

Little Things.

to hide into the lake
The public was small
The lake was wide
Sitting waves, by that side
A lesson that will not fade
While men on this earth abide
my love to a sorrowing world
The world was feeble
The world was wide
my mate met with the sinking bark
to die along in the dark
And a man rolled in with the tide
to beaten for a sinning world
My prayer was weak
His goal was strong
the little world were washed out white
for the soul that creviced up to the light
And the scepter became a sword
P. H. CHASE

AS OTHERS SEE US.

U and some power the gifts we see
To see ourselves as others see us
It was free money a slender tin
In foolish notion.
It is very neat in appearance and is well edited
The Canadian Column (Chc)
After looking over the paper, we see it has all
points as regards neatness in make up
Isleto News
THE CANADIAN MUTE reached our table last
week. It is a very neat and readable paper and
the tablet was glad to make hands with it. The
West Toronto Tablet.
It is a most and interesting paper with which
we are greatly pleased. Prof. Deane enjoys read-
ing the paper very much because Belleville is
his home.—Toronto Herald
The "Art Progressive" is a most desirable one
for pupils and Superintendent Matheson has
acted wisely in introducing it into the Belleville
Institution.—Weston Herald
J. D. Sawicki, Toronto. I am very glad of the
commencement of this paper and congratulate
the editor on the editorship secured. May it be
an added ray of sunshine from the source of light.
THE CANADIAN MUTE is the name of a semi-
monthly and printed up little paper at the Insti-
tution for the deaf and dumb, Belleville. Its
main object being to teach some of the pupils the
interesting art of printing.—Chatham Express
The first number of the CANADIAN MUTE has
been received. It is printed at the Belleville
Institution, and will be issued semi-monthly.
It is a most interesting paper, and far
ahead of most of the papers published in the
state.—Isleto News
We received this week the first number of a
paper issued at the Deaf and Dumb Institute,
Belleville and published to teach the art of
printing to some pupils of the Institute. It is a
very neat publication. We wish it every success
in its mission.—Toronto Journal
We have received No. 1 Vol. 1 of THE CANA-
DIAN MUTE, a pretty eight page paper printed at
Belleville Ont., for the pupils of the deaf mute
Institution there. It is a most interesting
and will contain items of interest to the deaf
from all parts.—Hull and Ontario Leader
THE CANADIAN MUTE is a new publication in
the interest of the Ontario Deaf and Dumb
Institute of Belleville. It is neatly printed and
will prove of great interest not only for the deaf
and dumb but to others. The type of the first
number was nearly all set by the students of the
Institute.—Deseronto Tribune
Our neighbor at the northern limits has
now a paper of her own which is one of the most
valuable we have ever seen. It is with the
greatest pleasure that we welcome to our
little circle the CANADIAN MUTE. That she
may maintain hereafter the reputation of her
first number is the earnest desire of us all.
West Virginia Tablet.
May we of California greet Canada in honor
of the appearance of the first deaf-mute newspaper
THE CANADIAN MUTE. Its first number came
in its last week. We were surprised and delighted
at its publication every two weeks at the school
for the deaf at Belleville, Ontario. It is a splendid
paper, neatly printed and well edited. The
News, Berkeley, California.
We have received the first copy of THE CANA-
DIAN MUTE, a semi-monthly paper published by
the Deaf and Dumb Institute at Belleville, the
object of which is to teach pupils the art of print-
ing. The paper is neatly gotten up and well
edited, and should receive the patronage of all
who are interested in the education and welfare
of the deaf and dumb.—Chatham Press Herald
We have received from across the line the in-
formation of the THE CANADIAN MUTE, which
we hope to notice at length in our next issue. It
is published at the Institution for the deaf at
Belleville, Ontario. Its mechanical make up is
absolutely faultless. It is certainly one of the most
valuable deaf-mute publications we have seen, and
deserves great credit upon the institution which
it represents.—Deaf Mute Tribune
The latest newspaper for the deaf and one of
the best to reach our desk is the Canadian
Mute. It is full of interesting reading matter
pertaining to the deaf and we shall always look
forward to its coming with delight. We must
confess, however, that we are in accord with the
views expressed by the Minnesota Connection
that the word "mute" should be changed, for
the reason that the general tendency now-a-days
is to do away with the objectionable term "deaf-
mutes".
THE CANADIAN MUTE is a neat eight-page
paper to be published semi-monthly at the
Belleville Institution for the Deaf and Dumb.
The first number is an excellent specimen,
correct in typography, well printed on good
paper and filled with interesting matter. The
correspondence is deserving of support and will ap-
pear cheerfully in the sympathies of all who feel
for the sad deprivation of this unfortunate
class of our fellow citizens.—Canadian Baptist
Another one, Volume one of the CANADIAN
MUTE is on our desk. It is a bright, happy well
printed sheet and printed on beautiful paper.
We welcome you, Canada. We like your looks.
We don't particularly like your name. We don't
like that word MUTE. We don't like it in our
name any more than elsewhere. Let us don't
like it just the same. We hope you will fill to
the brim with news, and that you will be a power
for good in the Queen's Dominion.—Nebraska
Mute Journal

THE CANADIAN MUTE, an eight page semi-
monthly paper published in the Belleville In-
stitution by Mr. H. Matheson formerly of the
Belleville streets located in the interest of
those possessed of all the five senses and a
copy of the new sheet doesn't cost the same
either. It is printed on good paper and is filled
with choice and interesting and local matter. We
add it to our exchange list with pleasure.
Isleto News.

The first number of THE CANADIAN MUTE, a
new paper for the deaf and dumb, published at
the Belleville Institution for the Deaf and Dumb,
Ontario, Canada, has reached us. It is very neat-
ly printed and got up in good shape, credit be
able to the Institution and the printer. It will
be published semi-monthly at five cents a year.
The number contains a list of all the deaf and
dumb persons in the Belleville area, and a
number of interesting articles. The MUTE
is a most valuable paper for the deaf and dumb,
and for the friends of the Institution.—Toronto
Herald

THE CANADIAN MUTE, a paper for the deaf
and dumb, is a most interesting and valuable
paper. It is published at the Belleville Insti-
tution for the Deaf and Dumb, Ontario, Canada.
The paper is neatly printed and well edited,
and contains a great deal of interesting and
valuable matter. It is a most valuable paper
for the deaf and dumb, and for the friends of
the Institution.—Toronto Journal

and for the friends of the Institution.—Toronto
Journal

No. 1 volume one of the MUTE, a new paper
has just made its appearance, printed and pub-
lished at the Institution for the Deaf and Dumb
at Belleville. It is a fine toned paper, neatly
printed and well edited. Mr. Matheson, the
Superintendent of the Institution, is a pro-
fessional printer, and the first number gives evi-
dence of his own skill. It is a most valuable
paper for the deaf and dumb, and for the friends
of the Institution.—Toronto Journal

Miss M. M. O'Brien. During my absence of
some months from the Institution for the Deaf
and Dumb, Belleville, Ontario, Canada, I have
been very much interested in the progress of
the paper, which is a most valuable paper for
the deaf and dumb, and for the friends of the
Institution.—Toronto Journal

PUPILS' LOCALS. From the Girls' Side of the Institution. PUPILS' LOCALS. From the Boys' Side of the Institution.

Winnie Ballagh was suddenly called
home. She was not informed what for,
but we hope some of her relations are
well.

Miss Walker has been in Kingston
for some time visiting an old friend.
Miss Cudgill acted as matron during
her absence.

Mabel Hall has set girls crazy by
exhibiting some lovely paper roses, in
a bunch. Paper flowers are fashionable
around here just now.

Florence Gantner received a parcel from
home. She was much pleased to get it,
and also was very much pleased with its
contents. She also gets parcels.

Miss Sarah Hale, who was given to
work in absence to attend her
sick sister is back in her old place, look-
ing all the better for her holiday.

A great many of the pupils mothers
and sisters are getting married this year.
I dare say the pupils are glad, because
they like to say "My married sister."

Lately while iceboating Maggie Vane
had her nose frozen. Some of the boys
kindly rubbed it with snow. It is a little
swollen now, but she does not mind it.

Fannie Ball seems to be the favorite of
the little girls. The other day she got
64 apples from home. We are glad to
hear that she is such a good little girl.

Grace Muckle seems to be very un-
lucky this term. Last Monday she fell
on the ice and cut her knee badly. It
is very stiff and sore and she has to stay
in bed.

Mabel Ball and Mary Lynch received
photos of Martin Campbell and her
deceased sister. They were very much
pleased but think Martin is much
changed.

It is only fourteen weeks till vacation
and the girls are already counting the
days. They say that if the snow would
only go away it would make vacation
soon nearer.

We think Emma Hottington gets the
most letters in the Institution. Hardly
a day passes but she gets one. It is really
too bad. She might give some less
fortunate person a few.

Jennie Burke went to see her friend
Miss Grace Fenton. She had not been
there long before she was invited for a
drive, which she accepted. She says
she enjoyed it very much.

We are very sorry to hear that Maud
Thomas is again laid up. Miss Walker
can not find out what ails her. Maud
has not been well at all this term. We
hope she will be better soon.

While having a ride in David Lennox's
sled on a late Saturday Mabel Ball
fell out and bumped her head on the ice.
She was only dizzy for at least five
minutes but soon recovered.

While Miss Ball was on duty, she took
the girls for a long walk across the bay.
They saw the hurrer houses. They all
enjoyed the walk immensely and returned
with rosy cheeks and keen appetites.

Lavet Enslay, one of the girls found a
small dead mouse. She took it by the
tail and held it under M. Kennedy's nose.
M. Kennedy knocked it out of her hand,
picked it up, and chased a lot of girls
with it.

Early every morning the girls get up
and take walks. They heard that a
walk before breakfast sharpens the ap-
petite. I am sorry to say that a great
many girls don't get up till the last min-
ute. Warm weather will doubtless cure
them of their laziness.

FROM MILTON.

John Hinton a former pupil of the
Institution has been visiting J. R. Newell
at Milton. He says his parents and all
the family are going to the States to
live. They will move this Spring. A
new shoe factory is to be started in West
Milton soon. The deaf boys residing in
that vicinity hope that some of the
graduates of the shoe shop here will find
employment in the factory as they want
more such congenial company. J. R.
Newell is working on the farm with his
father and expects to be busy before
winter, as they have much to do. He
is much pleased with the CANADIAN MUTE,
which he reads with interest and profit.

The little boys are having great fun
with their sleds at their leisure.

The boys have seven iceboats. We
cannot just tell how many are on the
bay.

The swiftest iceboat on the Bay of
Quinte is Mr. Douglas'. The swiftest
one of the boys is Joseph Faubert's.

A new boy came here for an education
on the 1st inst. He is from Picton,
Prince Edward Co. His name is
Harley J. Head.

The ice on the pond is in very poor
condition. We have not skated on it
since we had our carnival. We cannot
skate on the bay either, as the ice is so
rough.

We had a part holiday on the 1st inst.
We went iceboating and had a grand
time. It was a little cold, and the
pupils came from the bay with rosy
cheeks.

Thomas Hill, who was told to go to
the post office for the mail, started at
twenty minutes past seven o'clock in
the morning and returned at a quarter
to eight. We think he is the swiftest
one to do it.

It will soon be Spring and we will be
glad that we can play base ball. We
think we will organize a club soon. We
hope we will have more games than we
had last year. Perhaps James Chantler
will be the pitcher.

Mr. Burns, formerly foreman for the
Port Hope Guide, came here. He is
going to be the foreman of our printing
office. Mr. MacDiarmid, who was
formerly here, is going to take charge
of the Ontario, Belleville. We wish
him every success.

Miss Perry, who was an old pupil of
this Institution, came here on a visit on
the 24th ult. She went into the printing
office, and thought it was a nice one.
She stayed here till we had our supper.
She is a governess to Mr. Greene's
children in the city of Belleville.

We first went iceboating on the 27th
ult. It was a fine day, and the wind
enough for us to sail our iceboats.
Some of the pupils got cold and went
into the pump house of the Institution
to get warm. Mr. Douglas has a new
iceboat and he took a race with Mr.
Thompson's boat, the former was vic-
torious.

At half past one o'clock, on the 17th
ult, when school began, a pupil of Mr
Coleman's class was going out on the
piazza, which is attached to his class-
room. Another boy pushed him, and he
got his head cut a little on the glass of
the door. The wound was inspected,
there being fear that some glass was in
it but it was all right. One pane was
broken.

If a boy has a habit of work, he is all
right.

Miss Eliza Brown was married last
October, at Brighton, to Mr. Andrew
Alexander.

The value of the buildings and grounds
of all schools for the deaf in the United
States reaches \$10,250,000.

The Kentucky Institution is sixty
nine years old, and has given instructions
to one thousand and twenty-five pupils.

The Illinois Institution has a military
company, uniform guns, bayonets and
all, and has a regular instructors in
military tactics.

Mr. W. Bateman a graduate of the
Kendall Green College, is doing well as
a photographer at Halifax, Nova Scotia.
He was a pupil here for two years.

Mr. Jas. Hadden, who is pursuing his
art work in Detroit, has been a victim
of the prevailing epidemic. He was
improving when last heard from, and
expected to be out in a few days.

We see it stated that Dr. Gallaudet
has written an article for a New York
educational journal concerning methods
of teaching the deaf. He is said to
vigorously uphold the combined system.

The slovenly pupils at the Illinois
School are punished by making them
wear a uniform of bed-ticking. It is
said, and we can really believe it, that
it makes a boy keep himself spruce after
he has once been through the ordeal.
