STEEL TROUBLE AWAITING CONFERENCE OUTCOME

Little Chance of Break in Strike Until After Industrial Meeting at Washington—Little Material Change in General Situation.

Associated Press. Pittsburgh, Sept. 30.—Both sides in the strike of the steel workers, now in its ninth day, are awaiting developments at the industrial conference which will open at Washington next Monday and it was said last night that there seems little chance of a "break" either way until then.

Through the affected territory there was little material change yesterday. Strike leaders and representatives of the companies continued to give out conflicting statements—the former maintaining that they were not holding the men already out, but making substantial gains, and the latter that the plants were being operated with more men than at any time since the strike began.

At national headquarters of the strikers it was said that 87,000 men were out, an increase of 25,000 over the number reported out by the strike leaders last week.

Urged to Stick Together. Labor leaders announced that daily bulletins would be sent out to inform the men of the course of the strike. Circulars yesterday urged the men to stick together and declared that the steel workers "have almost every plant in the country shut down."

In the Pittsburgh district, indications were that the day had brought little material change, while in Chicago it was said that the "tension had increased" between the warring forces, but no serious violence was reported.

The plants were operating with from 25 to 30 per cent of their normal forces, it was said. Reports to labor headquarters said it was "absolutely peaceful" in the Chicago territory and that there was picketing at all points.

The strike leaders were said to be somewhat disconcerted by the decision of the Allegheny county court in upholding the action of the mayor of Duquesne in preventing mass meetings in that city.

Hold Request for Troops. Authorities at Waukegan, Ill., conferred with union leaders in regard to calling on Governor Lowry for state troops, but the labor men gave assurances that they would redouble their efforts to control the strikers, and the request for troops was held in abeyance.

Governor Goodrich of Indiana sent Col. J. R. Harrison to Gary to inspect the situation and report to him. Authorities denied that they had any intention of asking for state troops unless the situation grows more serious.

The Bethlehem Steel Co. said that no reports of disorders had been received and that the strike situation showed improvement over Monday.

OTTAWA RESCINDS MILK PRICE ORDER

Announce in Commons That Commerce Board Takes This Action.

Canadian Press Despatch. Ottawa, Sept. 30.—Mr. Donald Sutherland asked in the commons today whether newspaper reports stating that the vice-president of the board of commerce had rescinded his order of dairy products and threatened farmers charging more than the price with fine or imprisonment was correct.

The plants were operating with from 25 to 30 per cent of their normal forces, it was said. Reports to labor headquarters said it was "absolutely peaceful" in the Chicago territory and that there was picketing at all points.

The strike leaders were said to be somewhat disconcerted by the decision of the Allegheny county court in upholding the action of the mayor of Duquesne in preventing mass meetings in that city.
