Dear Sir,

May I call your attention to an article in the November Atlantic Monthly entitled "What are College Games For" by Alexander Meiklejohn. This was rather interesting to me after our discussion at dinner when you were in Grand'mere. There is one point which the writer emphasises which I tried somewhat unsuccessfully to bring out in the discussion. He says;

" We need from our friends support and favour  
"but far more than these we need from our own  
"graduates genuine and sympathetic understanding  
"of what we are trying to do."

Sincerely yours,

LA/JL
