BAND AND CIRCULAR RE-SAWS

are a necessity in a saw mill. They increase the capacity of a mill one-third when logs are small, by slabbing heavy and re-cutting all slabs on re-saw, using a 19-gauge blade.

They make two plump boards out of a bad face deal.

Transfers supply them and not over four extra men required to run one.

If some large mills can use three and four, you can surely find one profitable. Will be pleased to send you particulars and prices.
