[Translation]

**Mr. Paul:** Mr. Speaker, I was paired with the Associate Minister of National Defence. Had I voted, I would unfortunately have voted against your decision.

[Text]

**Mr. Pennell:** Mr. Speaker, I was paired with the hon. member for Middlesex East (Mr. Millar). Had I voted I would have voted to sustain your ruling.

**Mr. Mackasey:** Mr. Speaker, I was paired with the hon. member for Bow River (Mr. Woolliams). Had I voted I would have voted to sustain your ruling.

**Mr. Lloyd:** Mr. Speaker, I was paired. Otherwise I would have voted in favour of upholding your ruling.

**Mr. McLean (Charlotte):** Mr. Speaker, I was paired. If I had voted I would have voted to sustain your ruling.

**Mr. Deputy Speaker:** Is the house prepared to vote on the amendment to the main motion?

**Mr. Horner (Acadia):** Mr. Speaker, I am prepared to speak on the amendment.

**An hon. Member:** It is ten o'clock.

**Mr. Horner (Acadia):** Mr. Speaker, it is interesting to see that—

**Mr. Deputy Speaker:** Order. The Chair recognizes the hon. member for Greenwood. Is the hon. member rising to declare a pair?

**Mr. Brewin:** No, Mr. Speaker, I was rising to speak on the amendment and motion now before the house, although I was going to bring your attention to the fact that it is now ten o'clock.

**Mr. Deputy Speaker:** Order. The Chair was under the impression that the hon. member for Greenwood was rising on a different question. The Chair is now prepared to recognize the hon. member for Acadia.

**Mr. J. H. Horner (Acadia):** Mr. Speaker, it was interesting to note that the government voted against referring the subject matter of this bill to the standing committee for study. They suggest that this is new or experimental legislation, but by their actions they have indicated they do not wish to expose the provisions of this bill to close scrutiny by that committee. This bill could have been referred to that committee by unanimous vote in favour of the subamendment.

**Some hon. Members:** Oh, oh.
