Catarra, Catarrhal Deafness, Hay Fever.

A new Home Treatment. Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks. N.B.—For catarrhal discharges peculiar to females (whites), this remedy is a specific. A pamphlet explaining this new treatment is sent on receipt of ten cents by A. H. Dixon & Son, 303 West King St., Toronto, Canada—*Scientific American*.

Sufferers from catarrhal troubles should carefully read the above.

HARVARD UNIVERSITY.

SUMMER SCHOOLS.

Harvard University offers summer instruction in the following departments, viz.:

Four courses in Chemistry, two in Experimental Physics, three in Geology, two in Topography; also courses in Botany, French, German, Physical Training and Medicine.

Except the courses in Medicine and the advanced courses in Geology, they are open to both men and women.

For information, address Secretary of Harvard University, Cambridge, Mass.
