

This book is an invaluable aid to the physician in handling cases where careful dieting is necessary. The fact that it has been recommended by the United States and Canadian governments and adopted

for use by the medical department and placed in every army post indicates its value. For sale by

SAL HEPATICA

is especially valuable when there is torpidity of the bowels or intestinal sluggishness arising

from organic derangement of the liver, kidneys or central organ of circulation. It is the best agent for the relief of that form of costiveness that is ushered in by an attack of colic and indigestion, and not only clears away the effete and irritating agents lodged in the alimentary tube but eliminates the semi-inspissated bile that, too frequently, induces the so-called "bilious" condition; at the same time an abundant secretion of normal bile is assured, thereby demonstrating its value as a liver stimulant and true cholagogue.
