

ANNEX

TERMS AND CONDITIONS GOVERNING THE ESTABLISHMENT, MAINTENANCE AND OPERATION OF TWO MINI LORAN-C STATIONS IN ONTARIO

1. *Cooperating Agencies*

The project shall be conducted by Cooperating Agencies designated by each Government. On the part of the Government of the United States of America the Cooperating Agency will be the United States Coast Guard, (hereinafter referred to as U.S.C.G.) and on the part of the Government of Canada the Cooperating Agency will be the Canadian Coast Guard, (hereinafter referred to as C.C.G.). Either Government may change the designation of its Cooperating Agency by means of a notice in writing to the other Government.

2. *Site Selection*

The C.C.G. will select two sites for the Loran-C transmitting chain in the vicinity of St. Marys River, Ontario. The U.S.C.G. will provide assistance in site selection at the request of the C.C.G. Location of the antennas, ground systems and buildings on the selected sites will be the responsibility of the selected contractor, based on guidelines provided by the U.S.C.G. The chain will include two similar sites in the vicinity of the St. Marys River, Michigan.

3. *Land Acquisition*

Land required as sites and access roads for the stations located in Canada will be acquired by the C.C.G. at C.C.G. expense. Ownership shall be vested in the Crown in right of Canada.

These sites, located in the general area of Dennis Township and Gordon Lake will be made available to the United States for the use of the chain at no cost to the U.S.C.G.

4. *Loran-C Electronic Equipment*

The U.S.C.G. will furnish all electronic equipment, including spare parts, necessary to produce, receive, synchronize and monitor the Loran-C signals, and retain title thereto. This equipment will include communications equipment necessary for operational control among the stations in the Loran-C chain.

Installation will be accomplished by contractors at U.S.C.G. expense. Technical assistance for installation will be provided without charge by the U.S.C.G. Field changes developed by the U.S.C.G. will be provided by the U.S.C.G.

5. *Primary Power and Land-line Service*

Primary electrical power and land-line service (including telephone and data circuits) suitable for operation of the two Loran-C stations in Canada will be provided by the appropriate Canadian public utility services at U.S.C.G. expense. The U.S.C.G. will identify the power requirements of electronic equipment which it will furnish and will make the necessary arrangements with the power company. The U.S.C.G. will identify the land-line requirements and C.C.G. will make the necessary arrangements with the telephone company.

6. *Antenna and Ground Systems*

The U.S.C.G. will provide and the contractor will erect the Loran-C transmitting antennas and ground systems. The transmitting antennas are to be constructed and erected in conformity with design specifications and erection criteria to be provided without charge by the U.S.C.G. and will be consistent with Canadian regulations.
