

# INTRODUCTORY.

---

**PHYSICIANS** and Scientists, Chemists and Bacteriologists have for years been applying themselves to the task of discovering something to relieve and ~~cure~~ that most distressing and torturing group of Diseases,—Rheumatism, Sciatica, Lumbago, Gout and Neuralgia. Their investigations have not been altogether in vain, for to-day we have as the product of patient, scientific research and experiment, a remedy which is positively *guaranteed to relieve and cure* these Diseases,—**MILBURN'S RHEUMATIC PILLS.**

They come to the relief of twisted muscles, swollen limbs and distorted joints. They make the pains and aches vanish, unloose the stiffened joints and give back the use of helpless limbs.

Your past experience with Rheumatic Cures may not have been satisfactory, and has nothing to do with Milburn's Rheumatic Pills, as they act on an entirely different principle from any Rheumatic Cure ever presented to the public. We make no statements regarding the merits of this remedy which cannot be borne out by experience, and the testimony of reputable persons which we print in this book, we ask you to consider carefully,

Write these parties, ask them if their cure was not genuine, find out all you can about Milburn's Rheumatic Pills, and we are confident you will come to the conclusion that they are the one remedy for Rheumatism and kindred diseases.

**GUARANTEE.**—In order that sufferers may have an opportunity of testing for themselves the remarkable curative properties of Milburn's Rheumatic Pills, we authorize all druggists to sell the first box, *and the first one only*, on the understanding and with the guarantee, that if the person for whom it was intended takes the remedy according to directions and *derives no benefit whatsoever* from its use, they may return the empty box and wrapper to the druggist from whom they made the purchase and have their money refunded. This gives sufferers an opportunity of testing Milburn's Rheumatic Pills without the slightest risk of loss, and ascertaining if they are likely to prove of benefit in their special case.

T. MILBURN & CO., 55 Colborne St., Toronto, Ont.
