

DON'T RIDE A CHEAP WHEEL

It Is Not Necessary

It Is Not Economical

It Is Not Safe

The time spent in tinkering up a **Cheap** wheel is seldom regained. Anyway not without additional labor.

The "E & D" is not **CHEAP** in any sense of the word. In material, etc., it is high-class. It has four-point adjustable

E & D

bearings that are dust and oil proof. They require cleaning and oiling but once a season. They are guaranteed for three years, but will last a lifetime. The '98 models are on exhibition. Come and see them. They are perfection in every sense of the word.

1898 Gents' Model	\$ 85.00
" Ladies' Model	85.00
" E & D Special	100.00
" E & D Racer	100.00

Correspondence solicited.
