

THE BAKER HOT WATER CAR HEATERS

TEN STYLES

Attention is especially called to our STEEL HEATERS, the JOINTLESS FIRE PROOF and the RIVETED, SINGLE and DOUBLE COILS. Made of ONE QUARTER INCH STEEL. The RIVETED HEATER was constructed to meet demand for a SMALLER and CHEAPER Heater than the Jointless.

The "PERFECTED" HEATER, Single and Double Coil.

The "MIGHTY MIDGET," 19 inches in diameter, has Expanding Coil, and will heat a 55 foot car. This Heater is especially adapted to ELECTRIC CARS.
