MASSEY-HARRIS

Conbined Hoe Drill and Spring Tooth Broadcast Seeder

REAR VIEW, SET UP AS A DRILL.

THE SPRING TEETH INTERCHANGEABLE WITH THE HOES ARE SHOWN LOOSE ON

This is positively the lightest, strongest, and in every way the best combined machine yet produced. It represents the best features of

"WISNER,"

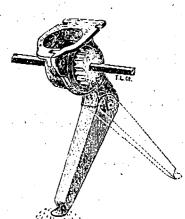

the "GOLDFINDER,"

and the "SUPERIOR"

COMBINED DRILLS,

together with some valuable new features, consolidated into one machine.

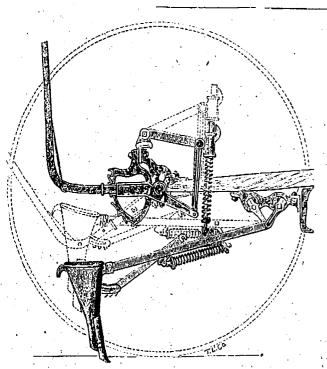

THE LATEST

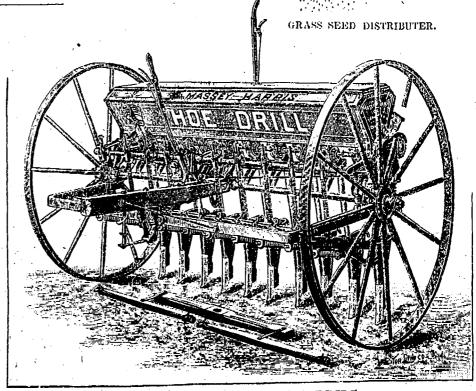

All Steel.

Neat in Appearance.

Mechanical Principles Unexcelled.

OPERATION OF THE PRESSURE LEVER ILLUSTRATED. THE SAME LEVER LIFTS THE HOES FOR TRANS-PORTATION AS SHOWN BY THE DOTTED LINES.

FRONT VIEW, SET UP AS A DRILL.

MANUFACTURED BY

MASSEY-HARRIS CO., LIMITED, TORONTO, CANADA.
