Ulverton, Que., March 17th, 1908. I wish to place on record, for the sake of others who may be suffering in the same way that I suffered, that no medicine I ever took did me so much real good as "Fruit-a-tives" did. I suffered for many years with Kidney Trouble, with bad pain in the back.

I took every known kidney remedy and kidney pill, but nothing gave me any relief, and I was getting discouraged.

I was advised to try "Fruit-a-tives" and did so—and this medicine cured me when everything else failed.

I used altogether fifteen boxes of "Fruit-a-tives," and from the outset they gave me relief and I am now practically well again; no pain, no distress, and all symptoms of kidney disease have entirely left me. I am very thankful to be once more well, and I freely make this statement for the sake of others who may suffer as I did. To them, I say try "Fruit-a-tives," as they are a grand kidney medicine.

Will Not be Bumper Crop

Winnipeg, Aug. 9.—All the West is throbbing with interest just now over the condition of grain. It is a source of general conversation, for every line of business between the Lakes and Mountains depends to very considerable extent upon the grain crop of the prairie provinces. The yield will not be a bumper crop. This statement in times past has been regarded in the prairie section as the highest form of disloyalty, but new blood in the West is modifying many ideas and this is one of them. Farmers have suffered from crop boomers, as have business men generally almost every year, and the crop boomer, the man who knows that the yield is to be enormously increased, etc., is becoming unpopular. He is being put up into the same basket with the man who insists that while Manitoba produces the best No. 1 hard wheat in the world, it never gets colder in winter than a mild frosty morning. Crop conditions throughout the West are good, very good, and business as a result is out of all proportion to facilities and equipment, but the yield will in no event exceed an average crop, and it may be slightly under last year's. This condition is due particularly to lack of early moisture in many districts, late in others, and excessive moisture late in the season elsewhere.

GRANULATED SORE EYES CURED

"For twenty years I suffered from a bad case of granulated sore eyes," says Martin Boyd, of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by W. A. WARREN, BRIDGETOWN, N. S. ON THE COUNTRY ROAD.

(Chicago Daily News.)

What joy to walk amid these rural scenes! The very atmosphere's a cure for care.

The peace that comes—(Honk-honk!) Hang those machines! That automobile missed me by a hair.

The dew still lingers on the shining leaf; The tree frog chirps within his green abode.

I love to hear the sweet—(Honk-honk!) The thief! I wonder if he thinks he owns the road.

The woodland glades are passing far to see; There's poetry in each walk and shady tower.

The rapture of the season comes to me—(Honk-honk!) He's going sixty miles an hour.

I love a country stroll, but what's the use? (Honk-honk!) Great guns! That fiend is speeding hard.

I can't think of anything but rank abuse. Henceforth I'll stroll at home in my back yard.

WHAT THEY ARE COMING TO.

Is the following, from the Chicago "Evening Post," a true indication of what we are coming to?

"I don't recall seeing you at college. I guess you must be before my time."

"Possibly, possibly. Who was at the head of the faculty when you were there?"

"Um—let me see—I don't recall his name, but I was there the year Jinks played half-back on the football team and kicked a goal twice from the field in the last half of —"

"O, sure; of course. That was the year our centre rush graded most of the opposing team on his back for a gain of thirty yards. Yes, indeed. I wonder who was president then? I don't seem to be able to remember minor details of college life myself."

LOGIC APPLIED.

(Brooklyn Eagle.)

There is a society in New York that, each year, takes a dozen or so East Side children and gives them the time of their lives for a month at an old farmhouse over in Jersey. The very first thing that takes place upon the arrival of the consignments is a thorough scrubbing.

"Good gracious, Jakey, your bath water is as black as ink," the attendant remarked to a lad at the end of his distressing ceremony. "It is dirtier by far than any of the others."

"Well, ain't I two years older 'an any of them kids?" Jakey demanded.

WHO'S AFRAID OF PANTS?

(Everybody's Magazine.)

Little Robert and Jim, the grocer's delivery man, were great friends; and on the momentous day of Robert's promotion from dresses to knickerbockers, he waited eagerly in front of the house for Jim's coming. But the delivery man, when he came, busied himself about his wagon, without seeming to see anything unusual in his small chum's appearance. Robert stood around hopefully, in various conspicuous positions, until he could stand it no longer. "Jim," he burst out at last, "is your horse 'fraid of pants?"

CHEAP WIT.

"Joel Chandler Harris," said an Atlantan, "used to write comic newspaper editorials. Sometimes he made fun of rival editors in them, too."

"Simon Simpson, a rival editor in Mobile, having been made fun of, wrote angrily in his rag: "Joel Harris has been getting off some cheap wit at our expense."

"Joel, on reading this, grabbed his pen and dashed off, quick as a flash, for next day's issue: "It must have been cheap, Simon, to be at your expense."

WHEN OLD AGE COMES.

If God grant me old age, I would see some things finished; some outworn Some stone prepared for builders yet unborn, Nor would I be the sated, weary sage Who sees no strange new wonder in each morn.

And with me there on what men call the shelf Crowd memories from which I cull the best— And live old strifes, old kisses, some old jest;

For if I be no burden to myself I shall be less a burden to the rest.

If God grant me old age, I'll love the record writ in whitened hair,

I'll read each wrinkle wrought by patient care. As oft as one would scan a treasured page,

Known by heart each sentence craven there. I'd have you know life's evil and life's good,

And gaze out calmly, sweetly on it all— Serene with hope, whatever may befall;

As though a love strong spirit ever stood With arm about you waiting any call.

If God grant me old age, I'd have us very lenient toward our kind

Letting our waning senses first grow blind Towards sins that youthful zealots can engage,

While we hug closer all the good we find. I'd have us worldly foolish, heaven wise,

Each lending each frail succor to withstand, Unrudging, every mortal day's demand;

While fear-fed lovers gaze in our old eyes And go forth bold and glad and hand in hand.

—Burgess Johnson, in Harper's Magazine.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THE PAYNE TARIFF BILL

Washington, Aug. 1.—When majority leader Payne, head of the house conference on the tariff bill which bears his name, rose in the house of representatives to present the report of the conference committee of the two houses on the bill, the measure had been in conference for just three weeks. Contending that the bill makes a general downward tendency from the present rate of duty, Mr. Payne presented an exhaustive analysis of its provisions. He undertook to show that there had been a marked decrease in the rate of the necessities of life, while admitting that there had been an increase on some of the luxuries.

Probably the most marked reductions throughout any schedule in the bill, as a result of the action of the two houses and of the conference committee, are found in the metal schedule. Beginning with the decrease in iron ore there is a general reduction throughout the portion of the bill, pig iron a decrease from \$4 to \$2.50 per ton, and cast iron from \$4 to \$1.

The reduction of duty of the items in this schedule is about 50 per cent., and the schedule includes steel rails. There was increase on structural steel required use.

Rough lumber is reduced from \$2 to \$1.24 per factory, with a corresponding decrease of the different dressed lumber of the same kind.

The wool schedule underwent no change of consequence, but the entire cotton schedule was reconstructed and the phaseline greatly changed in the hope of preventing reductions through decisions by the courts, such as have characterized the administration of the Dingley law during later years.

There is uniform increase in wines and liquors of 15 per cent. In the agricultural schedule hops are increased from 12 to 16 cents a pound.

The publishers won out their fight for lower wood pulp and print paper, the rate on the ordinary newspaper print paper being fixed at \$3.75 per ton instead of \$6 as under the Dingley law, and on the higher grade of print paper at \$3.75 instead of \$8.

Mechanically ground wood pulp is to come in free of duty instead of paying one-twelfth of a cent a pound as under the Dingley law, but provision is made for a countervailing duty in case it becomes necessary to protect this country against Canada's prohibitions upon the exportation of woods to the United States. Hides of cattle come in free of duty, and a corresponding reduction in leather and leather goods.

Bituminous coal is reduced from 67 cents per ton to 45 cents. Agricultural implements go off from 20 per cent. ad valorem to 15 per cent. and the older works of art are placed upon the free list.

Petroleum, which received much attention in both houses, slipped through without any duty. There was practically no change in the wool schedule from the rates of the Dingley law, but there was a readjustment between the tops and yarns and a small decrease on cloths with a cotton warp.

Hides were placed on the free list while the rate on band and sole leather is reduced from 20 per cent. to 5 per cent. ad valorem; on dressed leather from 20 per cent. to 10 per cent., boots and shoes from 25 per cent. to 10 per cent.

Plaster rock or gypsum, crude, from 50 to 30 cents per ton, ground or calcined from \$2.25 to \$1.25. There is a general reduction in mica to 40 per cent. ad valorem. There was before a mixed specific and ad valorem system.

In the lumber schedule the only increases were those on shingles, from 30 cents to 50 cents per thousand, and the briar wood and laurel wood for the use of pipe makers from the free list to 15 per cent.

The rate on saved lumber was decreased from \$2 per thousand to \$1.25 per thousand. There was also a diminution on timber from one cent per cubic foot to one-half cent, and on sawed boards of white wood and kiln-dried woods from \$2 per thousand to 50 per thousand.

The reduction in the differential rates in favor of dressed lumber averaged about one-third of the Dingley rate. Paving posts, railroad ties and telephone poles reduced from 20 to 10 per cent. ad valorem. Clapboards from \$1.50 to \$1.25; laths from 25 cents to 20 cents per thousand, while fence posts and kiln-dried wood were taken from the dutiable list and placed on the free list.
